Harlequin I type "International Teaching Jobs" on the Google search line and find several sites, but I decide on one particularly useful site for which I pay a slight fee, and I find myself looking at a long list of teaching jobs all over the world. "Anything in Latin America?" my wife Chantal asks, coming into the room. "No... but here's one in the Congo." I hit the submit button and my resume is off across the world. What follows are four action-packed years of living, working and traveling in sub-

saharan Africa. This book chronicles the first year and a half of these adventures, including the day-to-day life of a teacher at The American School of Kinshasa from 2005-2007 who deals with a marginal infrastructure, the everyday challenges of living in a war-torn third-world country, and adventures in Zimbabwe, South Africa, Mozambique and Ethiopia. The adventure is continues with the sequel to this book, *Calculus in the Congo Book 2*. *Combating Cult Mind Control: The #1 Best-selling Guide to Protection, Rescue, and Recovery from Destructive Cults* Lulu.com This page-turning collection contains five Cassie Palmer novels by New York Times bestselling author Karen Chance. *Touch the Dark Claimed by Shadow Embrace the Night Curse the Dawn Hunt the Moon*

This 2018 30th anniversary edition honors the 40th anniversary of the tragedy in Jonestown, Guyana. On November 18th, 1978, over 900 people including a U.S. congressman Leo Ryan died because of Cult Leader Jim Jones.

Over 300 were children forced to drink cyanide-laced Kool-Aid by their parents who believed they were doing God's will. The techniques of undue influence have evolved dramatically, and continue to do so. Today, a vast array of methods exist to deceive, manipulate, and indoctrinate people into closed systems of obedience and dependency. If you are reading this updated book for the first time, please know that you have found a safe, respectful, compassionate place. This book can help you protect or regain your sanity, freedom, and health. It can also help you protect others from the use of mind control techniques. In this 30th anniversary volume you will find:

- New stories of people who fell under the sway of cults and other forms of undue influence but who were able to break free.
- Information on the many sophisticated ways that social media are now used for mind control.
- Updates on the many types of organizations that use mind control.
- Information on the neuroscience behind mind control.
- A look at what legislators, courts, mental health professionals, and ordinary citizens can do to resist mind control and make our world a safer place.

Sadly, the essential information in this book is still not widely known or understood. People around the world remain largely unprepared for the new realities of mind control. But you are far from helpless. There is a great deal you can do to stay safe, sane, and whole - and to help the people you care about to do the same. And if someone you love is already part of a mind control group, there is much you can do to help them break free and rebuild their life. This book will give you the tools you need. As you read this book, you will learn to develop, use, and trust your critical thinking skills; your intuition; your bodily and emotional awareness; your ability to ask the right questions; and your skill at doing quick, useful research. You will also learn to create a healthy balance of openness and skepticism. As you will see, the entire process begins and ends with discernment.

FIVE STAR AMAZON REVIEWS for the first edition:
"Every community practitioner caring for children and families should carry this book with them." "As a team manager for a social work team, I think this is a great book that I will use with unqualified,

student and newly qualified social workers who are undertaking ALL home visits... Overall, a great resource that I predict will become my new bible." Conducting a home visit is a fundamental part of a social worker's role, but in practical terms many key issues are overlooked during social work training. This is a practical guide to conducting home visits, a task which many newly qualified social workers can feel unprepared for and which can be fraught with difficulties. Useful features of this book include:

- Real case examples based on practitioner's experiences
- Realistic solutions to the everyday difficulties you might face
- Examples of what to say
- Reference to the latest

guidance, including Working Together to Safeguard Children (2013) to ensure you are practicing in line with statutory requirements and expectations. • Guidance and support in understanding lessons learned recent child protection SCRs

Written by an experienced social worker and expert in child protection, this book is clear, straightforward and jargon-free. It will be a useful aid to any professionals required to do home visiting. The book addresses:

- What you need to do to prepare for the visit
- How to get in the door
- What to do when you are in the home
- What you need to look out for
- Practical ways to implement lessons learned from recent serious case reviews

"I'd like to start by

writing that this pocket book of fabulous knowledge is NOT just for social work in the child protection arena. This book has so many wonderful hints and tips surrounding home visits in general that I recommend this book as a pocket friend for anyone who, like me, is daunted by the dreaded home visit! This book is written from personal experiences and practice examples, to aid consolidation and understanding. Helpful, thought provoking questions run throughout the book, highlighting key areas to think about before and during a home visit. Alongside these questions there are 'light bulb' reminders to ensure that key points are easy to notice. I feel this book excels in deconstructing the situations that we

all panic over, from aggressive dogs, a child answering the door or even language barriers. Additionally unlike most books, this book can be dipped in and out of, and does not need to be read from cover to cover. Conducting a home visit in child protection not only contains written information, but also contains diagrams, practice examples, transcripts, check lists and a very useful glossary! A must read for ANY social work student, Newly Qualified or Practitioner!"
