How does an affluent, middle-class, private-school-attending son of a doctor end up at the Aryan Nations compound in Idaho, falling in with and then recruiting for some of the most notorious neo-Nazi groups in Canada and the United States? The Cure for Hate paints a very human picture of a young man who craved attention, acceptance, and approval and the dark place he would go to get it. Tony McAleer found an outlet for his teenage rage in the street violence of the skinhead scene. He then grew deeply involved in the White Aryan Resistance (WAR), rising through the ranks to become a leader, and embraced technology and the budding internet to bring white nationalist propaganda into the digital age. After fifteen years in the movement, it was the outpouring of love he felt at the birth of his children that inspired him to start questioning his hateful beliefs. Thus began the spiritual journey of personal transformation that enabled him to disengage from the highest levels of the white power movement. This incisive book breaks commonly held stereotypes and delivers valuable insights into how regular people are drawn to violent extremism, how the ideology takes hold, and the best ways to help someone leave hate behind. In his candid and introspective memoir, Tony shares his perspective gleaned from over a thousand hours of therapy, group work, and facilitating change in others that reveals the deeper psychological causes behind racism. At a period in history when instances of racial violence are on the upswing, The Cure for Hate demonstrates that in a society frighteningly divided by hate and in need of healing, perhaps atonement, forgiveness, and most importantly, radical compassion is the cure.

Bruce Lee Jeet Kune Do is the iconic book presenting the martial art created by Bruce Lee as explained in the master's own words. In 1970, Bruce Lee suffered a back injury that confined him to bed. Rather than allowing this to slow his growth as a martial artist, he read feverishly on Eastern philosophy and Western psychology and self help books, constructing his own views on the totality of combat and life. It was during this time that Lee wrote 7 volumes containing his thoughts, ideas, opinions, and research into the art of unarmed combat, and how it applies to the everyday life. Some of this material was posthumously published in 1975, but much more existed. This landmark book serves as a more complete presentation of Bruce Lee's notes on his art of Jeet Kune Do. The development of his unique martial art form, its principles, core techniques, and lesson plans are presented here in Lee's own words. It also features Lee's illustrative sketches and his remarkable treatise on the nature of combat, success through martial arts, and the importance of a positive mental attitude in training. In addition, there are a series of "Questions Every Martial Artist Must Ask Himself," that Lee posed to himself and intended to explore as part of his own development, but never lived to complete. Jeet Kune Do: A Comprehensive Guide to Bruce Lee's Martial Way is a book every Bruce Lee fan must have.
