The Exclusive
Method You Can
Use to Learn—Not
Just Memorize—E

essential Words A powerful vocabulary expands your world of opportunity. Building your word power will help you write more effectively, communicate clearly, score higher on standardized tests like the SAT, ACT, or GRE, and be more confident and persuasive in everything you do. Using the exclusive Fiske method, you will not just memorize words, but truly learn their meanings and how to use them correctly. This knowledge will stay with you longer and be easier to recall—and it

doesn't take any longer than less-effective memorization. How does it work? This book uses a simple three-part system: 1. Patterns: Words aren't arranged randomly or alphabetically, but in similar groups based on meaning and origin that make words easier to remember over time. 2. Deeper Meanings, More Examples: Full explanations—not just brief definitions—of what the words mean, plus multiple examples of the words in sentences. 3. Quick Activities: Frequent short quizzes help you

test how much you've learned, while helping your brain internalize their meanings. **Magic Rises** Penguin Language and food are universal to humankind. Language accomplishes more than a pure exchange of information, and food caters for more than mere subsistence. Both represent crucial sites for socialization, identity construction, and the everyday fabrication and perception of the world as a meaningful, orderly place. This

volume on Culinary Linguistics contains an introduction to the study of food and an extensive overview of the literature focusing on its role in interplay with language. It is the only publication fathoming the field of food and food-related studies from a linguistic perspective. The research articles assembled here encompass a number of linguistic fields, ranging from historical and ethnographic approaches to literary studies, the

teaching of English as a foreign language, psycholinguistics, and the study of computer-mediated communication, making this volume compulsory reading for anyone interested in genres of food discourse and the linguistic connection between food and culture. The answer is surprisingly well: Broiled Tilapia with Lime, Spicy Pulled Pork, Green Chile and Cheddar Quesadillas, Vegetable Jambalaya, Beet and Chickpea Salad—even desserts like Coconut Chocolate Cookies and Peach Coffee Cake. In addition to creating nutritious recipes that maximize every ingredient and use economical cooking methods, Ms. Brown gives tips on shopping; on creating pantry basics; on mastering certain staples—pizza

dough, flour tortillas—and saucy extras that make everything taste better, like spice oil and tzatziki; and how to make fundamentally smart, healthful food choices. The idea for Good and Cheap is already proving itself. The author launched a Kickstarter campaign to self-publish and fund the buy one/give one model. Hundreds of thousands of viewers watched her video and donated \$145,000, and national media are paying attention. Even high-profile chefs and food writers have taken note—like Mark Bittman, who retweeted the link to

the campaign; Francis Lam, who called it “ Terrific! ” ; and Michael Pollan, who cited it as a “ cool kickstarter. ” In the same way that TOMS turned inexpensive, stylish shoes into a larger do-good movement, Good and Cheap is poised to become a cookbook that every food lover with a conscience will embrace. Women ’ s Experimental Cinema Penguin Women ’ s

Experimental Cinema provides lively introductions to the work of fifteen avant-garde women filmmakers, some of whom worked as early as the 1950s and many of whom are still working today. In each essay in this collection, a leading film scholar considers a single filmmaker, supplying biographical information, analyzing various influences on her work, examining the development of her corpus, and interpreting a significant number of individual films. The essays rescue the work of critically neglected but influential women filmmakers for teaching, further study, and, hopefully, restoration and preservation. Just as importantly, they enrich the understanding of feminism in cinema and expand the terrain of film history, particularly the history of the American avant-garde. The contributors examine the work of Marie Menken, Joyce Wieland, Gunvor Nelson, Yvonne Rainer, Carolee Schneemann, Barbara Rubin, Amy Greenfield, Barbara Hammer, Chick Strand, Marjorie Keller, Leslie Thornton, Abigail Child, Peggy Ahwesh, Su Friedrich, and Cheryl Dunye. The essays highlight the diversity in these filmmakers' forms and methods, covering topics such as how Menken used film as a way to rethink the transition from abstract expressionism to Pop Art in the 1950s and 1960s, how Rubin both objectified the body and investigated the filmic apparatus that enabled that objectification in

her film *Christmas on Earth* (1963), and how Dunye uses film to explore her own identity as a black lesbian artist. At the same time, the essays reveal commonalities, including a tendency toward documentary rather than fiction and a commitment to nonhierarchical, collaborative production practices. The volume 's final essay focuses explicitly on teaching women 's experimental films, addressing logistical concerns (how to acquire the films and secure proper viewing spaces) and extending the range of the book by suggesting alternative films for classroom use.
