Grey wash is a common technique for creating smooth black and grey tattoos.The grey wash method

requires the artist to mix his inks either in bottles of in caps on the work space.The theory is the same and it is based upon ratios.The grey wash can be obtained by using alcohol,distilled water,or witch hazel as a primary agent.Depending on how many values of grey the artist wishes to have in their pallet,he will fill up ink caps with the same amount of the agent of preference.Then ink will be ...
