1999 Edition : the Most Comprehensive and Authoritative Tax Guide Available for Both Churches and Clergy, Updated Annually! Zondervan Considering that churches and religious organizations qualify as tax-exempt organizations in the United States, one might assume that religious clergy and ministers themselves are exempt from income taxes. But this isn't the case. Devoting your life to God does not necessarily exempt you from the taxman. The clergy must pay income taxes just like everyone else.

This section gives information about which system (SECA or FICA) is used to collect social security and Medicare taxes from members of the clergy (ministers, members of a religious order, and Christian Science practitioners and readers) and religious workers (church employees).

Tax Guide For Religious Members: Churches' Financial
Zondervan

This book explores the taxation and exemption of churches and other religious institutions, both empirically and normatively. This

exploration reveals that churches and other religious institutions are treated diversely by the federal and state tax systems.

Sectarian institutions pay more tax than many believe. In important respects, the states differ among themselves in their respective approaches to the taxation of sectarian entities.

Either taxing or exempting churches and other sectarian entities entangles church and state. The taxes to which churches are more frequently subject - federal Social

Security and Medicare taxes, sales taxes, real estate

conveyance taxes - fall on the less entangling end of the spectrum.

The taxes from which religious institutions are exempt - general

income taxes, value-based property taxes, unemployment taxes -

are typically taxes with the greatest potential for church-state

entanglement. It is unpersuasive to

reflexively denounce the tax exemption of religious actors and institutions as a subsidy. Tax exemption can implement the secular, non-subsidizing goal of minimizing church-state entanglement and thus be regarded as part of a normative tax base. Taxing the church or exempting the church involves often difficult trade-offs among competing and legitimate values. On balance, our federal system of decentralized legislation reasonably make these legal and tax policy trade-offs, though there is room for improvement in particular settings such as the protection of internal church communications and the expansion of the churches' sales tax liabilities.
