Taxonomy Project by Marissa Phillips - Prezi

In Bloom's Taxonomy, there are six levels of skills ranked in order from the most basic to the most complex. Each level of skill is associated with a verb, as

learning is an action. As a teacher, you should ensure that the questions you ask both in class and on written assignments and tests are pulled from all levels of the taxonomy pyramid.

Practice with Taxonomy - The Biology Corner

A key is a device, which when properly constructed and used, enables a user to identify an organism. Keys are devices consisting of a series of contrasting or contradictory statements or propositions requiring the identifier to make comparisons and decisions based on statements in the key as related to the material to be identified. Thus, a taxonomic key is a device for quickly and easily identifying to which species an unknown plant belongs.
