More info and preview on <https://benoitseron.wordpress.com/>This book is a thorough study guide on how to become an exceptional student and specializes in the study of Physics and Mathematics. It can be used for high school students who hate Physics and Maths and want to get it over with, up to graduate students applying for PhDs. The book covers every single point of student life, from the basics of study to advanced techniques for desperate exam situations. This book takes a holistic approach to your study. That is, not only the proper, special study techniques of Physics and Maths are discussed, but also every

other element of student life. To name a few: procrastination, sleep, habits, exam preparation, group works, projects, presentations, scientific writing, and, importantly, a vast section dedicated to your career choices. It ranges from which university to choose, to the purpose of your career, and where you can find meaning and thence happiness. This book aims to give you all the advice possible to master Physics and Maths and score excellent marks, whether in high school or at university. Benoit Seron studied Applied Mathematics at Cambridge University. Before that, he studied five years in Belgium as a Theoretical Physicist, with the best grades of his class every year. He is now a PhD

student at the University of Bruxelles.

****Testimonials**** I just wanted to drop you guys a line and tell you that I passed my final CLEP exam last Monday which gives me all of the credits I need to graduate. I have taken 30 credits worth of CLEP exams and I've passed them all by using

your study guides. I actually purchased one of your study guides and failed my first test. I didn't fail because of your guide though, I failed because I didn't manage my time effectively and I ran short. I looked at your study guide after failing though, and a lot of the information on your study guide was very relevant to what was on the test. So, I tried again with a different test and a different study guide of yours. I passed. This pattern continues for 30 credits. I graduate on June 9th thanks to you guys, so I wanted to say thank you. The guides were worth every penny. Thanks, -John S.****I would like

to thank you for your study guides. I will be graduating in December with two bachelor degrees and CLEP helped me get there quickly. I gained 36 credits through CLEP and your study guides helped me through almost all of them. I can honestly say that I would not have passed many of the tests without your guides. Great products. Thanks!!
