TASCAM

(Book). TASCAM: 30 Years of Recording Evolution is an informative, archival book devoted to the company's groundbreaking product line and the people who created it. Recalling the company's perennial leadership role in the music and pro audio industries ("firsts" include the 1/2-inch 8-track recorder, the Portastudio and the digital DA-88) with a glimpse towards the future, this book warmly portrays key past and present employees by re-visiting the landmark products they've built together since 1974. Quotes from respected musicians and producers who have trusted TASCAM gear for seminal recordings including Bo Diddley, Jim Keltner and Alan Parsons are sprinkled throughout this timeline-based book. Learn how TASCAM products changed the way musicians captured their ideas and empowered a new generation of songwriters and engineers. "Wow! The first classic piece of TASCAM gear I had was the first 4-track Portastudio. That thing allowed me to put so many classic P-Funk song ideas down that I can't even count 'em." Bootsy Collins, Bassist/Songwriter

Antistatic sprays from several different manufacturers

are examined. The sprays are examined for contamination potential (i.e., outgassing and nonvolatile residue), corrosiveness on an aluminum mirror surface, and electrostatic effectiveness. In addition, the chemical composition of the antistatic sprays is determined by infrared spectrophotometry, mass spectrometry, and ultraviolet spectrophotometry. The results show that 12 of the 17 antistatic sprays examined have a low contamination potential. Of these sprays, 7 are also noncorrosive to an aluminum surface. And of these, only 2 demonstrate good electrostatic properties with respect to reducing voltage accumulation; these sprays did not show a fast voltage dissipation rate however. The results indicate that antistatic sprays can be used on a limited basis where contamination potential, corrosiveness, and electrostatic effectiveness is not critical. Each application is different and proper evaluation of the situation is necessary. Information on some of the properties of some antistatic sprays is presented in this document to aid in the evaluation process. Ming, James E. Goddard Space Flight Center Proceedings

Nature

For students to become college-ready writers, they must be exposed to writing throughout the school day, not just in English class. This practical book shows teachers in all subject areas how to meet the Common Core State Standards and make writing come alive in the classroom. Award-winning educator Heather Wolpert-Gawron provides effective and exciting ideas for teaching argument writing, informational writing, project-based writing, and writing with technology. Each chapter is filled with strategies, prompts, and rubrics you can use immediately. Special Features: A variety of writing strategies that work in any subject area Tips for developing meaningful prompts Diagrams and templates that you can use with your students Rubrics for assessing writing, as well as ideas for having students create their own rubrics Samples of student work in different formats Ideas for teaching students to break the Google homepage habit and conduct effective research Cross-curricular writing assignments for science, history, ELA, electives, and PE Suggestions for teaching summary writing, an essential academic skill Ideas for staff professional development on Common Core writing
