PC Mag Independently Published For students to become college-ready writers, they must be exposed to writing throughout the school day, not just in English class. This practical book shows

teachers in all subject areas how to meet the Common Core State Standards and make writing come alive in the classroom. Award-winning educator Heather Wolpert-Gawron provides effective and exciting ideas for teaching argument writing, informational writing, project-based writing, and writing with technology. Each chapter is filled with strategies, prompts, and rubrics you can use immediately. Special Features: A variety of writing strategies that work in any subject area Tips for developing meaningful prompts Diagrams and templates that you can use with your students Rubrics for assessing writing, as well as ideas for having students create their own rubrics Samples of student work in different

formats Ideas for teaching students to break the Google homepage habit and conduct effective research Cross-curricular writing assignments for science, history, ELA, electives, and PE Suggestions for teaching summary writing, an essential academic skill Ideas for staff professional development on Common Core writing

Antistatic sprays from several different manufacturers are examined. The sprays are

examined for contamination potential (i.e., outgassing and nonvolatile residue), corrosiveness on an aluminum mirror surface, and electrostatic effectiveness. In addition, the chemical composition of the antistatic sprays is determined by infrared spectrophotometry, mass spectrometry, and ultraviolet spectrophotometry. The results show that 12 of the 17 antistatic sprays examined have a low

contamination potential. Of these sprays, 7 are also noncorrosive to an aluminum surface. And of these, only 2 demonstrate good electrostatic properties with respect to reducing voltage accumulation; these sprays did not show a fast voltage dissipation rate however. The results indicate that antistatic sprays can be used on a limited basis where contamination potential, corrosiveness, and electrostatic effectiveness

is not critical. Each application is different and proper evaluation of the situation is necessary. Information on some of the properties of some antistatic sprays is presented in this document to aid in the evaluation process. Ming, James E. Goddard Space Flight Center
