One of the hardest things for teachers to do is to inspire their students. In this groundbreaking book, authors Andi Stix and Frank Hrbek show teachers how to do just that by adapting proven coaching strategies in class. Students in extracurricular activities often have coaches, yet it is

students in the classroom who are most in need of the motivation and support that coaches provide. In Teachers as Classroom Coaches: How to Motivate Students Across the Content Areas, you'll learn how to apply the same methods that professional coaches use to help students achieve more in all subjects and at all grade levels. These strategies, which have been used successfully in some of the most diverse classrooms in the country, can help to \* Ensure harmonious group work, \* Improve organizational and note-taking skills, \* Overcome emotional and environmental roadblocks, \* Resolve conflicts among students, and \* Empower students by allowing them ownership of their work. In addition to the coaching strategies, the book provides sample assessment forms, student-teacher dialogues, real-life examples of coaching in action, and a wealth of cross-curricular project ideas. Whether you teach elementary, middle, or high school, and no matter the content area, this book has everything you need to fire up students' imaginations and get them engaged, inspired, and motivated to succeed.

Evidence-Based Inquiry Using Primary Sources, grade two, offers many opportunities for inquiry-based learning. This high-interest book is the perfect tool to increase reading comprehension. The primary sources, obtained from the Library of Congress, are photos of actual people, events, and symbols of another era. Accompanying text lends context to the photos and is offered at three readability levels to allow for differentiation. A final page in each section presents questions and prompts to encourage students to ask questions, look for answers, and make connections between the past and the present. Students will enjoy the primary source subjects, which range from traffic police to working children to Harriet Tubman. --The Evidence-Based Inquiry Using Primary Sources series for grades 1 to 6 will engage students in a world of inquiry and discovery. Inquiry-based learning is active learning that elicits a higher level of reading comprehension. The pages of these books contain exciting and fascinating real-world photographs,

advertising, recipe cards, theater programs, posters, letters, and maps, as well as other interesting items that document history. Each book highlights 15 primary sources across four pages each. The first three pages of each set present the same primary source with text that is differentiated for three reading levels. The last page of each set offers questions and prompts to encourage higher-level thinking and inquiry.

Fitness for Life is a comprehensive fitness education program that helps students take responsibility for their own activity, fitness, and health. Through Fitness for Life, students are prepared to be physically active and healthy throughout their adult lives. This evidence-based and standards-based program follows a pedagogically sound scope and sequence to enhance student learning and progress. What's new in the Sixth Edition New to this book are three chapters (Strategies for Active Living, The Science of Active Living, and Lifelong Activity) that will help students transition from being active in school to sustaining the skills and motivation to remain active and fit for their lifetime. These chapters reinforce the Stairway to Lifetime Fitness concept, created by author Chuck Corbin, to serve as a guide for physical education standards nationwide. Some specifics include the following: · The New Physical Activity Pyramid for teens · Photos and art to illustrate concepts and engage students · Video that illustrates self-assessments and exercises · Information about the sciences on which physical education and fitness education are based · Information on scientific analysis of human movement using biomechanical principles · Information on simplified scientific method for use in decision making · Web icons and content · Technology features encouraging application as well as understanding · Science in Action feature that provides in-depth coverage of

fitness, health, and wellness innovations · Exercise photos with art illustrating the muscles used · Taking Action feature that applies concepts and principles in physical activity · Planning activities for all activities in the Physical Activity Pyramid In addition, the authors went through an exhaustive process in revising and updating all the chapters to reflect current research and the new national physical education standards and fitness education standards. The entire book has been reorganized and completely rewritten. Award-Winning Text, Evidence-Based Approach The evidence-based Fitness for Life text earned a Texty Award for excellence from the Text and Academic Authors Association. It is based on scientific evidence and meets national and state physical education standards and national health and physical education guidelines. Materials have been field tested and used throughout the United States and the world. This comprehensive, interactive new resource will help students in the following ways: · Meet the national, state, and local grade-level standards and outcomes developed for K-12 physical education by SHAPE America based on the new standards outlined in Healthy People 2020 and published in 2014. · Learn the values and benefits of lifelong physical activity through the HELP philosophy, which specifies the goal of promoting health for everyone with an emphasis on lifetime activity designed to meet personal needs. · Become informed consumers on matters related to lifelong physical activity and fitness. · Learn self-management skills that lead to adopting healthy lifestyles. · Recognize and overcome the barriers to reaching activity and fitness goals. · Use technology to promote healthy living. · Separate fitness facts from fiction. · Take personal responsibility for program planning and setting individualized goals. This best-selling text, written by internationally renowned authors and educators Charles B. Corbin and Guy C. Le Masurier and contributing author and educator Karen McConnell, is suited for use in a general physical education or personal fitness class. It will help students meet national and state physical education standards—not only those focused on health-related fitness and physical activity but also those related to movement skills and concepts, diversity, and social responsibility. Fitness for Life can be modified to fit any schedule, including block and accelerated block. It can be taught as semester-long, yearlong, or multiyear courses. The HELP philosophy on which the book is based (health for everyone with an emphasis on lifetime activity

designed to meet personal needs) teaches the value of lifelong physical activity as well as the idea that physical activity can and should be fun. The authors use the Stairway to Lifetime Fitness concept to show the importance of learning decision-making and problem-solving skills that enable students to develop their own health-related fitness programs and maintain a physically active lifestyle into adulthood. Special Features in Every Chapter Every chapter of *Fitness for Life, Sixth Edition*, includes self-assessments for the students to perform—including Fitnessgram assessments—and lessons on self-management skills such as reducing risk factors, resolving conflicts, setting goals, managing time, and overcoming barriers to success. The book devotes multiple lessons to personal program planning, implementation, and evaluation. The chapters have a series of prominent features:

- Lesson objectives direct student learning.
- Lesson vocabulary helps students understand multiple uses of words (definitions in glossary and online).
- New art includes a version of the physical activity pyramid for teens.
- New photos and design give the chapters a refreshing student-friendly look with its dynamic four-color design.
- Muscle art identifies the muscles used in each exercise.
- Fit Facts give quick information about relevant topics.
- Quotes from famous people reveal their thoughts on fitness, health, and wellness.
- Fitness Technology offers opportunities for students to use or study technology.
- Science in Action provides in-depth coverage of innovations in fitness, health, and wellness.
- Self-Assessment allows students to evaluate their fitness, health, and wellness as the first step in personal planning for improvement. All of the self-assessments in Fitnessgram are included.
- Taking Charge and Self-Management allow students to learn self-management skills for adopting healthy behaviors and interacting with other students to solve problems encountered by hypothetical teens.
- Taking Action features activities that are supported by the lesson plans.
- Consumer Corner is a once-per-unit feature that helps students become good consumers of information on fitness, health, and wellness as they learn how to separate fact from fiction.

What would your work and your life look like if you knew how to stay focused yet flexible, if you got more of the right things done, and if you were helping to create a more peaceful world at the same time? “A mindful leader makes the work environment a generative social field in which compassion, connection, and creativity thrive. The seven accessible practices in this book can teach you how to become just such a leader.” — from the foreword by Daniel J. Siegel, MD, executive director of Mindsight Institute Today’s leaders are grappling with the pace and complexity of change, the challenge of supporting healthy collaboration and alignment among teams, and the resulting stress and burnout. The practice of mindful leadership may be one of the most important competencies in business today if leaders are to move beyond fear, anxiety, nagging self-doubt, and the feeling of constant overwhelm. Marc Lesser has taught his proven seven-step method to leaders at Google, Genentech, SAP, Facebook, and dozens of other Fortune 500 companies for over twenty years and has distilled a lifetime of mindfulness and business experience into these chapters. This incredibly practical yet accessible book draws on Marc’s experience as a CEO of three companies, as cofounder of the world-renowned Search Inside Yourself (SIY) program within Google, and as a longtime Zen practitioner. The principles in this book can be applied to leadership at any level, providing readers with the tools they need to shift awareness, enhance communication, build trust, eliminate fear and self-doubt, and minimize unnecessary workplace drama. Embracing any one of the seven practices alone can be life-changing. When used together, they support a path of well-being, productivity, and positive influence. Practicing mindful leadership will allow you to achieve results — with more energy, clarity, meaning, and connection. Your intentions and actions will be more aligned. You will accomplish more with less wasted effort. After reading this book, you’ll understand why some of the world’s most successful companies routinely incorporate the Seven Practices of a Mindful Leader, integrating mindfulness, emotional intelligence, and business savvy to create great corporate cultures, and
