Because mastering geometric concepts is challenging, Geometry employs a step-by-step approach that focuses on applying these concepts to everyday life and making geometry accessible to all of your students. Your students will gain a

full range of understanding with hands-on activities, technology that adds visual depth to lessons, and online homework help from go.hrw.com. The program also features a variety of planning tools, key teaching concepts and strategies, and other resources for teachers. You will have flexibility in planning your lessons with all of the technology resources we offer with this program--internet activities, lesson presentations on CD-ROM, and more. - Publisher.

Geometry McGraw Hill Professional
This is a traditional geometry text, requiring the students to prove theorems. It is biblically based throughout and

contains one lesson per chapter, relating Geometry and Scripture. Different colors and shading are used to distinguish among postulates, definitions, theorems, and constructions. Exercises are divided into three levels of difficulty. Dominion Thru Math exercises, scattered through each chapter, relate to the chapter openers, and offer the opportunity for students to the use technology in problem solving. Analytic Geometry features, one per chapter, help students to make the algebra-geometry connection. Geometry Around Us features reveal some of Geometry's secret hideouts. Mind over Math brain teasers are included. Geometry Through History introduces students to

Mathematicians of the past and their achievements. - Publisher.

Precalculus Holt McDougal From #1 New York Times bestselling author Terry McMillan comes a “frank, no-holds-barred, humorous look at African-American midlife” (The Seattle Times). “Being a lifetime wife and mother has afforded me the luxury of having multiple and even simultaneous careers: I've been a chauffeur. A chef. An interior decorator. A landscape architect, as well as a gardener. I've been a painter. A furniture restorer. A

personal shopper. A veterinarian's assistant and sometimes the veterinarian. I've been an accountant, a banker, and on occasion, a broker. I've been a beautician. A map. A psychic. Santa Claus. The Tooth Fairy. The T.V. Guide. A movie reviewer. An angel. God. A nurse and a nursemaid. A psychiatrist and psychologist. Evangelist. For a long time I have felt like I inadvertently got my master's in How to Take Care of Everybody Except Yourself and then a PhD in How to Pretend Like You Don't Mind. But I do mind.” Today

forty-four year old Marilyn Grimes has decided to be something other than a wife, a mother, a sister, or a daughter: herself. But first, she has to figure out exactly who that is....
