Teach Like a Champion 2.0 Createspace Independent Publishing Platform The kids in What I Like About Me, are as different as night and day. And, guess what? They love it. Some adore the fact that their braces dazzle and gleam, others feel distinguished when they wear their glasses. This fun-loving book, with a mirror included on the last page, proves to kids that, in a world where fitting in is the norm, being different is what makes us special. Helping children learn about diversity, while fostering self-esteem, is what this super-sized Teacher Classroom Pack is all about. Teachers can read the rhyming text of the award-winning What I Like About Me! and use the oversized book to focus on differences in nationality, appearance, food, and more. Inviting children to look in the giant mirror will encourage them to think and talk about what they like best about themselves. Introduction to Applied Creative Thinking Createspace Independent Publishing Platform In high school, everyone's talking about college. What to do. Where to go. Why it's important. Classes are given on it. Books are written about it. But details get left out. Every year, college graduates learn this the hard way as they step into adulthood. I was one of them. After earning a four-year

degree, I went through two of the worst years of my life. Not that my situation is unique. I am a part of a generation that was told to go to college first and sort out the details later. Most of us did. We chased the promise of a big shiny future, and we ended up being chased by the mistakes of our past. That's not to say we completely regretted going. This book isn't a list of privileged millennial complaints. It's a collection of wisdom gained in less than pleasant ways. It's a story of hardship, failure, victory, and perseverance. It's all of the things we wish someone had told us. And it takes place before college, in college, after college, and without college. This is the wild, painful, awkward, hilarious, depressing, & beautiful journey from youth to maturity. This is the college book that no one ever gave us. **Harnessing the Power of Technology in Education** Createspace Independent Publishing Platform

Kids driving you nuts? Don't hide in the closet with a box full of cookies. **TEACH Your Children How to Behave!** Have you ever wondered how teachers can get a class of 20 to 30 little ones to sit still, listen carefully and follow directions while you sometimes struggle to manage with only two or three? It's not magic. The truth is teachers spend years in the classroom learning strategies that get kids to listen-strategies

that will work for you too! In "TEACH Your Children How to Behave," you'll learn how to: Set reasonable expectations for your children's unique ages, personalities and ability levels. Prevent your children's bad behavior BEFORE it starts. Choose consequences that really work! Respond to 25 of the most common behavior problems parents deal with today-problems including arguing, hitting, lying, attitude problems, whining and more! Teach your child how to make better choices in the future, so you aren't repeating yourself again and again. Your children want to behave; they just don't always know how. You have to teach them. And it's a lot easier than you might think. Say goodbye to endless arguments and constant power struggles. **TEACH** your children how to behave and enjoy spending time as a family once again! This book will show you how. [Everything Nobody Told Us about Life After High School](#) John Wiley & Sons

Teachers, principals, school administrators, even school support staff know that it "takes a village to educate a child". Unfortunately, educators, parents and tax payers are often on different sides of issues, and work at cross purposes. Teachers get frustrated and stressed, and parents get angry, upset, and often aggressive and hostile towards school staff, often because they care so much. In this practical and hands-on book, teachers, administrators and school staff can learn to deal with even the most difficult parents, even those who are insulting and challenging. You'll learn over 100 hands-on, practical tactics to: Take control of difficult conversations with parents  
Maintain your own self-

control when interacting with upset, and even abusive parents and members of the community. Reduce the time and stress involved in dealing with uncooperative parents. Apply the Psychology of anger, and basic psycholinguistic elements to establish rapport and bridges when conflict happens. Apply basic principles of Jiu\_Jitsu and Aikido to difficult conversations. Stop verbal abuse cold, while maintaining a professional demeanor and focusing on the welfare of the student. Handle non-verbal intimidation tactics smoothly and safely. Set limits and apply them to difficult interactions when the gentler methods of verbal self-defense fail. Ideal for teaching staff, but also school principals, school superintendents and school board officials -- anyone who deals directly with parents and community members. Included is a special chapter for principals and administrators with tactics to use to support teachers and staff in building bridges with the community, rate payers, and parents.

primary source Document Pamphlet series: *Discovering America* is designed to help students read for information and think critically while forming their own ideas. Students and adults alike will discover history by looking at artifacts constructed by the people who shaped the United States of America. Perfect for any classroom, from Fifth Grade to college, this series engages students and prompts them to think for themselves, question, reflect and gain a deeper understanding of history. In this edition, students discover the prolific Patrick Henry -- who some historians credit as firing the first figurative shot of the Revolution in his fiery "Give Me Liberty or Give Me Death" speech. Read select letters written by Henry, engage in his oratory, learn about his life and decide for yourself the impetus behind a man called one of the greatest Patriots in the history of America.  
Student Exercises and Teacher Guide for Grade Nine Academic Science Createspace Independent Publishing Platform  
The unfathomable rate of Black males in education should result in a national call to action. Across the country Black males represent only 2% of the teaching workforce. By the year 2024, minority students will be the majority, yet our current education workforce does not reflect this growing trend in what has been called "The Browning of

America." Why is it acceptable that a student can matriculate from Kindergarten through twelfth grade and not have one Black male as his or her teacher? Why has it been a challenge to recruit and in many instances retain Black males in the classroom? Unopened Books explains what is referenced in the book as the Five Black Male Deterrents in Education. Through the personal narrative of Jermaine D. Gassaway, a native Washingtonian, educator, and school leader; coupled with practical solutions, Unopened Books provides insight to multiply the 2%. It is intended to not only be a provocative conversation starter but an actionable approach to increase the number of Black men in the classroom. Journal of the Senate, Legislature of the State of California Createspace Independent Pub Here is a new text that fulfills an emerging need in both higher and public education and stands to break new ground in addressing critical skills required of graduates. When working on their last book, *It Works for Me, Creatively*, the authors realized that the future belongs to the right-brained. While Daniel Pink and other visionaries may have oversimplified a bit, higher education is ripe for the creative campus, while secondary education is desperately seeking a complement to the growing assessment/teach-to-the-test mentality. You don't have to study the 2010 IBM survey of prominent American CEOs to know that the number one skill business wants is students who can think creatively. To meet the demand of new courses,

programs, and curricula, the authors have developed a 200-page "textbook" suitable for secondary or higher education courses that are jumping on this bandwagon. Introduction to Applied Creative Thinking, as the title suggests, focuses not on just developing the skills necessary for creative thinking, but on having students apply those skills; after all, true creative thinking demands making something that is both novel and useful. Such a book may also be used successfully by professional developers in business and education. For this book, Hal Blythe and Charlie Sweet are joined in authorship by Rusty Carpenter. He not only directs Eastern Kentucky University's Noel Studio for Academic Creativity but has co-edited a book on that subject, *Higher Education, Emerging Technologies, and Community Partnerships* (2011) and the forthcoming *Cases on Higher Education Spaces* (2012). Introduction to Applied Creative Thinking is student-friendly. Every chapter is laced with exercises, assignments, summaries, and generative spaces. Order copies now or contact the publisher for further information.
