Until 2015, the Mental Maths KS2 Test was a KS2 SATs paper. These tests were a unique and popular SATs paper. Children would listen to an audio recording of a teacher asking questions. They would calculate their answer and write it down on a separate answer sheet. Created in 1999, the Mental Maths Test sought to assess a child's mental arithmetic skills. Back then,

children were allowed a calculator in their tests and hence a separate Mental Maths Test was required.
