First of all a teachers manual has the final number to the solution not steps to get it, therefore if he WAS cheating he would get 0 anyways because 99.9% of teacher want to see the steps. Back in college all of the answers

were in the back of the book, I still failed, I hate math.

A bit of the book is about "applications" of linear algebra, but doesn't help until you've understood the meat of the book that came beforehand. Also, there were no teachers' solutions manuals available when I took this class, because the distributors

have been extremely lax about getting them out (why? who knows).
