There's nothing quite like a hot, soothing bowl of soup. It's a leisurely meal—a purposeful one that offers pause for reflection between every savory spoonful. What if you approached every meal as if it were that delicious bowl of soup? In *Reinventing the Meal*, you'll learn how to reconnect with your body, mind, and world with a three-course approach to mindful eating. Inside, you'll find mindfulness exercises to help you slow down and enjoy your food, pattern-interruption meditations to infuse presence into your eating life, and unique stress management tips to prevent emotional overeating. In addition, you'll discover a wealth of philosophical perspectives that will inspire you to focus on the quality of your eating experience, rather than on the quantity of what you eat.

Designed to help you embrace the ritual of eating (and discover the power of mindful meditation in

the process), this book will ultimately change the way you view your meals—as not only sustenance for the body, but for the soul as well.

Scott Foresman-Addison Wesley Mathematics

Pearson Scott Foresman

Once upon a time, he was everything to her, except for one thing: her future Christmas sparkles from every bough and window at the cozy Four Winds Ski Resort, where single mother Eden Kendall and her eight-year-old son are spending the holiday. A surprise marriage proposal from her boss's son wasn't on her Christmas list, but it's the perfect excuse to get away and weigh her options. She never imagined her son's ski instructor/Santa impersonator would be the gorgeous, charismatic dreamer she left behind years ago, the one who still owns a piece of her heart. Cole Hagan has never stopped loving Eden and he's spent the last eight years proving her wrong on every count about his potential. While he fights to save the resort that he helped to build by organizing a holiday concert, he decides it's about time that Eden puts aside her list-making pragmatism so that she and her skeptical son can experience the true magic of Christmas. Can a not-so-perfect angel help this unlikely pair get a second chance at happily ever after?

Practice Workbook McGraw-Hill Education
With Scott Foresman Science, you'll spend less

time planning for science and more time actually doing science. Our program provides inquiry-rich content with Scaffolded Inquiry(TM) activities; cross-curricular connections that link reading and science skills in every chapter; hundreds of Leveled Readers for differentiated instruction; and time-saving strategies--from lesson preparation to 30-second lab setup--that create extra time in your day.

Significantly reduced list price Traumatic brain injury (TBI) is a complex condition for which limited research exists. The recent conflicts in Iraq and Afghanistan have resulted in numerous service members returning home after sustaining TBI, and healthcare providers scrambling to find resources on how to treat them. This toolkit is a comprehensive source of inventories and therapy options for treating service members with mild TBI. All aspects of mild TBI are covered, including vestibular disorders, vision impairment, balance issues, posttraumatic headache, temporomandibular dysfunction, cognition, and fitness, among others. With easy-to-follow treatment options and evaluation instruments, this toolkit is a one-stop resource for clinicians and therapists

working with patients with mild TBI.

An Interdisciplinary Exploration of Familial Relationships Through Time New Age International

Bob Blitzer has inspired thousands of students with his engaging approach to mathematics, making this beloved series the #1 in the market. Blitzer draws on his unique background in mathematics and behavioral science to present the full scope of mathematics with vivid applications in real-life situations. Students stay engaged because Blitzer often uses pop-culture and up-to-date references to connect math to students' lives, showing that their world is profoundly mathematical. Skills for specific disorders
Journal prompts
Unique templates to monitor progress
Improve Treatment Outcomes: Depression, Anxiety, ADHD, PTSD, OCD, Bipolar, Panic, Pain, Sleep, Stress, Anger, Chronic Medical and Mental Illness
Reviews: "Debra Burdick has written a gem of a book on mindfulness. As a guide for clinicians, the book has everything: no-nonsense, clear style; plenty of background info; tie-ins with research; excellent illustrations; and plenty of original experiential tools for introducing mindfulness and leveraging motivation and compliance. This is the kind of resource on mindfulness that you

are not just going to skim through: you are going to copy and dog-ear and share this book with your colleagues and your clients. This just might be the last guide to teaching mindfulness that you buy."

Common Core Student Edition Grade 1 Pearson Higher Ed

About the Book: This book is an attempt to consolidate the basic scientific studies in the machining area so that fundamental mechanics and other concepts related to primary machining processes could be understood. The book is essentially designed for senior undergraduate mechanical and production engineering students but practicing engineers will also find it useful for tool and product design. The topics covered include plastic deformation, chip formation, tool geometry, mechanics of orthogonal and oblique cutting, measurement of cutting force, cutting temperature, tool wear and tool life, economics of machining, grinding of metals and machining vibrations. The analyses presented have been illustrated through numerical examples. Review questions and bibliography are also included.
About the Author: Dr. G.K. Lal has been associated with the Indian Institute of Technology, Kanpur for the past 34 years. He retired as a Professor of Mechanical Engineering in 2003 and had earlier held the

positions of Dean (1976-80) and Deputy Director (1982-88). Before joining IIT Kanpur he had taught at the Banaras Hindu University and held research positions at the University of Sherbrooke (Canada) and the Carnegie-Mellon University (USA). He also worked as a Design Engineer with the Abitibi Paper and Power Corp. of Canada.

A Graphic History of the Civil War Richmond Publishing

Offering life- and career-changing moments in nurses' lives, the 80 true stories in *Reflections on Nursing* reveal nursing at its most demanding and fulfilling. Written mainly by nurses offering care at home, hospital, or hospice, these first-person stories convey the professional burdens, personal growth, and inner realizations found in the course of patient care. Whether you are a new or experienced practitioner, or just fascinated by nursing care in action, these inspiring true stories show nursing as both professional and life experience, and often, as an inspired journey. Experience the challenges and hard-earned wisdom of these real-life nursing moments: • Written by or about nurses of all experience levels and in numerous care settings, including stories about memorable nurses written by

patients, family members, and doctors • Dive into these engrossing short stories, and go on a journey with: the nurse who inspires dignity and strength in a young soldier who is losing his wife the young nurse who stands up to a bullying preceptor the nurse who realizes her best friend, a fellow nurse, is stealing drugs from their unit the nurse struggling to give adequate care to seven patients at once on an understaffed unit the retired doctor who recalls the nurse who saved him, as a young intern, from mishandling a crucial situation with a dying patient the nurse who takes on an angry patient with a challenging case, to offer special help and encouragement nurses who become a patient The nurse/administrator who pushes hard for administrative decisions that will support nurses and improve patient care the inspiring patients who help nurses remember why they became a nurse

How Mindfulness Can Help You Slow Down, Savor the Moment, and Reconnect with the Ritual of Eating

Elsevier Health Sciences

Optimize your assessment processes through Quality Assurance. This is a groundbreaking guide to ensuring quality assurance in the movement toward competency-based medical education. With the increasing globalization of medical education comes the need for mutual recognition of quality and standards. Understanding Assessment in Medical Education through Quality Assurance compiles and shares best practices from leading programs from around the globe. Authoritative approaches and processes that have been tested and refined show how to implement quality assurance of written, performance- and workplace-based assessments in medical education while maintaining regulatory standards. As leading experts in the medical education world on this issue, the authors provide specific suggestions and showcase how their methods can be implemented with representative case

studies. Medical educators and their students will benefit from this suite of evidence-based QA processes that they can immediately put into action for monitoring and ensuring continuous quality improvement. Content highlights: The value of quality assurance (QA) and the role of QA assessors in assuring the quality of assessment. International best practices in relation to quality assurance of programs of assessment, both within academic institutions and at national/international accreditation levels. Quality assurance of Performance-based, workplace-based, written and programmatic assessment. The role of technology in the quality assurance of assessment processes. Approaches for assuring equivalence of assessment across diverse settings. The ways in which medical education has changed in response to the disruption caused by the COVID-19 pandemic.

English ID 1 Student's Book

Pesi Publishing & Media
In *Teachers as Learners*, a collection of landmark essays, noted teacher educator and scholar Sharon Feiman-Nemser shines a light on teacher learning. Arguing that serious and sustained teacher learning is a necessary condition for ambitious student learning, she examines closely how teachers acquire, generate, and use knowledge about teaching over the trajectory of their careers. Together, these essays bear witness to the evolution and development of a body of scholarship about teacher learning in which the author herself played a catalyzing role.

"Nothing makes me happier than a new book from Joanna Shupe!"—Sarah MacLean
High society reprobate. An unconventional heiress. Childhood friends. Is it too late... Knickerbocker scoundrel Harrison Archer returns to New York to discover that his deceased father has bankrupted his estranged family. To save them from ruin, he's forced to quickly find and marry an heiress. For a matchmaker, Harrison turns to the one woman he wishes he could marry: his childhood friend

and true love, Maddie, who once broke his heart and is now engaged to a duke. For true love? When her best friend Harrison left for Paris without a word, Maddie Webster took refuge in her infatuation with tennis. Now Harrison is back and needs her help in finding a bride. Begrudgingly, Maddie arranges a house party in Newport with a guest list of eligible heiresses. But watching Harrison flirt with potential brides is more than she can bear. When Harrison and Maddie reunite, the passion between them ignites. But with their marriages to others looming, time is running out. Is their fate inescapable . . . or can love set them free?

This textbook provides an up-to-date account of the mechanisms and pathophysiology of vascular disease, and the current treatment options open to vascular surgeons. As the scientific basis of vascular disease advances rapidly, it is critical that clinicians have access to relevant information written specifically for vascular surgeons. This account reviews the impact of these scientific advances on established and emerging treatment options. Experts from Australia, North America and Europe have contributed to basic topics such as atherosclerosis, restenosis, thrombosis and hemostasis, ischaemia-reperfusion injury,

sepsis, vascular hemodynamics and wound healing. More applied topics such as pain syndromes in vascular surgery and the diabetic foot are also covered in this textbook. This will be a core text for all vascular surgical trainees and is especially appropriate for advanced trainees and consultants wishing to refresh their knowledge base.

Stories in Midwifery VIZ Media LLC

The problem of pornography addiction has never been worse. With easy access to the most extreme pornographic material at the tip of our fingers, we are facing something our parents never did. In the palm of our hand we can be exposed to images, messages, and ideas that cripple our potential and distort our very nature.

FORTIFY was specifically designed to help young people facing an addiction to pornography eventually reach long-lasting freedom. In this book you will find the tools, education, and resources necessary to help you or someone you love overcome this addiction.

Mild Traumatic Brain Injury

Rehabilitation Toolkit Macmillan
