For more than 400 years, the personal essay has been one of the richest and most robust of all literary forms. Distinguished from the detached, formal essay by its warm, friendly, conversational tone, its loose structure and drive towards candor and self-disclosure, the personal essay seizes on the minutiae of daily life - vanities, fashions, food, culture, language and identity. It is poetry, it is song, it is speech, at once both call and response in the hands of a master story teller. It offers insight into the questions that we are all grappling with today in our increasingly globalized world which affects all people in all places everywhere on the planet: the worth of a university education, MOOC pedagogy, the digital footprint we leave behind, and the essence of Islamic inventions and how to understand Islam itself, through the eyes of its great inventor, and those who profess the Islamic faith. The goal of course, is greater tolerancxe and respect for one another, all people, of all persuasions, in peaceful coexistence, as Dr. Martin Luther King Jr. once dreamed it could be. That then, is the ultimate transformative power of education, to bring us from knowing, to understanding...

R.M. Hare is one of the most widely discussed of today's moral philosophers. In this volume he has collected his most important essays in the related fields of religion and education, some newly published and others now inaccessible. The book starts with an exposition of his ideas on the meaning of religious language. There follow several essays on the relations between religion and morality, which have deep implications for moral education. The central question addressed in the rest of the volume is how children can be educated to think for themselves, freely but rationally, about moral questions, and the effects on society of failure to achieve this. Professor Hare argues that those who want to dispense with morality are in effect resigning from a vital educational task. Attitudes toward euthanasia and equality of educational opportunity are taken as examples of how our thinking can go wrong.
