is also known as an

Information Development (ID) Plan. Essentially, it serves as a project plan for the documentation requirements on a software project.

Example Documentation Plan - - ISTC

Technical writing project planning has several elements in common with any project plan. For example, the plan should include length, deliverables, cost, and resources required by the writer or developer. Yet technical writing project planning also has its own set of elements not found in engineering, construction, or manufacturing projects.

User Documentation Plan - ProjectConnections

In engineering, technical documentation refers to any type of documentation that describes handling, functionality and

architecture of a technical product or a product under development or use. The intended recipient for product technical documentation is both the (proficient) end user as well as the administrator / service or maintenance technician. In contrast to a mere "cookbook" manual ...
