Technical Documents in Word
2016 Technical documents that you create may require more

formatting than a creative document (such as short story). Microsoft Word provides tools to make creating technical documents a breeze too.

Technical Documentation Template Word

When you've got the document looking how you want, it's time to save it as a template. Open the "File" menu, and then click the "Save As" command. Select where you want to save your document. After typing a name for your template, open the dropdown menu underneath the name field, and then choose the "Word Template (*.dotx)" option.

Word templates are MS Word

documents formatted with a specific structure and layout. So, all documents made with the particular template will reflect the exact same structure and layout. Users can make a template their own by adding their specific content to the layout and changing features like colours, fonts and graphics.
