Technical English: Course
Book This course has been
designed for learners who
will be using English in a

scientific or engineering environment. Technical English introduces the vocabulary necessary to communicate and understand basic technical concepts in fields such as algebra, geometry, chemistry and physics. Each unit presents vocabulary related to a specific technical area, and reviews one relevant grammar point that will help students to express themselves with confidence. The approach taken in this course is direct and concise, and you will be encouraged

to work both independently and with others on an extensive range of activities, all of which are geared towards making you more proficient in the technical language you will need to be successful in further study. Key features of the course include: 21 units covering a wide range of technical themes a variety of authentic source materials such as instruction manuals and scientific articles a range of listening texts, including lectures and dialogues transferable reading and

listening skills with grammar for clarification and support authentic tasks designed to promote transferable skills 500 basic technical words full-colour 106-page Course Book complete with audio CD/cassette Teacher's Book with lesson-by-lesson notes, including answer keys and tapescripts See accompanying Teacher's Book.

Your Space is a three-level course

for teenagers, designed to motivate students as they change and grow. With a wide range of varied activities, the Workbook provides extra skills practice focusing on listening, reading, writing and speaking. The accompanying Audio CD contains extra listening material for practice at home. CEF: A2-B1.

Technical English for beginners Longman The Model Rules of Professional Conduct provides an up-to-date resource for information on legal ethics. Federal, state and local courts in all jurisdictions look to the Rules for guidance in solving lawyer malpractice cases, disciplinary actions, disqualification issues, sanctions questions and much more. In this volume, black-letter

Rules of Professional Conduct are followed by numbered Comments that explain each Rule's purpose and provide suggestions for its practical application. The Rules will help you identify proper conduct in a variety of given situations, review those instances where discretionary action is possible, and define the nature of the relationship between you and your clients, colleagues and the

courts.

Model Rules of Professional Conduct Longman

Your Space Level 3 Workbook with Audio CD Cambridge University Press
FOREWORD BY GUY KAWASAKI Presentation designer and internationally acclaimed communications expert Garr Reynolds, creator of the most popular Web site

on presentation design and delivery on the Net — presentationzen.com — shares his experience in a provocative mix of illumination, inspiration, education, and guidance that will change the way you think about making presentations with PowerPoint or Keynote. Presentation Zen challenges the conventional wisdom of making "slide presentations" in today's world and encourages you to think differently and more creatively about the preparation, design, and delivery of your presentations. Garr shares lessons and perspectives that draw upon practical advice from the fields of communication and

business. Combining solid principles of design with the tenets of Zen simplicity, this book will help you along the path to simpler, more effective presentations.

Ventures Level 4 Workbook with Audio CD Longman
Take-Off: Technical English for Engineering Course Book Take-Off has been designed for non-native speakers of English who are studying Engineering NVQ Level 2 and above. The aeronautical context is particularly aimed at technicians and engineers who are going on to work in the aeronautics industry. Take-Off is an ESP course for intermediate-level students.

Unlike many ESP courses, it teaches genuine transferable skills and is ideal for students who need to further their technical training in English. The focus is on skills development, using relevant contexts, with grammar taking a strong supporting role. Reading and listening development is dealt with in the context of understanding instructions and information in technical manuals. Students develop the speaking skills of asking for and giving factual information, and the writing skills necessary to complete workplace documentation, such as accident reports and safety assessments. Take-Off

uses a communicative methodology, with graded tasks that are careful scaffolded to involve and motivate the students, providing them with a clear sense of achievement. The wide variety of texts and task types will appeal to a broad range of ages and nationalities. There are also comprehensive word lists and a glossary of terms for student reference. A bank of tests are provided online. Please contact us if you have purchased the book and would like access to these tests. Key Features Practical skills developed for dealing with oral and written instructions and documentation

Task-based approach ensures achievable lesson outcomes
Variety of texts and tasks on a wide range of aeronautical topics
Two review sections to consolidate skills and vocabulary knowledge
Glossary and electrical appendix
Audio CDs for further self-study and homework
