Computerworld's award-winning Web site (Computerworld.com), twice-monthly publication, focused conference series and custom research form the hub of the world's largest global IT media network. Encyclopedia of Information Systems and Services Penguin Twitter, Facebook, blogging, chat rooms, email, the internet and beyond - for most parents, teachers and youth workers, getting to grips with new technology is a bit of a challenge. But keeping children safe is a much bigger one. As technology changes, and young people grasp it faster than the older generations do, it can be a real struggle to

know what to do to help, equip and defend. Dr Bex Lewis is an expert in new technology. She knows how it works, what to do and where to go for the latest information. It is rarely possible to keep young people away from new technology, nor is it wise. This book will enable parents, teachers and youth workers to give young people the equipment they need to get the best out of new technology and to avoid the dangers. Where You Want to Be.” It can certainly be read by itself as a proper book in its own right. However, there are allusions and references to content in the book such that some of the content of this Manual might appear incomplete. The purpose of the book is to offer scenarios and stories – slices of real life – so that readers can “self-identify” the specific areas of life they need to work on so they can increase their motivation and energy to straightforwardly

manifest their worthy aspirations and more quickly become their better Selves. The purpose of this Manual is to be a companion to the book, offering additional content, stories, resources, tools and exercises to help readers delve more deeply into those areas of opportunity to improve themselves. Taken together, the book and this Manual provide all that is needed to begin to more rapidly and easily become your better Self and get what you really want in your life. When you read a

chapter in the book that beckons you to explore that particular theme of life at a deeper level, pick up this Manual and go to that same chapter (the Manual has the same chapter names and sequence as the book) and read the additional content. More importantly, be sure to do the exercises as these will help you get clearer on the specific and unique ways YOU can become YOUR better Self. Professional Nested Scrolls reveals the true life adventures of Rudolf von Bitter "Rudy" Rucker—mat hematician, transrealist author, punk rocker, and computer hacker. It begins with a young boy growing up in Louisville, Kentucky, the son of a businessman father who becomes a clergyman, and a mother descended from the philosopher Hegel. His career goals? To explore infinity, popularize the fourth dimension, seek the gnarl,

---

become a beatnik writer, and father a family. All the while Rudy is reading science fiction and beat poetry, and beginning to write some pretty strange fiction of his own—a blend of Philip K. Dick and hard SF that qualifies him as part of the original circle of writers in the early 1980s that includes Bruce Sterling, William Gibson, John Shirley, and Lewis Shiner, who were the founders of cyberpunk. At one level, Rucker's genial and unfettered memoir brings us a first-hand account of how he and his contemporaries ushered in our postmodern world. At another, this is the wry and moving

tale of a man making his way from one turbulent century to the next. Nested Scrolls is like its author: sweet, gentle, honest, and intellectually fierce. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.
