ESKA sold its first outboard in 1960. Eska took a single cylinder air cooled engine made by Tecumseh and attached it to a Clinton lower unit. It was about as simple as could be. They continued unchanged until 1973 when Eska introduced a water cooled two cylinder 9.9 and 15 HP motor. They went out of business in 1987.

If the model number of a Sears or Ted Williams outboard begins with 217, it was built by Eska Outboards -- which purchased Tecumseh's designs before Tecumseh built any motors -- between 1968 and 1986. Eska also built the Sears "Gamefisher," also with the 217 model number prefix, during the same period.

The Eska Outboard motor was manufactured from 1961 to 1987 in Dubuque, Iowa. Motors were sold under numerous brand names. Most all Department Stores, Hardware Stores and some Auto Parts Stores sold these outboards, at one time or another. Some were sold under the Eska name and some under a private brand.

Trying to ID which model or year Tecumseh power head is on my little jet outboard. I'd "guess" from the late 50's or 60's. It has a tag that says T-626-31A From what I gather, it's a type T-626 engine, but that's of no help! It's a headless, small 2 cycle engine. I'd like to find the correct parts manual for it as well. Thanks,
