I understand that the 143 is the Sears source code for Tecumseh/Lauson Power Products and the rest of the number is the model # of the engine but I can't find a Tecumseh Model Number similar to 197032. Tecumseh Engine 143

The engine is a cast iron, OHV, horizontal shaft 14HP Tecumseh, presumably built within a year or so of 1978. It may have been built exclusively for Sears, as I have not been able to find any other references online, nor have I talked to anyone that has ever seen one. It will take me a day or so to get to it to get the numbers. I'll post them ASAP.
