The Sounds of Language Routledge

An army veteran with deep expertise in military and international affairs makes his fiction debut with this electrifying international thriller—the first volume in a blistering hot series in the tradition of Brad Thor, Tom Clancy, and Daniel Silva. In *Shadow War*, an elite American mercenary on a secret mission to save a businessman's family in Eastern Europe must navigate perilous setbacks and deadly enemies that threaten to tip the balance of power between Russia and the United States. Tom Locke is an elite warrior working for Apollo Outcomes, one of the world's most successful private contracting firms. Pulled out of a mission in Libya, he is tapped for an unusual and risky assignment: a top secret black op in Ukraine. He is given one week to rescue an oligarch's family and pull off a spectacular assault that could have long-lasting repercussions for this imperiled Eastern European nation and the world. What Locke doesn't know is that the operation comes with a dangerous complication: Brad Winters. Locke's ambitious and enigmatic boss is engaged in a secretive, high-stakes geopolitical chess game with several influential powerbrokers in capitals around the world. One misstep could cost him—and Locke—everything. While Locke has methodically planned the mission and hand-picked a team of trusted operatives to pull it off—and save his ass if things go south—he doesn't count on running into a former love, war correspondent Alie MacFarlane, who impulsively makes a move that risks both their lives. Locke is an intelligent, iconoclastic soldier who specializes in pulling off the impossible. But all his brilliant preparation can't prevent the kind of backstabbing and deception that could lead to catastrophe . . . and tip the balance of power toward Putin's Russia.

"If I had asked people what they wanted, they would have said faster horses." --Henry Ford As one part of your brain processes these words, another part of your brain is urging you to put the book down and focus on something more pressing. Get back to work on the budget due tomorrow. Answer e-mails growing stale in your inbox. Get off your rear and update that résumé. We're all guilty of it, especially in the business world. From Fortune 500 CEOs to assistants, we work to solve the most urgent problems first. That's because evolution has hardwired our brains to focus only on the immediate future, a survival technique that worked extremely well when predators were lurking at every turn. But that was then, this is now. In the modern world, where life expectancies are long and physical perils rare (at least for people who buy books), it's not only possible to build a strong tomorrow without sacrificing today, but to actually increase the number of here-and-now victories by pursuing distant wins. That's where Long Fuse, Big Bang comes in--to help you work with that instinct to create and foster ideas that will lead to explosive professional results. Through proven case studies and personal experience, Dr. Eric Haseltine shows you how to neutralize the quick-fix way of thinking and actually use that desire to improve your chances of an enduring success. Rather than fight our most basic thought processes, this book will teach you how to work with your brain to light the long fuse, keep it smoldering, and ignite that "Big Bang" that will make history.

Neurobiology of Obesity HarperCollins

This book offers a comprehensive overview of resilience across immigrant and refugee populations. It examines immigrant and refugee strengths and challenges and explores what these experiences can impart about the psychology of human resilience. Chapters review culture functions and how they can be used as a resource to promote resilience. In addition, chapters provide evidence-based approaches to foster and build resilience. Finally, the book provides policy recommendations on how to promote the well-being of immigrant and refugee families. Topics featured in this book include: Methods of cultural adaptation and acculturation by immigrant youth. Educational outcomes of immigrant youth in a European context. Positive adjustment among internal migrants. Experiences of Syrian and Iraqi asylum seekers. Preventive interventions for immigrant youth. Fostering cross-cultural friendships with the ViSC Anti-Bullying Program. Contextualizing Immigrant and Refugee Resilience is a must-have resource for researchers, professors, graduate students as well as clinicians, professionals, and policymakers in the fields of developmental, social, and cross-cultural psychology, parenting and family studies, social work, and all interrelated disciplines.

Reunion Planner Cambridge University Press

Thank you for reading our PRINCE2 Foundation Training Manual. The main objective of this book is to provide an easy-to-read and easy-to-understand PRINCE2(R) Foundation training manual. The official PRINCE2 manual, "Managing Successful Projects with PRINCE2," is an excellent reference manual, but it is not a training manual and should not be used as one, as it is very difficult to comprehend and understand if you are new to project management. The official PRINCE2 manual also covers the complete Practitioner Syllabus, and it's impossible to know which parts are just focused on the PRINCE2 Foundation syllabus, so you have to read everything, which is not good if you are just studying for the foundation exam. Henceforth, this book is meant to be (and is) an easy introduction to PRINCE2 based on the Foundation syllabus, and it's quickly becoming the most read book for people wishing to learn about PRINCE2 and prepare for the foundation exam.

International Economics John Wiley and Sons

Developed in the classroom by two of the most prominent researchers in the field, Feenstra and Taylor's *International Economics* uses engaging applications to provide a modern view of the global economy for a modern audience. Most international economics textbooks emphasize theory and the economies of advanced countries. Feenstra and Taylor combine theoretical coverage with empirical evidence throughout, while reflecting the realities of the global economy by covering emerging markets and developing countries (India, China, Southeast Asia). The new edition has been thoroughly updated to include new data and Applications, as well as many new Headlines to reflect the rapid changes in international economics during the last three years. The 4th Edition includes the latest on opening relations with Cuba, immigration and Europe's refugee crisis, the effect of NAFTA on wages and employment, job polarization, quicksourcing, China's problems, and the debate in Britain about leaving the European Union. A modern textbook requires a modern and integrated homework system. LaunchPad offers our acclaimed content organized for easy assignability by instructors and enhanced learning for students.

Contextualizing Immigrant and Refugee Resilience

In this second book of the City Love trilogy by bestselling author Susane Colasanti, three girls share a Manhattan apartment the summer before college begins. Lost in Love captures the essence of summer love, self-discovery, and sisterhood, a perfect fit for fans of Sarah Dessen, Jenny Han, and Jennifer E. Smith. Sadie was convinced that Austin was her soul mate, but after discovering his secret she wonders if she even knows him at all. Darcy was all about fun boy adventures with no strings attached . . . until her ex moves to New York City to win her back. Things are getting serious with Rosanna and her boyfriend, but will she be able to break free of her past and let him in? With no parents, no rules, and an entire city to explore, this is the summer that will change their lives forever. Told from alternating points of view, Lost in Love weaves a story of first love, first heartbreak, and everything in between.

The rewards of carefully chosen alternative investments can be great. But many investors don't know enough about unfamiliar investments to make wise choices. For that reason, financial advisers Larry Swedroe and Jared Kizer designed this book to bring investors up to speed on the twenty most popular alternative investments: Real estate, Inflation-protected securities, Commodities, International equities, Fixed annuities, Stable-value funds, High-yield (junk) bonds, Private equity (venture capital), Covered calls, Socially responsible mutual funds, Precious metals equities, Preferred stocks, Convertible bonds, Emerging market bonds, Hedge funds, Leveraged buyouts, Variable annuities, Equity-indexed annuities, Structured investment products, Leveraged funds The authors describe how the investments work, the pros and cons of each, which to consider, which to avoid, and how to get started. Swedroe and Kizer evaluate each investment in terms of: Expected returns Volatility Distribution of returns Diversification potential Fees Trading and operating expenses Liquidity Tax efficiency Account location Role in an asset-allocation program Any investor who is considering or just curious about investment opportunities outside the traditional world of stocks, bonds, and bank certificates of deposit would be well-advised to read this book.
