Currently Teka Kuppersbusch service is carried out by  
subcontract repair engineers through repaircare and has been for

several years for in warranty repairs. From what we know of it the  
whole lot shifted across to repaircare at some point but, spares  
supplies seem to have dried up a bit and it has become hard to find  
Teka in the UK so we think that they may have pulled out of the  
UK pretty much.
