[2247A Service Manual | Tektronix](#)

The Tektronix 2247Ais a 100 MHz four-channel analog oscilloscope with a built-in 200 MHz counter/timer.

(It is unknown if a 2247 non-A model was ever built.) Channels 1-2 are fully-functional, whereas 3-4 are

limited in both deflection factor and coupling, as they are intended mainly for digital and trigger signals.
