Tektronix 2247A

Analog Oscilloscope
for sale online | eBay
The Tektronix
2247A is a 100 MHz
four-channel analog
oscilloscope with a
built-in 200 MHz
counter/timer. (It is
unknown if a 2247
non-A model was ever
built.) Channels 1-2
are fully-functional,
whereas 3-4 are
limited in both
deflection factor and
coupling, as they are
intended mainly for
digital and trigger
signals.
