Telehandler Safety Test - ProProfs Quiz

A telescopic handler, or telehandler for short, is a machine used for agricultural and industrial purposes. It is controlled by telescopic cylinder, for the upward and downward motion commonly known as a boom. As with all heavy machinery, there are many safety protocols that you need to know before

taking control of a telehandler. Do you know them?

For each topic identified there is a set of questions, from which a number will be included in the test and for which supporting information is provided in this factsheet. Each test will ask a total of 15 questions selected randomly to ensure all topics are covered. The test will cover all categories within the scheme through modules.
