Television Production Manual 3 length is about six times the shortest. Zoom lenses for television cameras with two-thirds inch pickup tubes or chips range from about 12mm to 75mm, with a normal focal length of about 33mm. A wide-angle setting makes the subject smaller as the angle of view is increased.

Television Production Handbook, 12th Edition ...  
The Television Production handbook does a great job with explaining the basic principles of television production and direction. If you're lucky enough to get a copy with Zettl's VideoLab CD, that's almost as good as the book. My only complaint is that some of the images in the book seem a little dated for a book that was published in 1999.
