The low-tier air conditioners in Tempstar ' s product line are the Performance series models, which are single- or two-stage cooling systems with efficiency ratings between 13 and 17 SEER. These models are reliable and dependable, but they are very basic and aren ' t compatible with any of the additional features or technologies that are available with other Tempstar models.

The 1988 Tempstar Air Conditioning Unit

A Tempstar central air conditioner employs a compressor located outside to drive cold air through vents. Insufficiently cold air or lackluster air pressure through the vents indicates a problem with the Tempstar that must be corrected. Troubleshooting the Tempstar central air conditioner to locate the problem is a do-it-yourself project.
