These ten principles for changing behaviors are rooted in different theories that are rarely put together: Sharpen the destination (1-3), activate social processes (4 and 5), tweak the situation (6...

Ten Ways to Get People to Change - Harvard Business Review

Soil is the other essential component—and key to the potential silvopasture has for mitigating climate change. Silvopastoral systems sequester carbon in both the biomass above ground and the soil below. Pastures that are strewn or crisscrossed with trees sequester five to ten times as much carbon as those of the same size that are treeless.

10. Get politically active and vote. Although it ’ s important to take action to reduce our individual carbon footprints, we also need to focus on changing the larger system. That ’ s where we have the greatest opportunity to reduce emissions. Vote for leaders at all levels of government who take climate change seriously.
