“ Read what you enjoy, not what bores you, ” Nick Hornby tells us. That simple, liberating, and indispensable directive animates each installment of the celebrated critic and author ’ s monthly column in the Believer. In this delightful and never-musty tour of his reading life, Hornby tells us not just what to read, but how to read. Whether tackling a dismayingly bulky biography of Dickens while his children destroy something in the next room, or getting sucked into a serious assessment of Celine Dion during an intensely fought soccer match featuring his beloved Arsenal, or devouring an entire series of children ’ s books while on vacation, Hornby ’ s reviews are rich, witty, and occasionally madcap. These essays capture the joy and ire, the despair and exhilaration of the book-lover ’ s life, and will appeal equally to both monocle-wearing salonnières and people, like him, who spend a lot of time thinking about Miley Cyrus ’ s next role.

On September 19, 2008, at Barrows Neurological, St. Joes Hospital, Phoenix, I had brain surgery, or microvascular decompression. Two neurosurgeons, Drs. Andrew Shetter and Joseph Zabramski performed this high risk procedure. These guys were brilliant and the surgery 100% successful. But a couple of days post op I developed multiple complications, including pneumonia. On my third trip back into intensive care I felt... spent. I told the attending nurse that I didnt want to be re-intubated. The nurse called my wife and told her what I wanted.... After four weeks of hospitalization and five more weeks of intense therapy and recovery at home, I returned to my job with the State of Arizona.... Barack Obama had just been elected President of the United States.... An ever worsening economic crisis was gripping this country.... The historically predictable causes for this crisis had been forewarned by renowned scholars.... For now, consider the health of a US economy thats been moving away from... producing real products... to one which exchanges paper -- buying and selling... corporate and consumer debt... making financial bets, i.e., hedging. Contemporaneously... erode this economys middle class while concentrating... its wealth into fewer hands. Thats whats been happening in the US over the last 40+ years. Its an historical flashing red light for the end of an empire. Guess which empire. On May 18, 2009, I was advised that due to budgetary constraints, the Arizona Office for Americans with Disabilities was to be permanently closed.... My job as Executive Director... would terminate.... Like many of you who read this, Im looking for another job. Thats life. The rest is inside. Knocked Down Viking

A laugh-out-loud memoir about a free-spirited, commitment-phobic Brooklyn girl who, after a whirlwind romance, finds herself living in a rickety farmhouse, pregnant, and faced with five months of doctor-prescribed bed rest because of unusually large fibroids. Aileen Weintraub has been running away from commitment her entire life, hopping from one job and one relationship to the next. When her father suddenly dies, she flees her Jewish Brooklyn community for the wilds of the country, where she unexpectedly falls in love with a man who knows a lot about produce, tractors, and how to take a person down in one jiu-jitsu move. Within months of saying “ I do ” she ’ s pregnant, life is on track, and then wham! Her doctor slaps a high-risk label on her uterus and sends her to bed for five months. As her husband ’ s bucolic (and possibly haunted) farmhouse begins to collapse and her marriage starts to do the same, Weintraub finally confronts her grief for her father while fighting for the survival of her unborn baby. In her precarious situation, will she stay or will she once again run away from it all? Knocked Down is an emotionally charged, laugh-out-loud roller-coaster ride of survival and growth. It is a story about marriage, motherhood, and the risks we take.
