Please note that the content of this book primarily consists of articles available from Wikipedia or other free sources online. Pages: 27. Chapters: Guanches, Battle of Santa Cruz de Tenerife, Battle of Aguere, Canary Islands in pre-colonial times, Alonso Fernandez de Lugo, Pyramids of Guimar, Sicut Dudum, 1976 Canary Island UFO sighting, Treaty of Alcacovas, Jean de Bethencourt, Eric Ragnor Sventenius, Vandino and Ugolino Vivaldi, Canary Islands Independence Movement, Juan Rejon, Gadifer de la Salle, Lancelotto Malocello, Alonso de Espinosa, Creator Omnium, Georg Hartung, Maninidra, Nicoloso da Recco, Achinet, Nivaria. Excerpt: Guanches (also: Guanchis or Guanchetos) is the name given to the aboriginal inhabitants of the Canary Islands. It is believed that they migrated to the archipelago sometime between 1000 BC and 100 BC or perhaps earlier. While it is generally considered that the Guanches no longer exist as a distinct ethnicity, traces of their culture can still be found, such as Silbo,

the "whistled language" of La Gomera Island.

The native term Guanchinet or Achinet literally translated means "man of Tenerife" (from Guan = person and Chinet = Tenerife). It was modified, according to Juan Nunez de la Pena, by the Castilians into "Guanchos."

Reconstruction of a Guanche village (Tenerife). Guanche rock carvings in La PalmaThe Roman author and military officer, Pliny the Elder, drawing upon the accounts of Juba II, king of Mauretania, stated that a Mauretanian expedition to the islands around 50 BC found the ruins of great buildings, but otherwise no population to speak of. If this account is accurate, it may suggest that the Guanches were not the only inhabitants, or the first ones; or that the expedition simply did not explore the islands thoroughly. Strictly speaking, the Guanches were the indigenous peoples of Tenerife, where the population seems to have lived in relative isolation up to the time of the Castilian conquest, around the 14th...

On Sunday, March 27, 1977 KLM Flight 4805 and PANAM Flight 1736 both approached Las Palmas Airport in the Canary Islands, when a terrorist's bomb exploded on the airport. Both flights were diverted to the neighboring island of Tenerife. After Las Palmas Airport reopened the first KLM Flight 4805 was cleared for takeoff, a few minutes later PANAM 1736 was cleared.

Due to a number of misunderstandings both aircraft collided on the runway of Tenerife Airport during takeoff, killing 583 people.

Walking on Tenerife Rough Guides

On the brink of retirement, John and his wife Sally are determined to end a life at the grindstone in grimy and wet Lancashire. Together with their beloved Jack Russell/Staffie cross, Freddie, a rescue dog from the local RSPCA, they embark on the journey of a lifetime and relocate to the island of Tenerife.

Selling up, they make the move to the north of Tenerife, a part almost unknown to the casual tourist – their very own hidden paradise, a world away from the 'tourist trap' that is the south of the island. Relaxed and surrounded by stunning coastal views, life in their new home, set amidst orange groves and banana plantations, is very different indeed! The weather is fantastic, the temperature idyllic, the people so friendly and the cost of living outrageously low... what more could they ask for? Adjusting to life abroad, and all of the costs that come with it, are explained in the book – from buying a new home and sorting out living taxes, to integrating into the local community and taking the dreaded Spanish driving test. Follow John and Sally as they learn a new language and take on a couple of new hobbies, while Freddie takes off on some unbelievable (but true!) exploits with his new canine friends. With a colourful collection of characters, travelling anecdotes that stretch from the English Midlands and all the way through mainland Spain in an old classic car, and some not so perfect moments that bring us back

down to earth from time to time, this is a series of adventures that you will not want to miss. Dog Days In The Fortunate Islands is an ideal read for those contemplating retirement, moving to the Canary Islands or an extended trip through Spain. The book will also appeal to any dog lovers and holidaymakers who enjoy an interesting story.

The overwhelming popularity of Tenerife among European travelers is due to a number of factors. Geographically, it is situated roughly at the center of the archipelago, facilitating ferry travel to each of the surrounding islands. Though it is the largest in total area - around 100 km long and 40 km across at its widest point (62 x 24 miles) - touring the whole of Tenerife, at least by way of the well-maintained autovías along its perimeter, can be managed in a matter of hours. This, mated to an efficient public bus system, countless low-cost car rental

agencies and innumerable resort complexe.

One of the jets, KLM Flight 4805, was traveling more than 150 miles an hour and was within seconds of lifting off when it crashed into Pan Am Flight 1736 taxiing in its path. The loss of lives was staggering—583 dead. The crash happened after a lengthy series of major and minor human errors. In the intervening years, has aviation advanced to the point that such a disaster can ' t happen again? In this riveting account, written from the perspective of the passengers in the cabin as well as the crew members in the cockpits, Jon Ziomek explains how this largely forgotten accident took place—and what has happened since to reduce the possibility of another such catastrophe.
