COPIES SOLD! Winner of the E.B. White Read Aloud Award It started the summer of 2002, when the Springfield librarian, Molly McGrew, by mistake drove her bookmobile into the zoo. In this rollicking rhymed story, Molly introduces birds and beasts to this new something called reading. She finds the perfect book for every animal—tall books for giraffes, tiny ones for crickets. “She even found waterproof books for the otter, who never went swimming without Harry

Potter.” In no time at all, Molly has them “forsaking their niches, their nests, and their nooks,” going “wild, simply wild, about wonderful books.” Judy Sierra’s funny animal tale coupled with Marc Brown’s lush, fanciful paintings will have the same effect on young Homo sapiens. Altogether, it’s more fun than a barrel of monkeys!

Provide parents with Strong Character coaching guidelines to help their child improve their life skills Instructional and Assessment Strategies Delmar Pub This State-specific summary report serves as an assessment of Tennessee's Year 1 Race to the Top implementation, highlighting successes and accomplishments, identifying challenges, and providing lessons learned from implementation to date. Tennessee received its Race to the Top grant in July 2010 as part of the first round of the competition. Since receiving the award, the State has made progress implementing

several initiatives, including integrating the First to the Top (FTTT) Act goals and objectives into daily operations, aiding the LEAs' transition to new Common Core State Standards (CCSS), and designing and implementing a new educator evaluation system. The State is supporting LEAs in their transition to the CCSS by providing trainings, a crosswalk between the existing State standards and the CCSS, and pacing guides to help connect the new standards to professional growth. Over the past year, TDOE provided introductory training to more than 4,000 educators statewide on the CCSS. Additionally, most of the State's LEAs are voluntarily implementing the CCSS standards in kindergarten

through second grade in school year (SY) 2011-2012. Tennessee encountered some impediments to the implementation of its Race to the Top plan during the first year of the grant. After winning its Race to the Top award, Tennessee elected a new Governor who then appointed a new Commissioner of Education. Although the new Governor collaborated with TDOE staff prior to taking office, and both he and his new Commissioner are committed to education reform, the transition to new leadership was not seamless. The time required to fill key leadership positions impacted both TDOE's project timelines and its capacity to support LEAs. TDOE also experienced turnover within the assessment, data systems, and

educator evaluation offices. During the summer of 2011, the Commissioner engaged in a strategic planning process and is considering how to fill vacancies and hire additional staff at TDOE in alignment with the agency's key priorities needed to drive student achievement at the classroom level. Tennessee learned valuable lessons during the first year of Race to the Top that will inform TDOE as it continues to foster supportive relationships with LEAs and schools. In Year 1, the State offered guidance, trainings, and in-person support to LEAs and schools on several Race to the Top initiatives, including TVAAS, the CCSS, and the TAP observation rubric. The guidance and resources provided

by the State built stronger relationships with LEAs to ensure successful implementation of many foundational Race to the Top initiatives in Year 1. A Glossary is included. (Contains 13 footnotes.) Here are 51 easy-to-use, classroom-tested alternatives to the "stand and deliver" teaching techniques that cause so many students to tune out or drop out. Teachers report that these techniques motivate students to participate in learning, as they build confidence and are supported by compelling and safe ways to demonstrate their knowledge and understanding of lessons. Refined through years of classroom experiences and supported by updated research, this 2nd edition

delivers a dozen new techniques to engage K – 12 students in active learning. The authors provide detailed descriptions of the Total Participation Techniques (TPTs) with step-by-step instructions--plus reproducible blackline masters for student response cards as well as posters to remind you to use the techniques. They also suggest how you can adapt and personalize the techniques to fit your context and content. Packed with examples from authentic classrooms, Total Participation Techniques is an essential toolkit for teachers who want to present lessons that are

relevant, engaging, and cognitively challenging. P é rsida Himmele and William Himmele are professors who regularly work with preservice teachers and consult with educators in U.S. and international schools. They are also the authors of Total Literacy Techniques. Big Ideas Math Knopf Books for Young Readers This story is about the first day of school fears. This thesis describes a standards-based pre-kindergarten mathematics curriculum. The purpose of this thesis was to create a series of original lesson plans for

the pre-kindergarten classroom that would address defined standards with instructional and other materials appropriate for teaching and assessing student understanding of the concepts. The curriculum is based on standards set forth by the National Council of Teachers of Mathematics and the Virginia Department of Education's Foundation Blocks for Early Learning. The body of the work introduces the foundation for the thesis with theoretical underpinning, defines the content strands and learning objectives, establishes a pacing schedule for meeting the objectives, and includes lessons for thirty weeks of instruction. Included in the appendices are parental newsletters,

black line masters, literature and technology resources, and a student assessment.

Since the mid-twentieth century,

Zolt á n Kod á ly's child-

developmental philosophy for

teaching music has had

significant positive impact on

music education around the

world, and is now at the core of

music teaching in the United

States and other English

speaking countries. Kod á ly in

the Kindergarten Classroom is

the first comprehensive

handbook to update and apply

the Kod á ly concepts to

teaching music in early

childhood classrooms. Kod á ly

in the Kindergarten Classroom

provides teachers with a step-by-

step road map for developing

children's performance, creative

movement, and literacy skills in

an organic and thoughtful

manner. Through six years of

field-testing with music

kindergarten teachers in the

United States, Great Britain, and

Hungary (the home country of

Zolt á n Kod á ly), authors

Miche á l Houlahan and Philip

Tacka have developed a

methodology specifically for 21st

century classrooms. Houlahan

and Tacka use the latest research

findings in cognition and

perception to create a system not

only appropriate for

kindergarteners' particular

developmental stages but also

one which integrates vertically

between kindergarten and

elementary music classes. The

methods outlined in this volume

encourage greater musical ability

and creativity in children by

teaching kindergarteners to sing,

move, play instruments, and

develop music literacy skills. In

addition, Kod á ly in the

Kindergarten Classroom

promotes critical thinking,

problem solving, and

collaboration skills. Although the

book uses the Kod á ly

philosophy, its methodology has

also been tested by teachers certified in Orff and Dalcroze, and has proven an essential guide for teachers no matter what their personal philosophy and specific training might be. Over 100 children's books are incorporated into Kodály in the Kindergarten Classroom, as well as 35 detailed lesson plans that demonstrate how music and literacy curriculum goals are transformed into tangible musical objectives. Scholarly yet practical and accessible, this volume is sure to be an essential guide for kindergarten and early childhood music teachers everywhere.

The Differentiated Classroom Teacher Created Resources Abstract: Divided into sections by grade level, the instructional guide lists nutrition topics related to Tennessee's nutrition education goals, cognitive, affective, and behavioral objectives needed to achieve the goals, subject matter into which goals may be integrated and a priority rating for inclusion of the topic in the curriculum. Pre-instruction assessment activities help the teacher determine the food- and nutrition-related knowledge, attitudes and behavior the children already possess. Lesson plans for each

topic include background content information for the teacher, activities which can be integrated into traditional subject matter areas, evaluation techniques and additional resources available. The appendices include an annotated resource guide and an educational materials evaluation instrument. (js).
