The Workbook is designed primarily to supplement the Student's Book, but can be used as a useful source of information and practice on its own. The exercises are intended for individual work outside of class or for use as part of class discussions and activities. Each chapter, which corresponds to a chapter in the textbook, includes focused exercises that allow students to concentrate on one particular structure, integrative exercises where structures from previous sections or chapters are “spiraled” in with new structures, practice with prepositions, and editing exercises.

We have compiled these exercises as English Language Teachers in Malaysia. We have used them for our children, our friends children and our tuition students and they have scored A1 in all their examinations. Today they can converse comfortably with anyone from the US, Great Britain or Australia. We could not use these exercises fully with our classroom students because we were tied down by the constraints of the Government Syllabus and insufficient teaching time. As fluency in spoken English is the objective of these lessons, the answers must be in oral form. Too much emphasis is on written exercises when we know that 99.9% of the words we use come from our mouth and not from our hands and pen .

This book is intended to help you, as a teacher of English as a Foreign language (E F L), to teach

common verb tenses and patterns more efficiently and clearly. Some of the material in the book may surprise you. To begin with, the explanations and commentary may seem self-evident, or the phonetic realisations may seem unnecessary. If this is so, please try to bear with me. The material in the book is designed to be of help to several groups: the experienced native speaker seeking a possible new approach to add to his armoury, the novice teacher, who speaks English with native speaker intuition, but has not yet fully analysed what it is that she does know, or why she says what she says, and also the non-native E F L teacher abroad, who speaks English excellently, and yet wishes to understand the subtler differences in usage and idiom which the native speaker takes for granted.
