Video games can instil amazing qualities in children – curiosity, resilience, patience and problem-solving to name a few – but with the

World Health Organisation naming gaming disorder as a clinically diagnosable condition, parents and carers can worry about what video games are doing to their children. Andy Robertson has dealt with all of the above, not just over years of covering this topic for newspapers, radio and television but as a father of three. In this guide, he offers parents and carers practical advice and insights – combining his own experiences with the latest research and guidance from psychologists, industry experts, schools and children's charities – alongside a treasure trove of 'gaming recipes' to test out in your family. Worrying about video game screen time, violence, expense and addiction is an understandable response to scary newspaper headlines. But with first-hand understanding of the video games your children love to play, you can anchor them as a healthy

part of family life. Supported by the www.taminggaming.com Family Video Game Database, Taming Gaming leads you into doing this so that video games can stop being a point of argument, worry and stress and start providing fulfilling, connecting and ambitious experiences together as a family.

In this sweeping adventure story, Stephen E.
Ambrose, the bestselling author of D-Day,
presents the definitive account of one of the
most momentous journeys in American
history. Ambrose follows the Lewis and
Clark Expedition from Thomas Jefferson's
hope of finding a waterway to the Pacific,
through the heart-stopping moments of the
actual trip, to Lewis' lonely demise on the
Natchez Trace. Along the way, Ambrose
shows us the American West as Lewis saw it
-- wild, awesome, and pristinely beautiful.
Undaunted Courage is a stunningly told
action tale that will delight readers for
generations. In 1803 President Thomas
Jefferson selected his personal secretary,
Captain Meriwether Lewis, to lead a voyage
up the Missouri River to the Rockies, over

the mountains, down the Columbia River to the Pacific Ocean, and back. Lewis was the perfect choice. He endured incredible hardships and saw incredible sights, including vast herds of buffalo and Indian tribes that had had no previous contact with white men. He and his partner, Captain William Clark, made the first map of the trans-Mississippi West, provided invaluable scientific data on the flora and fauna of the Louisiana Purchase territory, and established the American claim to Oregon, Washington, and Idaho. Ambrose has pieced together previously unknown information about weather, terrain, and medical knowledge at the time to provide a colorful and realistic backdrop for the expedition. Lewis saw the North American continent before any other white man; Ambrose describes in detail native peoples, weather, landscape, science, everything the expedition encountered along the way, through Lewis's eyes. Lewis is supported by a rich variety of colorful characters, first of all Jefferson himself, whose interest in exploring and acquiring the American West went back thirty years. Next comes Clark, a rugged frontiersman whose love for Lewis matched Jefferson's. There are numerous Indian chiefs, and Sacagawea, the Indian girl who accompanied the expedition, along with the French-Indian hunter Drouillard, the great naturalists of Philadelphia, the French and Spanish fur traders of St. Louis, John Quincy Adams, and many more leading political, scientific, and military figures of

the turn of the century. This is a book about a hero. This is a book about national unity. But it is also a tragedy. When Lewis returned to Washington in the fall of 1806, he was a national hero. But for Lewis, the expedition was a failure. Jefferson had hoped to find an all-water route to the Pacific with a short hop over the Rockies-Lewis discovered there was no such passage. Jefferson hoped the Louisiana Purchase would provide endless land to support farming-but Lewis discovered that the Great Plains were too dry. Jefferson hoped there was a river flowing from Canada into the Missouri-but Lewis reported there was no such river, and thus no U.S. claim to the Canadian prairie. Lewis discovered the Plains Indians were hostile

and would block settlement and trade up the Missouri. Lewis took to drink, engaged in land speculation, piled up debts he could not pay, made jealous political enemies, and suffered severe depression. High adventure, high politics, suspense, drama, and diplomacy combine with high romance and personal tragedy to make this outstanding work of scholarship as readable as a novel.

Death of the New Gods (2007-) #8 Penguin UK

Master the art of building in Minecraft

All New Official Minecraft Creative Handbook HarperCollins UK

Welcome to Terraria, a world like Minecraft's Overworld that's full of action and possibility. Unique treasures to hoard, wondrous biomes to explore, intricate buildings to construct, and treacherous

villains to fight await anyone daring and creative enough to seek fortune and glory in Terraria. Miles, a young hero setting out on his first quest, yearns to become Terraria's strongest hero—and when Matthew offers to adventure alongside him as his friend and personal guide, he's positive that the road to success is paved before them. Matthew tells Miles that to truly advance in the game, he must defeat the Wall of Flesh, so he sets his sights on that goal. But Miles is devastated when he learns that becoming powerful enough to defeat the Wall of Flesh will come at a high cost: Matthew will be destroyed, and he'll lose his best friend forever. Miles must make a decision: should he stay loyal to Matthew and set his own dreams aside, or sacrifice his closest friend for the chance to chart a life in an unknown territory and save his biome? In this first exciting installment in the Tales of a Terrarian Warrior series, every choice has the power to change the future, and turning back is never an option.

The Master Switch Simon and Schuster

After earning the The Buckets of Bolts achievement, Miles returns home to take a break and hang out. But then Asher and Owen, warrior friends who joined him on the last adventure, come to Miles pleading for his help in defeating Plantera. Things are dicey with Asher and Owen, as they need his help, but often treat him like a third wheel. Miles agrees to fight Plantera, in order to keep his friends and village safe. And the gang does feel like a trio of warriors after their defeat. Then they encounter the Golem. Being bolstered by their previous win helps them defeat the Golem. And

they return home victorious. But who would have thought their biggest battle yet – and at home -- would come not from Terrarian enemies, but those from outer space?!

Terraria Gemstone Publishing

Majoritarian State traces the ascendance of Hindu nationalism in contemporary India.

Led by Prime Minister Narendra Modi, the BJP administration has established an ethno-religious and populist style of rule since 2014. Its agenda is also pursued beyond the formal branches of government, as the new dispensation portrays conventional social hierarchies as intrinsic to Indian culture while condoning communal and caste- and gender-based violence. The contributors

explore how Hindutva ideology has permeated the state apparatus and formal institutions, and how Hindutva activists exert control over civil society via vigilante groups, cultural policing and violence. Groups and regions portrayed as 'enemies' of the Indian state are the losers in a new order promoting the interests of the urban middle class and business elites. As this majoritarian ideology pervades the media and public discourse, it also affects the judiciary, universities and cultural institutions, increasingly captured by Hindu nationalists. Dissent and difference silenced and debate increasingly sidelined as the press is muzzled or intimidated in the courts. Internationally, the BJP government has emphasised hard power and a fast-

expanding security state. This collection of essays offers rich empirical analysis and documentation to investigate the causes and consequences of the illiberal turn taken by the world's largest democracy.
