Navigating the volatility, uncertainty, complexity, and ambiguity (VUCA) characterizing the business world in the 21st century requires a new paradigm focused on an integrated bottom line – planet, people, and profit (PPP). Global trends include resource scarcity and growing inequities in income, wealth, education, and healthcare.

Stakeholders are demanding that organizations address systemic barriers to promote justice and equity within organizations and across broader social systems. Transformational change requires leadership to analyze internal and external systems through a social and environmental justice lens. Despite a growing focus on justice, equity, diversity, and inclusion, the imbalance of power remains within our institutions, organizations, and social systems. To move the needle, leaders can turn to Driving Justice, Equity, Diversity, and Inclusion, which explains developing a North Star vision and creating a strategy to redesign organizational process and systems, as well as leveraging

tools for data-driven decision-making. It presents a framework to build an inclusive organization as well as a model to engage and support senior and middle management beginning the process of capacity building and systemic change. By layering in AI and other technologies to support data-driven decision-making, the book guides leaders in navigating their organization ' s journey along the maturity continuum to achieve their North Star vision of becoming a just and equitable organization. The book also helps managers to Assess ecosystems and organizational systems that justice, equity, diversity, and inclusion impact Take a deeper dive into transformational and

operational components to gain insights on the deep systemic realignment of the North Star vision Identify and engage with diverse stakeholders to gain perspective and understand issues crucial for transformative change Leverage people-centered design to create a process promoting diversity of voices and to better align outcomes with shared organizational vision Use data to drive decision-making and reduce bias by removing intuition from the decision-making process Leverage the book's frameworks to drive collaborative systemic change Adapt insights highlighted in multiple interviews with DEI practitioners Benefit from lessons learned and best practices

featured in the book's case studies This book features a primer, which is a quick reference guide to key terms, concepts, and definitions. It helps to define justice, equity, diversity, inclusion, and other key terms, such as unconscious bias, stereotypes, and microaggressions. It also features a toolkit, which includes checklists to help managers lead organizations to realize their own North Star vision. The Mom Test is a quick, practical guide that will save you time, money, and heartbreak.

They say you shouldn't ask your mom whether your business is a good idea, because she loves you and will lie to you. This is technically true, but it misses the point. You shouldn't ask anyone if your business is a good idea. It's a bad question and everyone will lie to you at least a little . As a matter of fact, it's not their responsibility to tell you the truth. It's your responsibility to find it and it's worth doing right .

Talking to customers is one of the foundational skills of both Customer Development and Lean Startup. We all know we're

supposed to do it, but nobody seems willing to admit that it's easy to screw up and hard to do right. This book is going to show you how customer conversations go wrong and how you can do better.

This book constitutes the refereed proceedings of the 1st International Congress on Blockchain and Applications 2020, BLOCKCHAIN ' 20, held in L ' Aquila, Italy, in October 2020. Among the scientific community, blockchain and artificial

intelligence are a promising combination that will transform the production and manufacturing industry, media, finance, insurance, e-government, etc.

Nevertheless, there is no consensus with schemes or best practices that would specify how blockchain and artificial intelligence should be used together. The 21 full papers presented were carefully reviewed and selected from over 40 submissions. They contain the latest advances on blockchain and artificial

intelligence and on their application domains, exploring innovative ideas, guidelines, theories, models, technologies, and tools, and identifying critical issues and challenges that researchers and practitioners must deal with in future research.

This is the most current textbook in teaching the basic concepts of abstract algebra. The author finds that there are many students who just

memorise a theorem without having the ability to apply it to a given problem. Therefore, this is a hands-on manual, where many typical algebraic problems are provided for students to be able to apply the theorems and to actually practice the methods they have learned. Each chapter begins with a statement of a major result in Group and Ring Theory, followed by problems and solutions. Contents: Tools and Major Results of Groups; Problems in Group Theory; Tools and Major Results of Ring Theory; Problems in Ring Theory; Index.

From the creator of the
popular website Ask a
Manager and New York 's
work-advice columnist comes a
witty, practical guide to 200
difficult professional
conversations—featuring all-
new advice! There 's a reason
Alison Green has been called
“ the Dear Abby of the work
world. ” Ten years as a
workplace-advice columnist
have taught her that people

avoid awkward conversations in
the office because they simply
don ' t know what to say.
Thankfully, Green does—and
in this incredibly helpful book,
she tackles the tough
discussions you may need to
have during your career.
You ' ll learn what to say when
• coworkers push their work
on you—then take credit for it
• you accidentally trash-talk
someone in an email then hit
“ reply all ” • you ' re being
micromanaged—or not being
managed at all • you catch a
colleague in a lie • your boss
seems unhappy with your work
• your cubemate ' s loud

homicidal • you got drunk at
the holiday party Praise for Ask
a Manager “ A must-read for
anyone who works . . . [Alison
Green ' s] advice boils down to
the idea that you should be
professional (even when others
are not) and that
communicating in a
straightforward manner with
candor and kindness will get
you far, no matter where you
work. ” —Booklist (starred

friendly, warm, no-nonsense
writing is a pleasure to read,
and her advice can be widely
applied to relationships in all

areas of readers' lives. Ideal for anyone new to the job market or new to management, or anyone hoping to improve their work experience. " —Library Journal (starred review) " I am a huge fan of Alison Green's Ask a Manager column. This book is even better. It teaches us how to deal with many of the most vexing big and little problems in our workplaces—and to do so with grace, confidence, and a sense of humor. " —Robert Sutton, Stanford professor and author of *The No Asshole Rule* and *The Asshole Survival Guide* " Ask a Manager is the

ultimate playbook for navigating the traditional workforce in a diplomatic but firm way. " —Erin Lowry, author of *Broke Millennial: Stop Scraping By and Get Your Financial Life Together* MR2 Springer Nature Don't simply show your data—tell a story with it! *Storytelling with Data* teaches you the fundamentals of data visualization and how to communicate effectively with data. You'll discover the power of storytelling and the way to make data a pivotal point in your story. The lessons in this illuminative text are grounded in theory, but made accessible through

numerous real-world examples—ready for immediate application to your next graph or presentation. Storytelling is not an inherent skill, especially when it comes to data visualization, and the tools at our disposal don't make it any easier. This book demonstrates how to go beyond conventional tools to reach the root of your data, and how to use your data to create an engaging, informative, compelling story. Specifically, you'll learn how to: Understand the importance of context and audience Determine the appropriate type of graph for your situation Recognize and eliminate the clutter clouding your information Direct your audience's attention to the most

important parts of your data Think like a designer and utilize concepts of design in data visualization Leverage the power of storytelling to help your message resonate with your audience Together, the lessons in this book will help you turn your data into high impact visual stories that stick with your audience. Rid your world of ineffective graphs, one exploding 3D pie chart at a time. There is a story in your data—Storytelling with Data will give you the skills and power to tell it!

Tools and Ethics for Applied Behavioural Insights: The BASIC Toolkit Wiley Global Education Assessment and evaluation have always been an integral part of educational process. Quality and purposeful assessment can assist in students' learning and their achievement. While there

has been a rapid growth in international, standardized student assessments in the past few decades, a large number of education systems participating in these assessments are now focusing their attention on developing new national, within-country assessments to evaluate educational standards and to modify the curriculum to better suit to the demands of the 21st century. Education systems that are successful in linking the national curriculum and assessments directly to international

standards are performing better on international standardized assessments of reading, mathematics, and science. This book covers studies related to educational assessment in addressing quality of education and performance improvement. The book presents the distinguished and exemplary works by educators and researchers in the field highlighting the contemporary trends and issues, creative and unique approaches, innovative methods, frameworks,

pedagogies and theoretical and practical aspects in assessment processes in various educational settings. True or false? In selling high-value products or services: 'closing' increases your chance of success; it is essential to describe the benefits of your product or service to the customer; objection handling is an important skill; open questions are more effective than closed questions. All false, says this provocative book. Neil Rackham and his team studied more than 35,000 sales calls made by 10,000 sales people in

23 countries over 12 years.

Their findings revealed that many of the methods developed for selling low-value goods just don't work for major sales.

Rackham went on to introduce his SPIN-Selling method. SPIN describes the whole selling process: Situation questions Problem questions Implication questions Need-payoff questions SPIN-Selling provides you with a set of simple and practical techniques which have been tried in many of today's leading companies with dramatic improvements to their sales performance.
