Watch a video introduction [here](#). Statistics Through Applications (STA) is the only text written specifically for high school statistics course. Designed to be read, the book takes a data analysis approach that emphasizes conceptual understanding over computation, while recognizing that some computation is necessary. The focus is on the statistical thinking behind data gathering and interpretation. The high school statistics course is often the first applied math course students take. STA engages students in learning how statisticians contribute to our understanding of the world and helps students to become more discerning consumers of the statistics they encounter in ads, economic reports, political campaigns, and elsewhere. New and improved!

STA 2e features expanded coverage of probability, a reorganized presentation of data analysis, a new color design and much more. Please see the posted sample chapter or request a copy today to see for yourself.

In *Romeo and Juliet*, Shakespeare
creates a violent world, in which two
young people fall in love. It is not simply
that their families disapprove; the
Montagues and the Capulets are
engaged in a blood feud. In this death-
filled setting, the movement from love at
first sight to the lovers' final union in
death seems almost inevitable. And yet,
this play set in an extraordinary world
has become the quintessential story of
young love. In part because of its
exquisite language, it is easy to respond

as if it were about all young lovers. The authoritative edition of *Romeo and Juliet* from The Folger Shakespeare Library, the trusted and widely used Shakespeare series for students and general readers, includes:

- Freshly edited text based on the best early printed version of the play
- Newly revised explanatory notes conveniently placed on pages facing the text of the play
- Scene-by-scene plot summaries
- A key to the play's famous lines and phrases
- An introduction to reading Shakespeare's language
- An essay by a leading Shakespeare scholar providing a modern perspective on the play
- Fresh images from the Folger Shakespeare Library's vast holdings of rare books
- An up-to-date annotated guide to further reading

The SAT II Subject Tests are created and administered by the College Board and the Educational Testing Service (ETS), the two

organizations responsible for producing the SAT I (the SAT). The SAT II Subject Tests are meant to complement the SAT I. Whereas the SAT I tests your critical thinking skills by asking math and verbal questions, the SAT II Subject Tests examine your knowledge of a particular subject, such as Writing, U.S. History, Physics, or Biology. The SAT I takes three hours; the Subject Tests take one hour.
