The administration of fear also means that states are tempted to create policies for the orchestration and management of fear. Globalization has progressively eaten away at the traditional prerogatives of states (most notably of the welfare state), and states have to convince citizens that they can ensure their physical safety.

For Virilio, the 'administration of fear' refers to the fear that surrounds us, as well as the policies created by the State to manage fear,

which ultimately threaten democracy. Virilio makes a (tenuous) connection between the occupation of France in the Second World War and the current state of fear: fear is the occupier today.
