Sally Phipps was only three years old and the veteran winner of several beautiful baby contests when she appeared as the Baby in the film "Broncho Billy And The Baby." It was made at the Niles California Essanay Studio in late 1914. This book follows her amazing life and a career that culminated in her receiving the Rosemary (for remembrance) Award shortly before her death in 1978. Her memories of the early years at Essanay include sitting on Charlie Chaplin's lap and enduring a frightening stage coach accident. In her teens, she was a Fox Studio star appearing in 20 films, including a cameo in the classic "Sunrise." There were bad times also. She was on the set of her Fox two-reel comedy "Gentlemen Prefer Scotch" in 1927 when word reached her of the scandalous death of her father, a state senator. But in that same year, she was

selected as one of the 13 Wampas Baby Stars, starlets that were considered destined for future success. Despite her popularity in Hollywood, she left for New York where she became the darling of gossip columnists, particularly Walter Winchell. She appeared in two Broadway shows, made a Vitaphone comedy short, and married and divorced one of the Gimbel department store moguls before she darted off for India and around the world travel. Back in New York, there was another marriage, two children, and later a stay in Hawaii. Earl Wilson wrote about her in 1938 when she was working for the Federal Theatre Project during the WPA period -- headlining his column "Wampas Ex-Baby Lives On WPA \$23 - And Likes It." Her images - especially her pinup photographs - have become highly collectible. The book features 150 pictures from Sally's personal and professional life, including glamorous portraits and pinups.

THE LYRIC STORY OF THE NET GENERATION-GROWING UP AND COMING OF AGE ON THE INTERNET The Internet is everywhere now, but Ray Valentine saw it first explode. CIRCUITS OF THE WIND is the story of Ray's quest to find himself as he grows up wandering the computer underground-the wild, global outback that existed before the net went mainstream. How else does an end-of-century slacker reach out to the world from Sohola, that northern state that's a little more Midwest than it is New England? The net holds the key to what he's after-but even as he pioneers this virtual world, the veneer of his real life begins to crack. In VOLUME TWO of the CIRCUITS OF THE WIND trilogy, the net arrives all glimmering when Ray is starting college: it's brighter, quicker, better than he ever knew. It's the early 1990s-a time of golden youth and of joyriding on the growing Internet, where he rises as a leader of the global generation, the ones who saw it as the gilded portal to a fabulous new age everyone was about to enter. But he's coasting aimlessly-and when his college friends move on and fashions change he sees how real life actually might not be working out.

I Am Tan Rowman & Littlefield

A TRUE CRIME THRILLER THAT EXPLORES THE DARKEST REGIONS OF ROMANTIC INFATUATION. THE YEAR: 1969 THE SETTING: Berkeley, California THE STORY: Amidst the turmoil of student rebellion two loners encounter each other and turn an innocent flirtation into a dance of death. THE CHARACTERS: Prosenjit Poddar was the brilliant engineering student who wanted nothing more than to return to his native India a big success and to marry a woman of his parents' choosing. Tanya Tarasoff was the naive coed who just wanted somebody to love. And Larry Moore was the young psychologist who thought he recognized the warning signs that his patient was not just suffering from a jilted love affair... but was about to commit an act of murder. THE STAKES: In a culture clash that pits the traditional values of male-dominated India against free-love attitudes of Berkeley in the '60s, an impending tragedy unfolds. Soon Larry Moore finds himself face-to-face with the biggest dilemma of his career. What does a doctor do if he perceives his patient as mentally unstable and a threat to the well-being of another... but is bound by the oath of doctor-patient confidentiality not to warn the police? This true story tracks Moore's race against time to stop the inevitable. BAD KARMA is more than an anatomy of madness; it is also a chronicle of the events that would culminate in a landmark decision handed down by the California Supreme Court. Known simply as Tarasoff, this 1976 ruling would change the oath of confidentiality between therapist and patient, and establish the rule

that a mental health professional has the legal duty to protect a threatened individual.

The original story that inspired the movie starring Brad Pitt and Cate Blanchett. A man, "born under unusual circumstances," ages backwards, through a life that is as unusual as could be. This story was inspired by a remark of Mark Twain's to the effect that it was a pity that the best part of life came at the beginning and the worst part at the end.

"Film criticism is exciting just because there is no formula to apply," Pauline Kael once observed, "just because you must use everything you are and everything you know." Between 1968 and 1991, as regular film reviewer for The New Yorker, Kael used those formidable tools to shape the tastes of a generation, enthralling readers with her gift for capturing, with force and fluency, the essence of an actor's gesture or the full implication of a cinematic image. Kael called movies "the most total and encompassing art form we have," and she made her reviews a platform for considering both film and the worlds it engages, crafting in the process a prose style of extraordinary wit, precision, and improvisatory grace. To read The Age of Movies, the first new selection in more than a generation, is to be swept up into an endlessly revealing and entertaining dialogue with Kael at her witty, exhilarating, and opinionated best. Her ability to evoke the essence of a great artist—an Orson Welles or a Robert Altman—or to celebrate the way even seeming trash could tap deeply into our emotions was matched by her unwavering eye for the scams and self-deceptions of a corrupt movie industry. Here in this career spanning collection are her appraisals of the films that defined an era—among them Breathless, Bonnie and Clyde, The Leopard, The Godfather, Last Tango in Paris, Nashville—along with many others, some awaiting rediscovery, all providing the occasion for masterpieces of observation and insight, alive on every page.

"Be yourself. The world worships the original." - Ingrid Bergman

Since the early 20th century, film has been embraced as arguably the preeminent international art form. Not only is Hollywood cinema immensely popular around the world, but other nationalities (Bollywood being the greatest current example) have their own thriving industries. Major actors and actresses are not only icons in their parent countries but reach tremendous international fame. However, most actors who become internationally famous do so via the success of the films they make in their native land, without actually leaving their country. One of the most famous early examples is Charlie Chaplin, who reached incredible fame in Asia and Western Europe during the silent cinema era despite having never left the confines of Hollywood. Chaplin's example illustrates how the vast majority of film stars who reach international fame do so through the global success of the films they make within a given industry. This dynamic highlights the uniqueness of Ingrid Bergman's career and her significance as an international film star. Not only were films like Casablanca (1942) famous around the world, but she made films in five different languages and film

industries. In this regard, she was the rare star who was willing to literally act in films produced in different countries. Bergman's fame cannot be doubted, but the international quality of her career has prevented most people from gaining a complete understanding of her filmography. Moreover, the immense success of her most famous films obscured her other achievements; one of Bergman's persistent lamentations late in her career was that even though she appeared in other films she deemed more significant, the only film of hers that people wanted to discuss was Casablanca. As a result, her early films in Sweden, the Italian Neorealist films she made with famous director and future husband Roberto Rossellini, and her French film with Jean Renoir have all been relegated to the margins. Bergman is thus recognized as a Hollywood star rather than an actress who should be identified with an array of different film industries, reducing the enormous scope of her career to a relatively small proportion of her filmography. At the same time, Bergman's personal life reflects the dynamics of the film industry and the relationship between celebrities and American culture more generally. At times during her career, Bergman was the darling of Hollywood, but at other times she was literally a pariah. It is all too common to remember Bergman for her performance in Casablanca, forgetting the fact that she was effectively exiled from Hollywood for several years during her romance with Roberto Rossellini. Her life and career amply demonstrated the expectations American culture held for their film stars during the mid-20th century.

Ingrid Bergman: The First International Movie Star profiles the life and career of one of the world's most famous actresses and entertainment icons. Along with pictures of important people, places, and events, you will learn about Ingrid Bergman like you never have before, in no time at all.

I am a fan of Coming of Age movies. Over the years, I've found there is a dearth of good reference books on the genre. So I've decided to write one, both to provide a readily available resource for fellow fans of this genre (who may be looking for guide to films they'd like to view) and, secondly, to preserve the many reviews I've written over the years on my blog: theskykid.com.This is primarily a book of reviews of films in the Coming of Age genre. But the book also contains several interviews with some of the most notable of Coming of Age filmmakers of our age. Their insights into the making of films is something I wanted to share with fans of the genre.

Over the past decade, as digital media has expanded and print outlets have declined, pundits have bemoaned a "crisis of criticism" and mourned the "death of the critic." Now that well-paying jobs in film criticism have largely evaporated, while blogs, message boards, and social media have given new meaning to the saying that "everyone's a critic," urgent questions have emerged about the status and purpose of film criticism in the twenty-first century. In Film Criticism in the Digital Age, ten scholars from across the globe come together to consider whether we are witnessing the extinction of serious film criticism or seeing the start of its rebirth in a new form. Drawing from a wide variety of case studies and methodological perspectives, the book's contributors find many signs of the film critic's declining clout, but they also locate surprising examples of how critics—whether moonlighting bloggers or salaried writers—have been able to intervene in current popular discourse about arts and culture. In addition to collecting a plethora of scholarly perspectives, Film Criticism in the Digital Age includes statements from key bloggers and print critics, like Armond White and Nick James. Neither an uncritical celebration of digital culture nor a jeremiad against it, this anthology offers a comprehensive look at the challenges and possibilities that the Internet brings to the evaluation, promotion, and explanation of artistic works.
