

The Age Of Reagan A History 1974 2008 Sean Wilentz

Eventually, you will utterly discover a further experience and exploit by spending more cash. nevertheless when? pull off you allow that you require to get those every needs in the manner of having significantly cash? Why dont you attempt to get something basic in the beginning? Thats something that will lead you to understand even more roughly speaking the globe, experience, some places, once history, amusement, and a lot more?

It is your no question own times to bill reviewing habit. accompanied by guides you could enjoy now is **The Age Of Reagan A History 1974 2008 Sean Wilentz** below.

The Triumph of Nancy Reagan Yale University Press

A masterful account of how Ronald Reagan and his national security team confronted the Soviets, reduced the nuclear threat, won the Cold War, and supported the spread of freedom around the world. "Remarkable... a great read."—Robert Gates • "Mesmerizing... hard to put down."—Paul Kennedy • "Full of fresh information... will shape all future studies of the role the United States played in ending the Cold War."—John Lewis Gaddis • "A major contribution to our understanding of the Reagan presidency and the twilight of the Cold War era."—David Kennedy With decades of hindsight, the peaceful end of the Cold War seems a foregone conclusion. But in the early 1980s, most experts believed the Soviet Union was strong, stable, and would last into the next century. Ronald Reagan entered the White House with no certainty of what would happen next, only an overriding faith in democracy and an abiding belief that Soviet communism—and the threat of nuclear war—must end. The Peacemaker reveals how Reagan's White House waged the Cold War while managing multiple crises around the globe. From the emergence of global terrorism, wars in the Middle East, the rise of Japan, and the awakening of China to proxy conflicts in Latin America, Africa, and Asia, Reagan's team oversaw the worldwide expansion of democracy, globalization, free trade, and the information revolution. Yet no issue was greater than the Cold War standoff with the Soviet Union. As president, Reagan remade the four-decades-old policy of containment and challenged the Soviets in an arms race and ideological contest that pushed them toward economic and political collapse, all while extending an olive branch of diplomacy as he sought a peaceful end to the conflict. Reagan's revolving team included Secretaries of State Al Haig and George Shultz; Secretaries of Defense Caspar Weinberger and Frank Carlucci; National Security Advisors Bill Clark, John Poindexter, and Bud McFarlane; Chief of Staff James Baker; CIA Director Bill Casey; and United Nations Ambassador Jeane Kirkpatrick. Talented and devoted to their president, they were often at odds with one another as rivalries and backstabbing led to missteps and crises. But over the course of the presidency, Reagan and his team still developed the strategies that brought about the Cold War's peaceful conclusion and remade the world. Based on thousands of pages of newly-declassified documents and interviews with senior Reagan officials, *The Peacemaker* brims with fresh insights into one of America's most consequential presidents. Along the way, it shows how the pivotal decade of the 1980s shaped the world today.

The Age of Reagan: The Conservative Counterrevolution Cornell University Press

The only biography ever authorized by a sitting President—yet written with complete interpretive freedom—Dutch is as revolutionary in method as it is formidable in scholarship. Thirteen years of exhaustive research in the archives of Washington and Hollywood, and thousands of hours of interviews with the President and his family, friends, allies, and enemies, equipped Morris with an unmatched knowledge of one of the twentieth century's greatest leaders. This monumental work offers the most insightful and elegant portrait to date of Ronald Reagan: the young "Dutch," the middle-aged Cold Warrior, and the septuagenarian Chief Executive. Written with imagination, yet always anchored by the weight of research and fact, *Dutch* stands as both a landmark in the form of biography and an unparalleled historical account of the rise and rule of Ronald Reagan.

Reagan Penguin

"Those who say that we're in a time when there are no heroes, they just don't know where to look." —President Ronald Reagan, January 20, 1981 Hero. It was a word most Americans weren't using much in 1980. As they waited on gas and unemployment lines, as their enemies abroad grew ever more aggressive, and as one after another their leaders failed them, Americans began to believe the country's greatness was fading. Yet within two years the recession and gas shortage were over. Before the decade was out, the Cold War was won, the Berlin Wall came crashing down, and America was once more at the height of prosperity. And the nation had a new hero: Ronald Wilson Reagan. Reagan's greatness is today widely acknowledged, but his legacy is still misunderstood. Democrats accept the effectiveness of his foreign policy but ignore the success of his domestic

programs; Republicans cheer his victories over liberalism while ignoring his bitter battles with his own party's establishment; historians speak of his eloquence and charisma but gloss over his brilliance in policy and clarity of vision. From Steven F. Hayward, the critically acclaimed author of *The Age of Reagan: The Fall of the Old Liberal Order*, comes the first complete, true story of this misunderstood, controversial, and deeply consequential presidency. Hayward pierces the myths and media narratives, masterfully documenting exactly what transpired behind the scenes during Reagan's landmark presidency and revealing his real legacy. What emerges is a compelling portrait of a man who arrived in office after thirty years of practical schooling in the ways of politics and power, possessing a clear vision of where he wanted to take the nation and a willingness to take firm charge of his own administration. His relentless drive to shrink government and lift the burdens of high taxation was born of a deep appreciation for the grander blessings of liberty. And it was this same outlook, extended to the world's politically and economically enslaved nations, that shaped his foreign policy and lent his statecraft its great unifying power. Over a decade in the making, and filled with fresh revelations, surprising insights, and an unerring eye for the telling detail, this provocative and authoritative book recalls a time when true leadership inspired a fallen nation to pick itself up, hold its head high, and take up the cause of freedom once again.

Reagan's Legacy in a World Transformed Simon and Schuster

Did America's fortieth president lead a conservative counterrevolution that left liberalism gasping for air? The answer, for both his admirers and his detractors, is often "yes." In *Morning in America*, Gil Troy argues that the Great Communicator was also the Great Conciliator. His pioneering and lively reassessment of Ronald Reagan's legacy takes us through the 1980s in ten year-by-year chapters, integrating the story of the Reagan presidency with stories of the decade's cultural icons and watershed moments—from personalities to popular television shows. One such watershed moment was the 1984 Los Angeles Olympics. With the trauma of Vietnam fading, the triumph of America's 1983 invasion of tiny Grenada still fresh, and a reviving economy, Americans geared up for a festival of international harmony that spurred on by an entertainment-focused news media, corporate sponsors, and the President himself—became a celebration of the good old U.S.A. At the Games' opening, Reagan presided over a thousand-voice choir, a 750-member marching band, and a 90,000-strong teary-eyed audience singing "America the Beautiful!" while waving thousands of flags. Reagan emerges more as happy warrior than angry ideologue, as a big-picture man better at setting America's mood than implementing his program. With a vigorous Democratic opposition, Reagan's own affability, and other limiting factors, the eighties were less counterrevolutionary than many believe. Many sixties' innovations went mainstream, from civil rights to feminism. Reagan fostered a political culture centered on individualism and consumption-finding common ground between the right and the left. Written with verve, *Morning in America* is both a major new look at one of America's most influential modern-day presidents and the definitive story of a decade that continues to shape our times.

Ronald Reagan Forum Books

2021 Prose Award Finalist A long-overdue and sober examination of President Ronald Reagan's racist politics that continue to harm communities today and helped shape the modern conservative movement. Ronald Reagan is hailed as a transformative president and an American icon, but within his twentieth-century politics lies a racial legacy that is rarely discussed. Both political parties point to Reagan as the "right" kind of conservative but fail to acknowledge his political attacks on people of color prior to and during his presidency. Reconsidering Reagan corrects that narrative and reveals how his views, policies, and actions were devastating for Black Americans and racial minorities, and that the effects continue to resonate today. Using research from previously untapped resources including the Black press which critically covered Reagan's entire political career, Daniel S. Lucks traces Reagan's gradual embrace of conservatism, his opposition to landmark civil rights legislation, his coziness with segregationists, and his skill in tapping into white anxiety about race, riding a wave of "white backlash" all the way to the Presidency. He argues that Reagan has the worst civil rights record of any President since the 1920s—including supporting South African apartheid, packing courts with conservatives,

targeting laws prohibiting discrimination in education and housing, and launching the "War on Drugs"—which had cataclysmic consequences on the lives of Black and Brown people. Linking the past to the present, Lucks expertly examines how Reagan set the blueprint for President Trump and proves that he is not an anomaly, but in fact the logical successor to bring back the racially tumultuous America that Reagan conceptualized.

Greatness Simon and Schuster

National bestseller: In this brilliantly readable book, a Pulitzer Prize-winning journalist chronicles the Reagan decade, when America fell from dominant world power to struggling debtor nation and when optimism turned to foreboding. In human terms and living case histories, Haynes Johnson captures the drama and tragedy of an era nurtured by greed and a morality that found virtue in not getting caught. "It is morning again in America," Reagan's campaign commercials told us, and for too long we embraced that convenient lie. Indeed, the problems that came to plague us in that decade are with us even more today, as Johnson memorably demonstrates in—his afterword, "Notes on an Era," written especially for this new paperback reissue. This book will remain a signature work of political analysis for years to come.

When Character Was King Forum Books

The conservative icon who reshaped American politics and laid the groundwork for the end of the Cold War In the second half of the twentieth century, no American president defined his political era as did Ronald Reagan. He ushered in an age that extolled smaller government, tax cuts, and strong defense, and to this day politicians of both political parties operate within the parameters of the world he made. His eight years in office from 1981 to 1989 were a time of economic crisis and recovery, a new American assertiveness abroad, and an engagement with the Soviet Union that began in conflict but moved in surprising new directions. Jacob Weisberg provides a bracing portrait of America's fortieth president and the ideas that animated his political career, offering a fresh psychological interpretation and showing that there was more to Reagan than the usual stereotypes. Reagan, he observes, was a staunch conservative but was also unafraid to compromise and cut deals where necessary. And Reagan espoused a firm belief, just as firm as his belief in small government and strong defense, that nuclear weapons were immoral and ought to be eliminated. Weisberg argues that these facets of Reagan were too often ignored in his time but reveal why his presidency turned out to be so consequential. In the years since Reagan left office, he has been cast in marble by the Republican Party and dismissed by the Democrats. Weisberg shows why we need to move past these responses if we wish truly to appreciate his accomplishments and his legacy.

The Reagan Era Times Books

The best-selling author of *Nixonland* presents a portrait of the United States during the turbulent political and economic upheavals of the 1970s, covering events ranging from the Arab oil embargo and the era of Patty Hearst to the collapse of the South Vietnamese government and the rise of Ronald Reagan.

Reaganland Simon and Schuster

The Unexplored Connections Between Two of History's Greatest Leaders Ronald Reagan and Winston Churchill were true giants of the twentieth century, but somehow historians have failed to notice the many similarities between these extraordinary leaders. Until now. In *Greatness*, Steven F. Hayward—who has

written acclaimed studies of both Reagan and Churchill—goes beneath superficial differences to uncover the remarkable parallels between the two statesmen. In exploring these connections, Hayward shines a light on the nature of political genius and the timeless aspects of statesmanship—critical lessons in this or any age.

The Age of Reagan: The Fall of the Old Liberal Order The New Press
Reagan's Legacy in a World Transformed offers a timely retrospective on the fortieth president's policies and impact on today's world, from the influence of free market ideas on economic globalization, to the role of an assertive military in U.S. foreign policy, to reduction of nuclear arsenals in the interest of stability.

Ronald Reagan W. W. Norton & Company

Ronald Reagan is hailed today for a presidency that restored optimism to America, engendered years of economic prosperity, and helped bring about the fall of the Soviet Union. Yet until now little attention has been paid to the role Reagan's personal spirituality played in his political career, shaping his ideas, bolstering his resolve, and ultimately compelling him to confront the brutal -- and, not coincidentally, atheistic -- Soviet empire. In this groundbreaking book, political historian Paul Kengor draws upon Reagan's legacy of speeches and correspondence, and the memories of those who knew him well, to reveal a man whose Christian faith remained deep and consistent throughout his more than six decades in public life. Raised in the Disciples of Christ Church by a devout mother with a passionate missionary streak, Reagan embraced the church after reading a Christian novel at the age of eleven. A devoted Sunday-school teacher, he absorbed the church's model of "practical Christianity" and strived to achieve it in every stage of his life. But it was in his lifelong battle against communism -- first in Hollywood, then on the political stage -- that Reagan's Christian beliefs had their most profound effect. Appalled by the religious repression and state-mandated atheism of Bolshevik Marxism, Reagan felt called by a sense of personal mission to confront the USSR. Inspired by influences as diverse as C.S. Lewis, Whittaker Chambers, and Aleksandr Solzhenitsyn, he waged an openly spiritual campaign against communism, insisting that religious freedom was the bedrock of personal liberty. "The source of our strength in the quest for human freedom is not material, but spiritual," he said in his Evil Empire address. "And because it knows no limitation, it must terrify and ultimately triumph over those who would enslave their fellow man." From a church classroom in 1920s Dixon, Illinois, to his triumphant mission to Moscow in 1988, Ronald Reagan was both political leader and spiritual crusader. God and Ronald Reagan deepens immeasurably our understanding of how these twin missions shaped his presidency -- and changed the world.

The Other Eighties PublicAffairs

The Essential Ronald Reagan covers the former president's birth and childhood in Illinois through his years in Hollywood. It delves into his growing involvement in politics, culminating in his election as governor of California, his two terms as president.

Reagan Macmillan Higher Education

Explores Reagan's political career, from his role in the California tax revolt to the economic success the United States experienced during his term in office.

The Age of Reagan Forum Books

In this concise yet thorough history of America in the 1980s, Doug Rossinow takes the full measure of Ronald Reagan's presidency and the ideology of Reaganism. Believers in libertarian economics and a muscular foreign policy, Reaganite conservatives in the 1980s achieved impressive success in their efforts to transform American government, politics, and society, ushering in the political and social system Americans inhabit today. Rossinow links current trends in economic

inequality to the policies and social developments of the Reagan era. He reckons with the racial politics of Reaganism and its debt to the backlash generated by the civil rights movement, as well as Reaganism's entanglement with the politics of crime and the rise of mass incarceration. Rossinow narrates the conflicts that rocked U.S. foreign policy toward Central America, and he explains the role of the recession during the early 1980s in the decline of manufacturing and the growth of a service economy. From the widening gender gap to the triumph of yuppies and rap music, from Reagan's tax cuts and military buildup to the celebrity of Michael Jackson and Madonna, from the era's Wall Street scandals to the successes of Bill Gates and Sam Walton, from the first "war on terror" to the end of the Cold War and the brink of America's first war with Iraq, this history, lively and readable yet sober and unsparing, gives readers vital perspective on a decade that dramatically altered the American landscape.

Ronald Reagan Harper Collins

No president in this century has achieved such popularity as President Reagan did in his eight years in office. For the first time he tells the story of his public life and private life, in a book which is frank, revealing, and compellingly readable. Photographs.

The Eighties Macmillan + ORM

"They called it the Reagan revolution," Ronald Reagan noted in his Farewell Address. "Well, I'll accept that, but for me it always seemed more like the great rediscovery, a rediscovery of our values and our common sense." Nearly two decades after that 1989 speech, debate continues to rage over just how revolutionary those Reagan years were. The Reagan Revolution: A Very Short Introduction identifies and tackles some of the controversies and historical mysteries that continue to swirl around Reagan and his legacy, while providing an illuminating look at some of the era's defining personalities, ideas, and accomplishments. Gil Troy, a well-known historian who is a frequent commentator on contemporary politics, sheds much light on the phenomenon known as the Reagan Revolution, situating the reception of Reagan's actions within the contemporary liberal and conservative political scene. While most conservatives refuse to countenance any criticism of their hero, an articulate minority laments that he did not go far enough. And while some liberals continue to mourn just how far he went in changing America, others continue to mock him as a disengaged, do-nothing dunce. Nevertheless, as Troy shows, two and a half decades after Reagan's 1981 inauguration, his legacy continues to shape American politics, diplomacy, culture, and economics. Both Bill Clinton and George W. Bush modeled much of their presidential leadership styles on Reagan's example, while many of the debates of the '80s about the budget, tax cutting, defense-spending, and American values still rage. Love him or hate him, Ronald Reagan remains the most influential president since Franklin D. Roosevelt, and one of the most controversial. This marvelous book places the Reagan Revolution in the broader context of postwar politics, highlighting the legacies of these years on subsequent presidents and on American life today. About the Series: Combining authority with wit, accessibility, and style, Very Short Introductions offer an introduction to some of life's most interesting topics. Written by experts for the newcomer, they demonstrate the finest contemporary thinking about the central problems and issues in hundreds of key topics, from philosophy to Freud, quantum theory to Islam.

Sleepwalking Through History Simon and Schuster

In this ambitious work David T. Byrne analyzes the ideas that informed Ronald Reagan's political philosophy and policies. Rather than appraising Reagan's personal and emotional life, Byrne's intellectual biography goes one step further; it establishes a rationale for the former president's motives, discussing how thinkers such as Plato and Adam Smith influenced him. Byrne points to three historical forces that shaped Reagan's political philosophy: Christian values, particularly the concept of a universal kingdom of God; America's firm belief in freedom as the greatest political value and its aversion to strong centralized government; and the appeasement era of World War II, which stimulated Reagan's aggressive and confrontational foreign policy. Byrne's account of the fortieth president augments previous work on Reagan with a new model for understanding him. Byrne shows how Reagan took conservatism and the Republican Party in a new direction, departing from the traditional conservatism of Edmund Burke and Russell Kirk. His desire to spread a "Kingdom of Freedom" both at home and abroad changed America's political landscape forever and inspired a new conservatism that persists to this day.

The Reagan Moment Penguin

A NEW YORK TIMES NOTABLE BOOK OF 2020 From the bestselling author of Nixonland and The Invisible Bridge comes the dramatic conclusion of how conservatism took control of American political power. Over two decades, Rick Perlstein has published three definitive works about the emerging dominance of conservatism in modern American politics. With the saga's final installment, he has delivered yet another stunning literary and historical achievement. In late 1976, Ronald Reagan was dismissed as a man without a political future: defeated in his nomination bid against a sitting president of his own party, blamed for President Gerald Ford's defeat, too old to make another run. His comeback was fueled by an extraordinary confluence: fundamentalist preachers and former segregationists reinventing themselves as militant crusaders against gay rights and feminism; business executives uniting against regulation in an era of economic decline; a cadre of secretive "New Right" organizers deploying state-of-the-art technology, bending political norms to the breaking point—and Reagan's own unbending optimism, his ability to convey unshakable confidence in America as the world's "shining city on a hill." Meanwhile, a civil war broke out in the Democratic party. When President Jimmy Carter called Americans to a new ethic of austerity, Senator Ted Kennedy reacted with horror, challenging him for reelection. Carter's Oval Office tenure was further imperiled by the Iranian hostage crisis, the Soviet invasion of Afghanistan, near-catastrophe at a Pennsylvania nuclear plant, aviation accidents, serial killers on the loose, and endless gas lines. Backed by a reenergized conservative Republican base, Reagan ran on the campaign slogan "Make America Great Again"—and prevailed. Reaganland is the story of how that happened, tracing conservatives' cutthroat strategies to gain power and explaining why they endure four decades later.

The Essential Ronald Reagan Columbia University Press

New York Times #1 bestselling author Larry Schweikart, armed with previously unseen sources from Ronald Reagan's Presidential Library, uncovers the most important president of the 20th century and details the life and policies of a man who still remains dear to the hearts of Americans. From his time as a lifeguard in Illinois to a sports announcer to a rising actor to a labor union leader, then finally governor of California in the tumultuous 1960s and ultimately President, Reagan's life is told as it has never been before.

President Reagan Princeton University Press

No one has ever captured Ronald Reagan like Peggy Noonan. In When Character Was King, Noonan brings her own reflections on Reagan to bear as well as new stories—from Presidents George W. Bush and his father, George H. W. Bush, his Secret Service men and White House colleagues, his wife, his daughter Patti Davis, and his close friends—to reveal the true nature of a man even his opponents now view as a maker of big history.

Marked by incisive wit and elegant prose, *When Character Was King* will both enlighten and move readers. It may well be the last word on Ronald Reagan, not only as a leader but as a man.
