In a period marked by the Spatial Turn, time is not the main category of analysis any longer. Space is. It is now considered as a central metaphor and topos in literature, and literary criticism has seized space as a new tool. Similarly, literature turns out to be an ideal field for geography. This book examines the cross-fertilization of geography and literature as disciplines, languages and methodologies. In the past two decades, several methods of analysis focusing on the relationship and interconnectedness between literature and geography have flourished. Literary cartography, literary geography and geocriticism (Westphal, 2007, and Tally, 2011) have their specificities, but they all agree upon the omnipresence of space, place and mapping at the core of analysis. Other approaches like ecocriticism (Buell, 2001, and Garrard, 2004), geopoetics (White, 1994), geography of literature (Moretti, 2000), studies of the inserted map (Ljunberg, 2012, and Pristnall and Cooper, 2011) and narrative cartography have likewise drawn attention to space. Literature and Geography: The Writing of Space Throughout History, following an international conference in Lyon bringing together literary academics, geographers, cartographers and architects in order to discuss literature and geography as two practices of space, shows that literature, along with geography, is perfectly valid to account for space. Suggestions are offered here from all disciplines on how to take into account representations and discourses since texts, including literary ones, have become increasingly present in the analysis of geographers.

In 1992 Italy was convulsed by two brazen Mafia assassinations of high-ranking officials. The latest "excellent cadavers" were Giovanni Falcone and Paolo Borsellino, the Sicilian magistrates who had been the Cosa Nostra's most implacable enemies. Yet in the aftermath of the murders, hundreds of "men of honor" were arrested and the government that ad protected them for nearly half a century was at last driven from office. This is the story that Stille tells with such insight and immediacy in *Excellent Cadavers*. Combining a profound understanding of his doomed heroes with an unprecedented look into the Mafia's stringent codes and murderous rivalries, he gives us a book that has the power of a great work of history and the suspense of a true thriller. "Riveting...a well-paced and highly informative account stocked with well-drawn characters."--Philadelphia Inquirer "Masterful...[Stille] delivers a stiletto-sharp portrait of the bloodthirsty Sicilian mafia."--Business Week

In this inspiring meditation, Patrick S|skind considers the two great forces of human existence. He draws on

scenes as varied as a young couple having oral sex while stuck in traffic, and an elderly Thomas Mann tumbling back into forbidden love. S|skind then dazzles as he writes about Orpheus and Jesus, comparing their very different stories of death conquered through love.

How do we know a cat is a cat . . . and why do we call it a cat? An "intriguing and often fascinating" look at words, perceptions, and the relationship between them (Newark Star-Ledger). In *Kant and the Platypus*, the renowned semiotician, philosopher, and bestselling author of *The Name of the Rose* and *Foucault's Pendulum* explores the question of how much of our perception of things is based on cognitive ability, and how much on linguistic resources. In six remarkable essays, Umberto Eco explores in depth questions of reality, perception, and experience. Basing his ideas on common sense, Eco shares a vast wealth of literary and historical knowledge, touching on issues that affect us every day. At once philosophical and amusing, *Kant and the Platypus* is a tour of the world of our senses, told by a master of knowing what is real and what is not. "An erudite, detailed inquiry into the philosophy of mind . . . Here, Eco is continental philosopher, semiotician, and cognitive scientist rolled all into one." -Library Journal (starred review)

A richly evocative tale of a woman's struggle for life and love A triumphant follow-up to Simonetta Agnello Hornby's internationally acclaimed *The Almond Picker*, this entertaining new novel is an intricate family saga interwoven with violent passions, cruelty, deceit, and the abuse of power. The Marchesa is an eyeopening historical drama about a remarkable woman and her extraordinary family, and the complex, often abusive relations that mark the lives of master and servant, brother and sister, husband and wife. Costanza Safamita, beloved daughter of Baron Domenico Safamita, is a precious but unusual child. Redhaired, gawky, and shy, she is considered an outsider by many on the family estate, but her adoring father makes her sole heir to the Safamita fortune, and then everything changes—for them and for her. Now she must conquer glittering, alien Palermo—where, uncertain of her future, she falls in love with

a charming, dissolute young marchese whose sexual appetite she fears she cannot satiate. The Marchesa's brave, unusual story offers an unprecedented woman's perspective on the incestuous hypocrisy of the Sicilian aristocracy during a dramatic time in its history, as the Bourbon monarchy collapsed, the Mafia rose to power, and Palermo's decadent aristocracy began its inevitable decline. These themes are flawlessly woven into the fabric of Costanza's triumphant life, so that The Marchesa becomes not only an unforgettable human tale but a masterly fresco of a vanished world.

SOLOMON'S TOUCH Houghton Mifflin Harcourt

In this novel and unorthodox historical analysis of modern comparative law, Daniel Bonilla Maldonado explores the connections between modern comparative law and the identity of the modern legal subject. Narratives created by modern comparative law shed light on the role played by law in the construction of modern individual and collective identities. This study first examines the relationship between identity, law, and narrative. Second, it explores the moments of emergence and transformation of this area of law: instrumental comparative studies, comparative legislative studies, and comparative law as an autonomous discipline. Finally, it analyzes the theoretical perspectives that question the narrative created by modern comparative law: Third World Approaches to International Law, postcolonial studies of law, and critical comparative law. For lawyers and legal scholars, this study brings a nuanced understanding of the connections between the theory of modern comparative law and contemporary practical legal and political issues.
