Born blind and declared incurably blind after a series of childhood operations left him with only a slight ability to discern light and shadow, Meir Schneider remained convinced that his handicap was not permanent. As a teenager, he began work with two teachers who gave him exercises and techniques to reverse his blindness. Within four years he had gained a remarkable degree of vision and begun to develop a system of therapeutic exercise combining movement, breathing, and mental imagery. He also began working with people whose physical problems ranged from chronic headaches to polio and muscular dystrophy, inspiring them with his example, enthusiasm, and faith – miraculous recoveries ensued. Sections in the book give specific guidelines for healing back problems, arthritis, multiple sclerosis, breathing difficulties, eye problems, and muscular dystrophy. The Crisis: Best-selling author and visionary scientist Gregg Braden suggests that the hottest topics that divide us as families, cultures, and nations—seemingly disparate issues such as war, terrorism, abortion, genocide, poverty, economic collapse, climate change, and nuclear threats—are actually related. They all stem from a worldview based upon the false assumptions of an incomplete science. The History: The obsolete beliefs of our modern worldview have brought us to the brink of disaster and the loss of all that we cherish as a civilization. Our reluctance to accept new discoveries about our relationship to the earth, one another, and our ancient past keeps us locked into the thinking that has led to the crises threatening our lives today. The Facts: The scientific method allows for, and expects, new information to be revealed and assimilated into our existing beliefs. It's the updating of scientific knowledge with the new facts from new discoveries that is the key to keeping science honest, current, and meaningful. To continue teaching science that is not supported by the new discoveries—ones based upon accepted scientific methods—is not, in fact, scientific. But this is precisely what we see happening in traditional textbooks, classrooms, and mainstream media today. The Opportunity: Explore for yourself the discoveries that change 150 years of scientific beliefs, yet are still not reflected in mainstream thinking, including: • Evidence of advanced, near-ice age civilizations • The

origin of, and reasons for, war in our ancient past, and why it may become obsolete in our time • The false assumptions of human evolution and of the Darwinian theory "Let the strongest live and the weakest die" and how this plays out in corporations, societies, warfare, and civilization today Deep Truth reveals new discoveries that change the way we think about everything from our personal relationships to civilization itself. When the facts become clear, our choices become obvious.

In this book, Stuart Wilde explains that the Force is a part of each and every thing in the physical plane. This includes our planet, the stars and galaxies, and the physical universe . . . as it stretches out into space, beyond our perception. By its very nature the Force is immortal and never-ending. Because it is the inner light or "livingness" within all things, we call it universal.

From its earliest days, America served as an arena for the revolutions in alternative spirituality that eventually swept the globe. Esoteric philosophies and personas—from Freemasonry to Spiritualism, from Madame H. P. Blavatsky to Edgar Cayce—dramatically altered the nation's culture, politics, and religion. Yet the mystical roots of our identity are often ignored or overlooked. Opening a new window on the past, *Occult America* presents a dramatic, pioneering study of the esoteric undercurrents of our history and their profound impact across modern life.

How did a decade that dawned with the Age of Aquarius end in Altamont and the Manson Family bloodbath? The 1960s were a time of revolution - political, social, psychedelic, sexual. But there was another revolution that many historians forget the rise of a powerful current that permeated pop culture and has been a central influence on it ever since. It was a magical revolution - a revival of the occult. Previously rejected and ridiculed beliefs took centre stage, reaching the Beatles and the Rolling Stones, saturating the the hippies and flower power, hitting the big screen with *Rosemary's Baby* and the bookshelves with *Lord of the Rings*. The Tarot. I Ching, astrology, Kabbala, yogis, witchcraft, UFOs, Aleister Crowley. Yin Yang and the Tibetan Book of the Dead now became the common currency they are today. But the vibes went bad, the auras darkened. Did that darker undercurrent win out? Gary Lachman here charts this explosion, its rise and fall, and its enduring legacy -- This text refers to an out of print or unavailable edition of this title.

The masterwork of a brilliant career, and an important document of the crisis now facing mankind. Today we find ourselves in the midst of the greatest crisis in the history of the human race. Technology has placed in our hands almost unlimited power at the very moment when we have run up against the limits of our resources aboard Spaceship Earth, as the crises of the late twentieth century—political, economic, environmental, and ethical—determine whether

or not humanity survives. In this masterful summing up of an entire lifetime's thought and concern, R. Buckminster Fuller addresses these crucial issues in his most significant, accessible, and urgent work. Critical Path traces the origins and evolution of humanity's social, political, and economic systems from the obscure mists of prehistory, through the development of the great political empires, to the vast international corporate and political systems that control our destiny today to show how we got to our present situation and what options are available to man. With his customary brilliance, extraordinary energy, and unlimited devotion, Bucky Fuller shows how mankind can survive, and how each individual can respond to the unprecedented threat we face today. The crowning achievement of an extraordinary career, Critical Path offers the reader the excitement of understanding the essential dilemmas of our time and how responsible citizens can rise to meet this ultimate challenge to our future.

#### Weird Scenes Inside The Canyon Courier Corporation

The very strange but nevertheless true story of the dark underbelly of a 1960s hippie utopia. Laurel Canyon in the 1960s and early 1970s was a magical place where a dizzying array of musical artists congregated to create much of the music that provided the soundtrack to those turbulent times. Members of bands like the Byrds, the Doors, Buffalo Springfield, the Monkees, the Beach Boys, the Turtles, the Eagles, the Flying Burrito Brothers, Frank Zappa and the Mothers of Invention, Steppenwolf, CSN, Three Dog Night and Love, along with such singer/songwriters as Joni Mitchell, Judy Collins, James Taylor and Carole King, lived together and jammed together in the bucolic community nestled in the Hollywood Hills. But there was a dark side to that scene as well. Many didn't make it out alive, and many of those deaths remain shrouded in mystery to this day. Far more integrated into the scene than most would like to admit was a guy by the name of Charles Manson, along with his murderous entourage. Also floating about the periphery were various political operatives, up-and-coming politicians and intelligence personnel — the same sort of people who gave birth to many of the rock stars populating the canyon. And all the canyon's colorful characters — rock stars, hippies, murderers and politicians — happily coexisted alongside a covert military installation.

What Thomas Paine did for the American Revolution with the publication of Common Sense, Marilyn Ferguson does for the transpersonal revolution. Marilyn Ferguson is one of the preeminent thinkers, gatherers, and interpreters of research on the cutting-edge fields of human consciousness. The Aquarian Conspiracy, published in 1980, has sold millions of copies, is continuously in print, and was hailed as the "handbook of the New Age," by USA Today. In her newer book, Aquarius Now, movement pioneer Ferguson reexamines the paradigm shift to a more mindful society. She sees us caught in a mindless materialism that threatens our material existence. We are seduced by what she calls the 'Cult of Numbers', obsessed with competition, with winning and losing, afraid of anything that can't be seen or measured, and in the grip of an economic model that says only that which generates economic growth is worth pursuing. What can we do? Ferguson boldly tells the truth--we have no enemy except ourselves and the mess we've made individually and collectively by refusing to see what we're doing to our own bodies, to society, and the Earth itself. We've refused to consider the clues in front of our faces. The imbalance we see outside ourselves only mirrors the imbalance within. The way to heal the imbalance is to heal ourselves. The way to heal ourselves is to pay attention, to witness. We need to take responsibility for our own actions. We need to heed the words of the myriad teachers and skills at our disposal. We need to learn to rely on our own "radical common sense." The task is not to climb a mountain, but to navigate a river. We have to stop thinking of ourselves as conquerors and start thinking of ourselves as fellow travelers' with other human beings and every living being on this planet, including the planet itself. Ferguson dares to ask the question, "Can we change?" and concludes that we can and we must change.

The Age of Aquarius will occur when we want it to occur.

Newly reissued in trade paperback, from the author of the bestselling

Man's Search for Meaning--the classic book in which he first laid out his revolutionary theory of logotherapy. Dr. Viktor E. Frankl is celebrated as the founder of logotherapy, a revolutionary mode of psychotherapy based on the essential human need to search for meaning in life. Even while suffering the degradation and misery of Nazi concentration camps--an experience he described in his bestselling memoir, Man's Search for Meaning--Frankl retained his belief that the most important freedom is the ability to determine one's spiritual well-being. After his liberation, he published The Doctor and the Soul, the first book in which he explained his method and his conviction that the fundamental human motivation is neither sex (as in Freud) nor the need to be appreciated by society (as in Adler), but the desire to live a purposeful life. Frankl's work represented a major contribution to the field of psychotherapy, and The Doctor and the Soul is essential to understanding it.

This visionary text professes to tell the complete story of Jesus' life, including the "lost" years, during which he traveled and studied in Tibet, Egypt, India, Persia, and Greece. First published in 1908, this mystical work is the cornerstone of a Christian denomination, the Aquarian Christian Church Universal, and it offers intriguing, controversial assertions about Christ's message. Jesus was conceived by a human father, author Levi Dowling states, and by effort and prayer rendered himself a fit vessel for "the Christ" — the model for human existence and ultimate salvation. Dowling, who devoted forty years of preparation to the task of transcribing this volume's contents from original Akashic records, further asserts the reality of reincarnation and its culmination in the perfection of the human soul. Tracing Jesus' life from his birth in Bethlehem to his ascension from the Mount of Olives, Dowling offers complete details concerning the savior's years among monks, wise men, and seers throughout the Orient. Readers with an interest in occult lore and the history of religion will find this remarkable volume a source of endless fascination.

In this highly controversial and explosive book, archaeologist, historian, mythologist and linguist Acharya S. marshals an enormous amount of startling evidence to demonstrate that Christianity and the story of Jesus Christ were created by members of various secret societies, mystery schools and religions in order to unify the Roman Empire under one state religion. In developing such a fabrication, this multinational cabal drew upon a multitude of myths and rituals that existed long before the Christian era, and reworked them for centuries into the religion passed down to us today. Contrary to popular belief, there was no single man who was at the genesis of Christianity; Jesus was many characters rolled into one. These characters personified the ubiquitous solar myth, and their exploits were well known, as reflected by such popular deities as Mithras, Heracles/Hercules, Dionysos and many others throughout the Roman Empire and beyond. The story of Jesus as portrayed in the Gospels is revealed to be nearly identical in detail to that of the earlier savior-gods Krishna and Horus, who for millennia preceding Christianity held great favor with the people. *The Christ Conspiracy* shows the Jesus character as not unique or original, not " divine revelation. " Christianity reinterprets
