[A Short History of Drugs and War](#) Open Road Media Acclaimed New York Times journalist and author Chris Hedges offers a critical -- and fascinating -- lesson in the dangerous realities of our age: a stark look at the effects of war on combatants. Utterly lacking in rhetoric or dogma, this manual relies instead on bare fact, frank description, and a spare question-and-answer format. Hedges allows U.S. military documentation of the brutalizing physical and psychological consequences of combat to speak for itself.

Hedges poses dozens of questions that young soldiers might ask about combat, and then answers them by quoting from medical and psychological studies. • What are my chances of being wounded or killed if we go to war? • What does it feel like to get shot? • What do artillery shells do to you? • What is the most painful way to get wounded? • Will I be afraid? • What could happen to me in a nuclear attack? • What does it feel like to kill someone? • Can I withstand torture? • What are the long-term consequences of combat stress? • What will happen to my body after I die? This profound and devastating portrayal of the horrors to which we subject our armed forces stands as a ringing indictment of the glorification

of war and the concealment of its barbarity.

“ Margaret MacMillan has produced another seminal work. . . . She is right that we must, more than ever, think about war. And she has shown us how in this brilliant, elegantly written book. ” —H.R. McMaster, author of *Dereliction of Duty* and *Battlegrounds: The Fight to Defend the Free World*

The instinct to fight may be innate in human nature, but war—organized violence—comes with organized society. War has shaped humanity ’ s history, its social and political institutions, its values and ideas. Our very language, our public spaces, our private memories, and some of our greatest cultural treasures reflect the glory and the misery of war. War is an uncomfortable and challenging subject not least because it brings out both the vilest and the noblest aspects of humanity. Margaret MacMillan looks at the ways in which war has influenced human society and how, in turn, changes in political organization, technology, or ideologies have affected how and why we fight. *War: How Conflict Shaped Us* explores such much-debated and controversial questions as: When did war first start?

Does human nature doom us to fight one another? Why has war been described as the most organized of all human activities? Why are warriors almost always men? Is war ever within our control? Drawing on lessons from wars throughout the past, from classical history to the present day, MacMillan reveals the many faces of war—the way it has determined our past, our future, our views of the world, and our very conception of ourselves.

Shooting Up Oxford University Press

A revelatory, explosive new analysis of the British military today.

Over the first two decades of the twenty-first century, Britain has changed enormously. During this time, the British Army fought two campaigns, in Iraq and Afghanistan, at considerable financial and human cost. Yet neither war achieved its objectives. This book questions why, and provides challenging but necessary answers.

Composed of assiduous documentary research, field reportage, and hundreds of interviews with many soldiers and officers who served, as well as the politicians who directed them, the allies who accompanied them, and the family members who loved and -- on occasion -- lost them, it is a strikingly rich, nuanced portrait of one of our pivotal national institutions in a time of great stress.

Award-winning journalist Simon Akam, who spent a year in the army when he was 18, returned a decade later to see how the institution had changed. His book examines the relevance of the armed forces today -- their social, economic, political, and cultural role. This is as much a book about Britain, and about the politics of failure, as it is about the military.

Who was the enigmatic Jean Moulin, a man as skilled in deception as he was in acts of heroism? The memory of this French Resistance hero, who was betrayed to the Gestapo and tortured by Klaus Barbie, the

infamous 'Butcher of Lyon', is revered alongside that of other national icons. But Moulin's story is full of unanswered questions and the truth of his life is far more complicated than the legend. Patrick Marnham, winner of the Marsh Prize for biography, thrillingly tells the epic story of France's greatest war hero, bringing to light the shadowy and often deceitful world of the French Resistance, and offers a shocking conclusion to one of the great unsolved mysteries of World War II.

The final work of fiction from Norman Mailer, a defining voice of the postwar era, is also one of his most ambitious, taking as its subject the evil of Adolf Hitler. The narrator, a mysterious SS man in possession of extraordinary secrets, follows Adolf from birth through adolescence and offers revealing portraits of Hitler's parents and siblings. A crucial reflection on the shadows that eclipsed the twentieth century, Mailer's novel delivers myriad twists and

surprises along with characteristically astonishing insights into the struggle between good and evil that exists in us all. Praise for *The Castle in the Forest* "This remarkable novel about the young Adolf Hitler, his family and their shifting circumstances, is Mailer's most perfect apprehension of the absolutely alien. . . . Mailer doesn't inhabit these historical figures so much as possess them." —The New York Times Book Review "Terrifically creepy . . . an icy and convincing portrait of the dictator as a young sociopath." —Entertainment Weekly "The work of a bold and confident writer who may yet be seen as the preeminent novelist of our time . . . a source of tremendous narrative pleasure . . . Every character . . . lives and breathes." —South Florida Sun-Sentinel "Blackly hilarious, beautifully written . . . [The Castle in the Forest] has vigor, excitement, humor and vastness of spirit." —The New York Observer Praise for Norman Mailer " [Norman Mailer] loomed over American letters longer and larger than any other writer of his

Published at the height of the McCarthy era, Norman Mailer's audacious novel of socialism is at once an elegy and an indictment, a sinuous moral thriller and an intellectual slugfest. Wounded during World War II, Mike Lovett is an amnesiac, and much of his past is a secret to himself. But when Lovett rents a room in Brooklyn, he finds that his housemates have secrets of their own: One betrays a husband no one ever sees; another may have been a Communist executioner. Combining Kafkaesque unease with Orwellian paranoia, *Barbary Shore* plays havoc with our certainties and delivers its effects with a force that is pure Mailer. The Ghost Army of World War II describes a perfect example of a little-known, highly imaginative, and daring maneuver that helped open the way for the final drive to Germany. It is a riveting tale told through personal accounts and sketches along the way—ultimately, a story

of success against great odds. I enjoyed it enormously. – Tom Brokaw In the summer of 1944, a handpicked group of young GIs—including such future luminaries as Bill Blass, Ellsworth Kelly, Arthur Singer, Victor Dowd, Art Kane, and Jack Masey—landed in France to conduct a secret mission. Armed with truckloads of inflatable tanks, a massive collection of sound-effects records, and more than a few tricks up their sleeves, their job was to create a traveling road show of deception on the battlefields of Europe, with the German Army as their audience. From Normandy to the Rhine, the 1,100 men of the 23rd Headquarters Special Troops, known as the Ghost Army, conjured up phony convoys, phantom divisions, and make-believe headquarters to fool the enemy about the strength and location of American units. Between missions the artists filled their duffel bags with drawings and paintings

and dragged them across Europe. Every move they made was top secret and their story was hushed up for decades after the war's end. The Ghost Army of World War II is the first publication to tell the full story of how a traveling road show of artists wielding imagination, paint, and bravado saved thousands of American lives.

A Novel Random House An exploration of the many forms of the ancient myth of the Wild Hunt and its influence in pagan and early Christian Europe

- Recounts the myriad variations of this legend, from the Cursed Huntsman and King Herla to phantom armies and vast processions of sinners and demons
- Explains how this belief was an integral part of the pagan worldview and was thus employed by the church to spread Christian doctrine
- Reveals how the secret societies of medieval Europe reenacted these ghostly processions for soul travel and

prophecies of impending death Once upon a time a phenomenon existed in medieval Europe that continuously fueled local lore: during the long winter nights a strange and unknown troop could be heard passing outside over the land or through the air. Anyone caught by surprise in the open fields or depths of the woods would see a bizarre procession of demons, giants, hounds, ladies of the night, soldiers, and knights, some covered in blood and others carrying their heads beneath their arms. This was the Wild or Infernal Hunt, the host of the damned, the phantom army of the night--a theme that still inspires poets, writers, and painters to this day. Millennia older than Christianity, this pagan belief was employed by the church to spread their doctrine, with the shapeshifters' and giants of the pagan nightly processions becoming sinners led by demons seeking out unwary souls to add to their retinues. Myth or

legend, it represents a belief that has deep roots in Europe, particularly Celtic and Scandinavian countries. The first scholar to fully examine this myth in each of its myriad forms, Claude Lecouteux strips away the Christian gloss and shows how the Wild Hunt was an integral part of the pagan worldview and the structure of their societies. Additionally, he looks at how secret societies of medieval Europe reenacted these ghostly processions through cult rituals culminating in masquerades and carnival-like cavalcades often associated with astral doubles, visions of the afterlife, belief in multiple souls, and prophecies of impending death. He reveals how the nearly infinite variations of this myth are a still living, evolving tradition that offers us a window into the world in which our ancestors lived.

History as a Novel: the Novel as History Library of America

New York Times

Bestseller: A “powerful and epic story . . . the best

account of infantry combat I have ever read” (Col. David Hackworth, author of *About Face*). In November

1965, some 450 men of the First Battalion, Seventh Cavalry, under the command of Lt. Col. Harold Moore, were dropped into a small clearing in the Ia Drang Valley. They were immediately surrounded by 2,000 North Vietnamese soldiers. Three days later, only two and a half miles away, a sister battalion was brutally slaughtered.

Together, these actions at the landing zones X-Ray and Albany constituted one of the most savage and significant battles of the Vietnam War. They were the first major engagements between the US Army and the People’s Army of Vietnam. How these Americans persevered—sacrificing themselves for their comrades and never giving up—creates a vivid portrait of war at its most

devastating and inspiring. Lt. Gen. Moore and Joseph L. Galloway—the only journalist on the ground throughout the fighting—interviewed hundreds of men who fought in the battle, including the North Vietnamese commanders. Their poignant account rises above the ordeal it chronicles to depict men facing the ultimate challenge, dealing with it in ways they would have once found unimaginable. It reveals to us, as rarely before, man’s most heroic and horrendous endeavor.

Norman Mailer: Four Books of the 1960s (LOA #305) Bloomsbury Publishing

Considered by many the greatest war novel of all time, *All Quiet on the Western Front* is Erich Maria Remarque’s masterpiece of the German experience during World War I. I am young, I am twenty years old; yet I know nothing of life but despair, death, fear, and fatuous superficiality cast over an abyss of sorrow. . . .

This is the testament of Paul Bäumer, who enlists with his classmates in the German army during World War I. They become soldiers with youthful enthusiasm. But the world of duty, culture, and progress they had been taught

breaks in pieces under the first bombardment in the trenches. Through years of vivid horror, Paul holds fast to a single vow: to fight against the principle of hate that meaninglessly pits young men of the same generation but different uniforms against one another . . . if only he can come out of the war alive. "The world has a great writer in Erich Maria Remarque. He is a craftsman of unquestionably first rank, a man who can bend language to his will. Whether he writes of men or of inanimate nature, his touch is sensitive, firm, and sure." —The New York Times Book Review

History As a Novel Calder Publications Limited

Four Mailer classics in one volume for the first time, books that crackle with the creative energy and raw passions of America's most turbulent decade No writer plunged more wholeheartedly into the chaotic energies of the 1960s than Norman Mailer, as he fearlessly revolutionized literary norms and genres to capture the political, social, and sexual explosions of an unsettled era. Here, for the first time in one volume, are his unforgettable books of the 1960s: two disruptive and visionary novels, and two radically

innovative journalistic masterpieces. War hero, television star, existential hipster, seducer, murderer: such is the protagonist of *An American Dream*, Mailer's hallucinatory voyage through the dark night of an America awash in money, sex, and violence. In *Why Are We in Vietnam?* a motor-mouthed 18-year-old Texan on the eve of military service recounts with manic and obscene exuberance a grizzly bear hunt in Alaska that exposes the macho roots of the war. The acclaimed "non-fiction novel" *The Armies of the Night* (winner of the Pulitzer Prize and National Book Award) and its follow-up *Miami and the Siege of Chicago* are on-the-scene, in-the-scene accounts of an antiwar march on the Pentagon and the party conventions of 1968, as Mailer casts himself as a player in the drama he reports, bringing a sharp and merciless eye on the decade's political upheavals.
