"An engrossing and impossibly wide-ranging project . . . In *The Free World*, every seat is a good one." —Carlos Lozada, *The Washington Post* "The Free World sparkles. Fully original, beautifully written . . . One hopes Menand has a sequel in mind. The bar is set very high." —David Oshinsky, *The New York Times Book Review* | Editors' Choice One of *The New York Times's* 100 best books of 2021 | One of *The Washington Post's* 50 best nonfiction books of 2021 | A *Mother Jones* best book of 2021 In his follow-up to the Pulitzer Prize – winning *The Metaphysical Club*, Louis Menand offers a new intellectual and cultural history of the postwar years The Cold War was not just a contest of power. It was also about ideas, in the broadest sense—economic and political, artistic and personal. In *The Free World*, the acclaimed Pulitzer Prize – winning scholar and critic Louis Menand tells the story of American culture in the pivotal years from the end of World War II to Vietnam and shows how changing economic, technological, and social forces put their mark on creations of the mind. How did elitism and an anti-totalitarian skepticism of passion and ideology give way to a new sensibility defined by freewheeling experimentation and loving the Beatles? How was the ideal of “freedom” applied to causes that ranged from anti-communism and civil rights to radical acts of self-creation via art and even crime? With the wit and insight familiar to readers of *The Metaphysical Club* and his *New Yorker* essays, Menand takes us inside Hannah Arendt’s Manhattan, the Paris of Jean-Paul Sartre and Simone de Beauvoir, Merce Cunningham and John Cage’s residencies at North Carolina’s Black Mountain College, and the Memphis studio where Sam Phillips and Elvis Presley created a new music for the American teenager. He examines the post war vogue for French existentialism, structuralism and post-structuralism, the rise of abstract expressionism and pop art, Allen Ginsberg’s friendship with Lionel Trilling, James Baldwin’s transformation into a Civil Right spokesman, Susan Sontag’s challenges to the New York Intellectuals, the defeat of obscenity laws, and the rise of the New Hollywood. Stressing the rich flow of ideas across the Atlantic, he also shows how Europeans played a vital role in promoting and influencing American art and entertainment. By the end of the Vietnam era, the American government had lost the moral prestige it enjoyed at the end of the Second World War, but America’s once-despised culture had become respected and adored. With unprecedented verve and range, this book explains how that happened.

The *New York Times* bestselling author and a central figure in the field of meditation, Sharon Salzberg, uses ancient Buddhist wisdom to redefine love and experience it in a more profound way. You are a

person worthy of love. You don’t have to do anything to deserve all the love in the world. Real Love is a creative tool kit of mindfulness exercises and meditation techniques that help you to truly engage with your present experience and create deeper love relationships with yourself, your partner, friends and family, and with life itself. Sharon Salzberg, a leading expert in Lovingkindness meditation, encourages us to strip away layers of negative habits and obstacles, helping us to experience authentic love based on direct experience, rather than preconceptions. Across three sections, Sharon explains how to dispel cultural and emotional habits, and direct focused care and attention to recapture the essence of what it is to love and be loved. With positive reflections and practices, Sharon teaches us how to shift the responsibilities of the love that we give and receive to rekindle the powerful healing force of true connection. By challenging myths perpetuated by popular culture, we can undo the limited definitions that reduce love to simply romance or passion, and give the heart a much needed tune-up to connect ourselves to the truest experience of love in our daily lives.

#1 *New York Times* Bestseller “THIS. This is the right book for right now. Yes, learning requires focus. But, unlearning and relearning requires much more—it requires choosing courage over comfort. In *Think Again*, Adam Grant weaves together research and storytelling to help us build the intellectual and emotional muscle we need to stay curious enough about the world to actually change it. I’ve never felt so hopeful about what I don’t know.” —Brené Brown, Ph.D., #1 *New York Times* bestselling author of *Dare to Lead* The bestselling author of *Give and Take* and *Originals* examines the critical art of rethinking: learning to question your opinions and open other people's minds, which can position you for excellence at work and wisdom in life Intelligence is usually seen as the ability to think and learn, but in a rapidly changing world, there's another set of cognitive skills that might matter more: the ability to rethink and unlearn. In our daily lives, too many of us favor the comfort of conviction over the discomfort of doubt. We listen to opinions that make us feel good, instead of ideas that make us think

hard. We see disagreement as a threat to our egos, rather than an opportunity to learn. We surround ourselves with people who agree with our conclusions, when we should be gravitating toward those who challenge our thought process. The result is that our beliefs get brittle long before our bones. We think too much like preachers defending our sacred beliefs, prosecutors proving the other side wrong, and politicians campaigning for approval--and too little like scientists searching for truth. Intelligence is no cure, and it can even be a curse: being good at thinking can make us worse at rethinking. The brighter we are, the blinder to our own limitations we can become. Organizational psychologist Adam Grant is an expert on opening other people's minds--and our own. As Wharton's top-rated professor and the bestselling author of *Originals* and *Give and Take*, he makes it one of his guiding principles to argue like he's right but listen like he's wrong. With bold ideas and rigorous evidence, he investigates how we can embrace the joy of being wrong, bring nuance to charged conversations, and build schools, workplaces, and communities of lifelong learners. You'll learn how an international debate champion wins arguments, a Black musician persuades white supremacists to abandon hate, a vaccine whisperer convinces concerned parents to immunize their children, and Adam has coaxed Yankees fans to root for the Red Sox. *Think Again* reveals that we don't have to believe everything we think or internalize everything we feel. It's an invitation to let go of views that are no longer serving us well and prize mental flexibility over foolish consistency. If knowledge is power, knowing what we don't know is wisdom.

This volume presents over 200 selected original artworks from the collection of Betsy Beinecke Shirley, one of the great collectors of American children's literature. Shirley gathered an authoritative collection of books, original illustrations, manuscripts, as well as drawings and paintings from such children's classics as "Treasure Island" and "Eloise." The artwork in Shirley's collection guides the reader on a tour through the stages of childhood reading, this volume begins with ABC's and nursery books. It continues through adventure stories, magazines, and more, then concludes with a miscellany section of odds and ends. The images demonstrate how children's books evolved, from the nation's first days of independence to modern times. Artists whose works are represented include many of the favorites, among them Ludwig Bemelmans, Maurice Sendak, A.B. Frost, Wanda Gag, Peter Newell, N.C. Wyeth, Tony Sarg, Robert Lawson, and Johnny Gruelle.

"It sounds like a simple thing, to say what you see," Mark Doty begins. "But try to find words for the shades of a mottled sassafras leaf, or the reflectivity of a bay on an August morning, or the very beginnings of desire stirring in the gaze of someone looking right into your eyes . . ." Doty finds refuge in the sensory experience found in poems by Blake, Whitman, Bishop, and others. *The Art of Description* is an invaluable book by one of America's most revered writers and teachers.

The first English-language account of Ivan Morozov and his ambition to build one of the world's greatest collections of modern art "A century of Russian culture distilled in the story of the life, family and

collection of the lavish, lazy, kindly, eccentric grandson of a serf who brought Monet and Matisse to Moscow, waited three years for the right 'Blue Gauguin'--and survived the first years of Bolshevik rule."--Jackie Wullschläger, *Financial Times* "Best Books of 2020: Visual Arts" A wealthy Moscow textile merchant, Morozov started buying art in a modest way in 1900 until, on a trip to Paris, he developed a taste for the avant-garde. Meticulous and highly discerning, he acquired works by the likes of Monet, Pissarro, and Cezanne. Unlike his friendly rival Sergei Shchukin, he collected Russian as well as European art. Altogether he spent 1.5 million francs on 486 paintings and 30 sculptures--more than any other collector of the age. Natalya Semenova traces Morozov's life, family, and achievements, and sheds light on the interconnected worlds of European and Russian art at the turn of the century. Morozov always intended to leave his art to the state--but with the Revolution in 1917 he found himself appointed "assistant curator" to his own collection. He fled Russia and his collection was later divided between Moscow and St. Petersburg, only to languish in storage for decades. *Morozov: The Story of a Family and a Lost Collection* is being published to coincide with "The Morozov Collection" exhibition at the Fondation Louis Vuitton, Paris, in October 2020.

Nations and international organizations are increasingly using sanctions as a means to achieve their foreign policy aims. However, sanctions are ineffective if they are executed without a clear strategy responsive to the nature and changing behavior of the target. In *The Art of Sanctions*, Richard Nephew offers a much-needed practical framework for planning and applying sanctions that focuses not just on the initial sanctions strategy but also, crucially, on how to calibrate along the way and how to decide when sanctions have achieved maximum effectiveness. Nephew—a leader in the design and implementation of sanctions on Iran—develops guidelines for interpreting targets' responses to sanctions based on two critical factors: pain and resolve. The efficacy of sanctions lies in the application of pain against a target, but targets may have significant resolve to resist, tolerate, or overcome this pain. Understanding the interplay of pain and resolve is central to using sanctions both successfully and humanely. With attention to these two key variables, and to how they change over the course of a sanctions regime, policy makers can pinpoint when diplomatic intervention is likely to succeed or when escalation is necessary. Focusing on lessons learned from sanctions on both Iran and Iraq, Nephew provides policymakers with practical guidance on how to measure and respond to pain and resolve in the service of strong and successful sanctions regimes.

How Poets See the World Yale University Press

Although readers of prose fiction sometimes find descriptive passages superfluous or boring, description itself is often the most important aspect of a poem. This book examines how a variety of contemporary poets use description in their work. Description has been the great burden of poetry. How do poets see the world? How do they look at it? What do they look for? Is description an end in itself, or a means of expressing desire? Ezra Pound demanded that a poem should represent the external world as objectively and directly as possible, and William Butler Yeats, in his introduction to *The Oxford Book of Modern Verse* (1936), said that he and his generation were rebelling against, inter alia, "irrelevant descriptions of nature" in the work of their predecessors. The poets in this book, however, who are distinct in many ways from one another, all observe the external world of nature or the reflected world of art, and make relevant poems out of their observations. This study deals with the crisp, elegant work of Charles Tomlinson, the swirling baroque poetry of Amy Clampitt, the metaphysical meditations of Charles Wright from a position in his backyard, the weather reports and landscapes of John Ashbery, and the "new way of looking" that Jorie Graham proposes to explore in her increasingly fragmented poems. All of these poets, plus others (Gary Snyder, Theodore Weiss, Irving Feldman, Richard Howard) who are

dealt with more briefly, attend to what Wallace Stevens, in a memorable phrase, calls "the way things look each day." The ordinariness of daily reality is the beginning of the poets' own idiosyncratic, indeed unique, visions and styles.

Factfulness Farrar, Straus and Giroux

George Orwell set out 'to make political writing into an art', and to a wide extent this aim shaped the future of English literature – his descriptions of authoritarian regimes helped to form a new vocabulary that is fundamental to understanding totalitarianism. While *1984* and *Animal Farm* are amongst the most popular classic novels in the English language, this new series of Orwell's essays seeks to bring a wider selection of his writing on politics and literature to a new readership. In *Why I Write*, the first in the *Orwell's Essays* series, Orwell describes his journey to becoming a writer, and his movement from writing poems to short stories to the essays, fiction and non-fiction we remember him for. He also discusses what he sees as the 'four great motives for writing' – 'sheer egoism', 'aesthetic enthusiasm', 'historical impulse' and 'political purpose' – and considers the importance of keeping these in balance. *Why I Write* is a unique opportunity to look into Orwell's mind, and it grants the reader an entirely different vantage point from which to consider the rest of the great writer's oeuvre. 'A writer who can – and must – be rediscovered with every age.' — *Irish Times*

“Fire to Fire should solidify Doty’s position as a star of contemporary American poetry. . . . The poems combine close attention to the fragile, contingent things of the world with the constant, almost unavoidable chance of transcendence.” — Publishers Weekly A landmark collection of new and published works by one of our finest poets that is a testament to the clarity and thoughtful lyricism of his poems Fire to Fire collects the best works from seven books of poetry by Mark Doty, acclaimed poet and New York Times bestselling author of two memoirs, *Firebird* and *Dog Years*. Doty’s subjects—our mortal situation, the evanescent beauty of the world, desire’s transformative power, and art’s ability to give shape to human lives—echo and develop across twenty years of poems. His signature style encompasses both the plainspoken and the artfully wrought; here one of contemporary American poetry’s most lauded, recognizable voices speaks to the crises and possibilities of our times.

Mark Rothko, one of the greatest painters of the twentieth century, was born in the Jewish Pale of Settlement in 1903. He immigrated to the United States at age ten, taking with him his Talmudic education and his memories of pogroms and persecutions in Russia. His integration into American society began with a series of painful experiences, especially as a student at Yale, where he felt marginalized for his origins and ultimately left the school. The decision to become an artist led him to a new phase in his life. Early in his career, Annie Cohen-Solal writes, “he became a major player in the social struggle of American artists, and his own metamorphosis benefited from the unique transformation of the U.S. art world during this time.” Within a few decades, he had forged his definitive artistic signature, and most critics hailed him as a pioneer. The numerous museum shows that followed in major U.S. and European institutions ensured his celebrity. But this was not enough for Rothko, who continued to innovate. Ever faithful to his habit of confronting the establishment, he devoted the last decade of his life to cultivating his new conception of art as an experience, thanks to the commission of a radical project, the Rothko Chapel in Houston, Texas. Cohen-Solal’s fascinating biography, based on considerable archival research, tells the unlikely story of how a young immigrant from Dvinsk became a crucial transforming agent of the art world—one whose legacy prevails to this day.

Paul Mellon (1907--1999) was an unparalleled collector of British art. His collection, now at Yale in the museum and study center he founded to house it, rivals those in Britain’s national museums and is unquestionably the most comprehensive representation of British art held outside of the United Kingdom. This book and the exhibition that it accompanies celebrate the centenary of his birth. Five introductory essays examine Mellon’s extraordinary collecting activity, as well as his role in creating both the Yale Center for British Art and the Paul Mellon Centre for Studies in British Art in London as gifts to his alma mater (Yale 1929). A lavishly illustrated catalogue section showcases 148 of the most exquisite and important paintings, watercolors, drawings, prints, sculpture, rare books, and manuscript material in the Yale Center’s collection, including major works by Thomas Gainsborough, Joshua Reynolds, George Stubbs, John Constable, and J. M. W. Turner.
