There are few creative acts more mysterious and magical than writing a song. But what if the goal wasn't so mysterious and was actually achievable for anyone who wants to experience more magic and creativity in their life? That's something that anyone will be inspired to do after reading Jeff Tweedy's <i>How to Write One Song</i> . Why one song? Because the difference between one song and many songs isn't a cute semantic trick—it's an important distinction that can simplify a notoriously confusing art form. The idea	of becoming a capital-S songwriter can seem daunting, but approached as a focused, self-contained event, the mystery and fear subsides, and songwriting becomes an exciting pursuit. And then there is the energizing, nourishing creativity that can open up. <i>How to Write One Song</i> brings readers into the intimate process of writing one song—lyrics, music, and putting it all together—and accesses the deep sense of wonder that remains at the heart of this curious, yet incredibly fulfilling, artistic act.	But it ' s equally about the importance of making creativity part of your life every day, and of experiencing the hope, inspiration, and joy available to anyone who ' s willing to get started. <i>Record of the Harris Family Descended from John Harris, Born in 1680 in Wiltshire, England (Classic Reprint)</i> HarperCollins The bloodiest battle in the history of the British Army. In 1916 the Great War seemed caught in a stalemate.
---	---	---

The British were determined to break it with a huge summer push. By the time the campaign wound down in November, it proved to be the most destructive ever encounter for the Army, seeing thousands of casualties for every day of the conflict. It wasn't meant to have been like this: the British had a massive artillery superiority, and were primed to crush their enemy. In the end,

despite fierce fighting, the Germans lost far fewer men. The Somme has come to be an emblem for the horrors of war, for the pounding of shells and the hunkering down in rain-sodden trenches. What happened? How did it go so wrong for the British? Here in sharp detail, the bestselling writer John Harris tells the story of one the key battles of world history, describing in gripping terms how a series of

events soon spiralled wildly, and hopelessly, out of control. This is an unforgettable history of assault and bitter defence that takes the reader into the ferocious heart of a conflict whose scars remain today.

The authoritative account of the race to produce the vaccines that are saving us all, from the #1

New York Times bestselling author of *The Man Who Solved the Market* Few were ready when a mysterious respiratory illness emerged in Wuhan, China in January 2020. Politicians, government officials, business leaders, and public-health professionals were unprepared for the most devastating pandemic in a century. Many of the world's biggest drug and vaccine makers were slow to react or couldn't muster an effective response. It was up to a small group of unlikely and untested scientists and executives to save civilization. A French businessman dismissed by many as a fabulist. A Turkish immigrant with little virus experience. A quirky Midwesterner obsessed with insect cells. A Boston scientist employing questionable techniques. A British scientist despised by his peers. Far from the limelight, each had spent years developing innovative vaccine approaches. Their work was met with skepticism and scorn. By 2020, these individuals had little proof of progress. Yet they and their colleagues wanted to be the ones to stop the virus holding the world hostage. They scrambled to turn their life's work into life-saving vaccines in a matter of months, each gunning to make the big breakthrough—and to beat each other for the glory that a vaccine guaranteed. A #1 New York Times bestselling author and award-winning Wall Street Journal investigative journalist lauded for his “bravura storytelling” (Gary Shteyngart) and “first-rate” reporting (*The New York Times*), Zuckerman takes us inside the top-secret laboratories, corporate clashes, and high-stakes government negotiations that led to effective shots. Deeply reported and endlessly gripping, this is a dazzling, blow-by-blow chronicle of the most consequential scientific breakthrough of our time. It's a story of courage, genius, and heroism. It's also a tale of heated rivalries, unbridled ambitions, crippling insecurities, and unexpected drama. A Shot to Save the World is the story of how science saved the world.

A Publishers Weekly Best Book of 2018 "An important contribution to our understanding of how ordinary people found the strength to fight for equality for schoolchildren and their

teachers.” —Wall Street Journal In the epic tradition of Eyes on the Prize and with the cultural significance of John Lewis’s March trilogy, an ambitious and harrowing account of the devoted black educators who battled southern school segregation and inequality For two years an aging Dr. Horace Tate—a former teacher, principal, and state senator—told Emory University professor Vanessa Siddle Walker about his clandestine travels on unpaved roads under the cover of night, meeting with other educators and with Dr. King, Georgia politicians, and even U.S. presidents. Sometimes he and Walker spoke by phone, sometimes in his office,

sometimes in his home; always Tate shared fascinating stories of the times leading up to and following Brown v. Board of Education. Dramatically, on his deathbed, he asked Walker to return to his office in Atlanta, in a building that was once the headquarters of another kind of southern strategy, one driven by integrity and equality. Just days after Dr. Tate’s passing in 2002, Walker honored his wish. Up a dusty, rickety staircase, locked in a concealed attic, she found the collection: a massive archive documenting the underground actors and covert strategies behind the most significant era of the fight for educational justice. Thus began Walker’s sixteen-year

project to uncover the network of educators behind countless battles—in courtrooms, schools, and communities—for the education of black children. Until now, the courageous story of how black Americans in the South won so much and subsequently fell so far has been incomplete. The Lost Education of Horace Tate is a monumental work that offers fresh insight into the southern struggle for human rights, revealing little-known accounts of leaders such as W.E.B. Du Bois and James Weldon Johnson, as well as hidden provocateurs like Horace Tate.

A swarm of enemy aircraft. A hopeless task. A brilliant commander. Kubaiyah, an RAF airstrip squeezed between a razor-like ridge and a harsh desert plain, must be defended. But with the Nazis poised to conquer the Middle East and Britain stripped of her allies, things look bleak. Only the eccentric and gifted flying officer, Anthony Boumphrey,

can save them. Armed with forty planes, all of which are training machines and biplanes, Boumphrey leads a brilliant squadron of men against the noxious might of Hitler's Luftwaffe. Surrounded by sneering Messerschmitts and the hammer of eighteen-pounder guns, Boumphrey and his 'Belles' battle for their freedom... and a place in history. An absolutely brilliant aviation thriller, capturing all the savagery and nostalgia of WWII dogfights, perfect for fans of Alistair MacLean, W. E. Johns and John Nichol.

A fully illustrated exploration of
the charming locations from the
popular TV series Midsomer
Murders turns 25 in 2022 and to
celebrate a quarter century of DCI
Barnaby unraveling the
murderous deeds of rural folk,
Pitkin are launching a guide that

pinpoints the most popular
locations used for filming the
series. The first episode, The
Killing at Badger's Drift, was an
immediate ratings success in 1997
when John Nettles returned to
television as DCI Tom Barnaby
after ten years of playing Sergeant
Jim Bergerac. Nettles went on to
star in 81 episodes of Midsomer
Murders before retiring in 2010
and handing over to his cousin
John Barnaby. The series is sold
around the world, and in Europe is
known as 'Barnaby', so it needed a
DCI Barnaby at the helm. Actor
Neil Dudgeon, who actually
appeared as an amorous gardener
in Series 4 'Garden of Death', took
the part. The location guide
highlights some of the familiar

pubs, churches, villages and countryside that can be visited. The Lions at Bledlow has been five different pubs in its Midsomer lifetime, while The Crown in Sydenham can claim at least three. Villages clustered around the Oxfordshire/Buckinghamshire border - Turville, Hambleden, Fingest, Haddenham and Long Crendon are favorite backdrops. While many of the grand country houses are private residences, a few, such as Mapledurham and Greycourt, are administered by the National Trust. Plus there are many ancient churches to admire, quite often the scene of grisly goings on in the vestry. Ask Mark Gatiss about the Sword of

A military hero? Or a traitor to his comrades and his country?

A gripping thriller full of suspense and intrigue, from master author Max Hennessy.

When, in 1939, a letter cast doubts on the military reputation of a man likely to become Commander-in-Chief of the British Expeditionary

Force if war with Germany should be declared, he had no alternative but to bring the matter to court. The case took the judge, the jury and a fascinated public back to a day in the winter of 1919 when British troops, in action against Bolshevik forces in South Russia, made the last charge of British horsed cavalry. Their commander was Lieutenant General Henry Prideaux: for this, 'the Balaclava of the Russian Civil War', he won the D.S.O. and made his name. But justifiably? 'The truth,' one of his subordinates in the action had written, 'is that before –

and after – the action at Dankoi, when it came to leading and giving orders, Colonel Prideaux was noticeably not among those present.’ A scintillating story of deceit, conflict and the final days of British cavalry might, this is Max Hennessy at his very best, perfect for fans of Alistair MacLean, John Grisham and A Few Good Men.

Two lives. The one you wanted. The one that wanted you. Her birthday should be like any other night. One minute Kelly’s a free-spirited artist in Chicago going to her best friend’s art show. The next, she opens a door and mysteriously emerges in her Michigan hometown. Suddenly her life is unrecognizable: She's got twelve years of the wrong memories in her head and

she's married to Eric, a man she barely knew in high school. Racing to get back to her old life, Kelly's search leads only to more questions. In this life, she loves Eric and wants to trust him, but everything she discovers about him—including a connection to a mysterious tech startup—tells her she shouldn't. And strange things keep happening. The tattoos she had when she was an artist briefly reappear on her skin, she remembers fights with Eric that he says never happened, and her

relationships with loved ones both new and familiar seem to change without warning. But the closer Kelly gets to putting the pieces together, the more her reality seems to shift. And if she can't figure out what happened on her birthday, the next change could cost her everything...

From the incomparable New York Times and New Yorker illustrator Tamara Shopsin, a debut novel about a NYC printer repair technician who comes of age alongside the Apple computer—featuring original artistic designs by the author. *LaserWriter II* is a coming-of-age tale set in the legendary 90s indie NYC Mac repair shop TekServe—a voyage back in time to when the internet was new, when New York City was gritty, and when Apple made quirky computers for weirdos. Our guide is Claire, a 19-year-old

who barely speaks to her bohemian co-workers, but knows when it's time to strap on an antistatic bracelet. Tamara Shopsin brings us a classically New York novel, an ode to the city that once was, that couldn't feel more timely. Interweaving the history of digital technology with a tale both touchingly human and delightfully technical, Shopsin brings an idiosyncratic cast of characters to life with a light touch, a sharp eye, and an unmistakable voice. Filled with pixelated philosophy

and lots of printers,
LaserWriter II is, at its heart,

Excerpt from Record of the
Harris Family Descended From
John Harris, Born in 1680 in
Wiltshire, England IN 1898,
when I did not know that I should
ever have the leisure requisite to
put into shape the genealogical
material that has been
accumulating in my hands during
the last thirty years, I printed
some notes on the ancestry of my
children, thinking that they would
at least furnish a clue to anyone
who might hereafter become

interested in the subject of the
history of any of the families
whose career is therein sketched,
and might desire to make it the
subject of a further study. The
leisure which I then lacked has
since come to me, and has enabled
me to prepare a more complete
account than is contained in the
earlier book, of that branch of the
Harris family which is descended
from John Harris, born about
1680, in Wiltshire, England,
through his two sons, John and
Thomas, born, respectively, in
1717 and 1722. No record such as
this can justly claim completeness
or perfect accuracy. In the course
of two hundred years some
branches of a family stray away
beyond recognition, and there are

other branches, the members of
which, who, though known, do
not sympathize with the
undertaking of making a family
record, and will not, therefore,
contribute their quota of
information. And in many cases
no accurate records have been
kept, and the several accounts
obtainable do not entirely
harmonize. I have been most
fortunate in finding many
members of the family who have
each been willing to take great
pains to furnish full information as
to that portion of the record which
specially concerns each of them,
and to the labors of these persons
it is largely due that it has been
possible to make so much of a
history of the family as is

contained in the following pages. The record is fairly complete down to the generation of the great - great grandchildren of the John Harris above named, which generation is called in the following pages the nineteenth; and as many persons of this generation are still living there should be no difficulty in each branch of the family carrying on for itself the record if it shall so desire.
