This is a really important book in the history of American art history, and one that can be read with profit and relish by artists, art historians, or people just like me art fans. Robert Henri was a wonderful artist whose impact on American art is most felt by the work of his many illustrious students, including Edward Hopper,

George Bellows, Rockwell Kent, Stuart Davis, as well as many female students who should be better known but faced discrimination in the early 1900s by sexist art critics.

- AbeBooks**

American realist painter and
educator Robert Henri (June 24,
1865–July 12, 1929) is best-
remembered for his
philosophical reflections on
the nature and purpose of art,
collected by his former pupil
Margery Ryerson in the 1923
volume The Art Spirit (public
library), which went on to
inspire and influence creators
for generations to come.

"In every human being there is
the artist, and whatever his
activity, he has an equal
chance with any to express the
result of his growth and his
contact with life. I don't
believe any real artist cares
whether what he does is 'art'
or not. Who, after all, knows
what art is?" ? Robert Henri,
The Art Spirit
