This is a really important book in the history  
of American art history, and one that can be  
read with profit and relish by artists, art  
historians, or people just like me art fans.

Robert Henri was a wonderful artist whose  
impact on American art is most felt by the  
work of his many illustrious students,  
including Edward Hopper, George Bellows,  
Rockwell Kent, Stuart Davis, as well as many  
female students who should be better known  
but faced discrimination in the early 1900s by  
sexist art critics.
