The Wizard's Craftbook Simon and Schuster

Find your way through every part of J.R.R. Tolkien's great creation, from the Middle-earth of The Hobbit and The Lord of the Rings to the undying lands of the West... The Atlas of Tolkien's Middle-earth is an essential guide to the geography of Middle-earth, from its founding in the Elder Days - as recounted in The Silmarillion - to the Third Age of The Lord of the Rings, including the journeys of Bilbo, Frodo and the Fellowship of the Ring. Hundreds of maps and diagrams survey the journeys of the principal characters day by day - including all the battles and key locations of the First, Second and Third Ages. Plans and descriptions of castles, buildings and distinctive landforms accompany thematic maps describing climate, vegetation, languages and population throughout the history of Middle-earth.

Queen Zixi of Ix Graphic Arts Books

Journeys of Frodo is an Atlas of 51 maps charting the epic journey that Frodo, and his companions undertake in J.R.R. Tolkien's epic work, The Lord of the Rings. Based on clear and detailed descriptions given in the text and on the original maps that appear The Lord of the Rings, as well as Tolkien's own paintings and drawings of the landscape and features of Middle-earth, this book clearly shows Frodo's route, together with the paths taken by other principal characters. The maps provide enough detail to help the reader envisage the country through which the narrative moves, and each one also has extensive notes about the journey. Having loved the volumes of The Lord of the Rings since they first appeared, Barbara Strachey wanted fuller and more detailed maps to go with them. Though not a professional cartographer or artist, she finally decided to create them herself. For nearly 20 years her efforts have provided readers of The Lord of the Rings with a new and more vivid idea of Middle-earth and her book remains an essential Tolkien's great masterpiece - Provided by Publisher.

The World Factbook 2003 Princeton University Press

Few settings in literature are as widely known or celebrated as J.R.R. Tolkien's Middle-Earth. The natural landscape plays a major role in nearly all of Tolkien's major works, and readers have come to view the geography of this fictional universe

as integral to understanding and enjoying Tolkien's works. And in laying out this continent, Tolkien paid special attention to its plant life; in total, over 160 plants are explicitly mentioned and described as a part of Middle-Earth. Nearly all of these plants are real species, and many of the fictional plants are based on scientifically grounded botanic principles. In *Flora of Middle Earth: Plants of Tolkien's Legendarium*, botanist Walter Judd gives a detailed species account of every plant found in Tolkien's universe, complete with the etymology of the plant's name, a discussion of its significance within Tolkien's work, a description of the plant's distribution and ecology, and an original hand-drawn illustration by artist Graham Judd in the style of a woodcut print. Among the over three-thousand vascular plants Tolkien would have seen in the British Isles, the authors show why Tolkien may have selected certain plants for inclusion in his universe over others, in terms of their botanic properties and traditional uses. The clear, comprehensive alphabetical listing of each species, along with the visual identification key of the plant drawings, adds to the reader's understanding and appreciation of the Tolkien canon.

[The Science of Middle-earth](#) St. Martin's Griffin

Written by the writer and broadcaster Brian Sibley, this slipcase features Tolkien's maps of The Hobbit, Beleriand and Middle-earth. Each map is presented in a box-set illustrated by Tolkien artist John Howe, the conceptual artist employed by Peter Jackson to work on his Lord of The Rings film trilogy. The maps, presented with individual books and wallets show Tolkien's mythical lands in detail - they are also bound with fewer folds, making them suitable for portfolios or framing.

[The Complete History of Middle-Earth](#) William Morrow

An in-depth analysis of the major battles of Tolkien's works, from The Hobbit to The Lord of the Rings. Find out how each battle came about and how it shaped the course of Middle-earth's history in this beautifully-bound leatherette volume, the third title in a successful trilogy

[An Atlas of Tolkien](#) HarperCollins

Meanwhile, 100 experts from around the world, and a whole team of Britannica fact-checkers, fulfill Britannica's reputation for authentic, trustworthy information. Full of amazing facts you can trust, this updated edition of Britannica's bestselling encyclopedia will spark curiosity and wonder in every reader.

The Old English Exodus Britannica Books

Karen Wynn Fonstad's THE ATLAS OF MIDDLE-EARTH is an essential volume that will enchant all Tolkien fans. Here is the definitive guide to the geography of Middle-earth, from its founding in the Elder Days through the Third Age, including the journeys of Bilbo, Frodo, and the Fellowship of the Ring. Authentic and updated -- nearly one third of the maps are new, and the text is fully revised -- the atlas illuminates the enchanted world created in THE SILMARILLION, THE HOBBIT, and THE LORD OF THE RINGS. Hundreds of two-color maps and diagrams survey the journeys of the principal characters day by day -- including all the battles and key locations of the First, Second, and Third Ages. Plans and descriptions of castles, buildings, and distinctive landforms are given, along with thematic maps describing the climate, vegetation, languages, and population distribution of Middle-earth throughout its history. An extensive appendix and an index help readers correlate the maps with Tolkien's novels.

The Illustrated World of Tolkien HarperCollins Publishers

The surprising and illuminating look at how Tolkien's love of science and natural history shaped the creation of his Middle Earth, from its flora and fauna to its landscapes. The world J.R.R. Tolkien created is one of the most beloved in all of literature, and continues to capture hearts and imaginations around the world. From Oxford to ComiCon, the Middle Earth is analyzed and interpreted through a multitude of perspectives. But one essential facet of Tolkien and his Middle Earth has been overlooked: science. This great writer, creator of worlds and unforgettable character, and inventor of language was also a scientific autodidact, with an innate interest and grasp of botany, paleontologist and geologist, with additional passions for archeology and chemistry. Tolkien was an acute observer of flora and fauna and mined the minds of his scientific friends about ocean currents and volcanoes. It is these layers science that give his imaginary universe—and the creatures and characters that inhabit it—such concreteness. Within this gorgeously illustrated edition, a range of scientists—from astrophysicists to physicians, botanists to volcanologists—explore Tolkien's novels, poems, and letters to reveal their fascinating scientific roots. A rewarding combination of literary exploration and scientific discovery, The Science of Middle Earth reveals the hidden meaning of the Ring's corruption, why Hobbits have big feet, the origins of the Dwarves, the animals which inspired the dragons, and even whether or not an Ent is possible. Enhanced by superb original drawings, this transportive work will delight both Tolkien fans and science lovers and inspire us to view both Middle Earth—and our own world—with fresh eyes.

The Atlas of Tolkien's Middle-Earth HarperCollins

The perfect Father's Day gift Tolkien's works have inspired artists for generations and have given rise to myriad interpretations of the rich and magical worlds he created. The Illustrated World of Tolkien gathers together artworks and essays from expert illustrators, painters and etchers, and fascinating and scholarly writing from renowned Tolkien expert David Day, and is an exquisite reference guide for any fan of Tolkien's work, Tolkien's world and the imaginative brilliance his vision inspired. Published to coincide with the 40th Anniversary of the publication of the international bestseller The Tolkien Bestiary, The Illustrated World of Tolkien revisits the work of some of the original illustrators but also features works from artists who have contributed to David Day's more recent books. This work is unofficial and is not authorized by the Tolkien Estate or HarperCollins Publishers.

Tolkien's World Imagine That! Studios

"The Writer's Map is an atlas of the journeys that our most creative storytellers have made throughout their lives. This collection encompasses not only the maps that appear in their books but also the many maps that have inspired them, the sketches that they used while writing, and others that simply sparked their curiosity. " -- Publisher's description

The Maps of Tolkien's Middle-earth Simon and Schuster

Part three of the lord of the rings trilogy.

The Last Ringbearer HarperCollins Publishers

JRR Tolkien's inspiration for his best-selling books, The Lord of the Rings, has always been a mystery. Tolkien himself stated that his ideas came to him as though they already existed, but he couldn't name their source. For generations countless researchers and biographers have sought to identify Tolkien's inspiration without success. Now, at last, the answer is at hand. Abyssinia (modern day Ethiopia) was an ancient Christian Empire that was one of the world's four greatest powers after the time of Christ, but it became isolated by the rise of Islam. Besieged in its highland fortress, it became a land untouched by the passage of time. It survived as the only part of Africa that was not colonized by European powers, and became internationally prominent in the years immediately prior to Tolkien's writing because of the Italian war in 1935. Home to a 3,000 year old dynasty of kings and the horse-riding prowess of the Oromo tribe, Abyssinia's history is rich and varied. The legends of its greatest saints are unique, and around its borders it faced powerful enemies. The Real Middle-earth: The Origins of The Lord of the Rings reveals fascinating insights into Tolkien and the ancient realm of Abyssinia, and makes connections between them that will leave you astounded. About the Author Michael Muhling was born in Perth in 1971. He began reading The Lord of the Rings when he was ten years old, and has been a fan of Tolkien ever since. Mike subsequently became an avid reader of the fantasy genre, but Tolkien remained his favourite author because of the depth and detail in his stories. Several years ago Mike and his wife began taking a keen interest in Ethiopia, and in 2005 Mike identified the connection between Tolkien and Ethiopia (Abyssinia). Since then they have travelled to Ethiopia three times, thoroughly enjoying its history, culture and hospitality. Mike lives in Perth, Australia, with his wife and two children.

The Real Middle-Earth William Morrow Paperbacks

A steampunk sci-fi fantasy featuring a duo of British investigators determined to uncover a dark conspiracy in Victorian London. Evil is most assuredly afoot—and Britain's fate rests in the hands of an alluring renegade . . . and a librarian. These are dark days indeed in Victoria's England. Londoners are vanishing, then reappearing, washing up as corpses on the banks of the Thames, drained of blood and bone. Yet the Ministry of Peculiar Occurrences—the Crown's clandestine organization whose bailiwick is the strange and unsettling—will not allow its agents to investigate. Fearless and exceedingly lovely Eliza D. Braun, however, with her bulletproof corset and a disturbing fondness for dynamite, refuses to let the matter rest . . . and she's prepared to drag her timorous new partner, Wellington Books, along with her into the perilous fray. For a malevolent brotherhood is operating in the deepening London shadows, intent upon the enslavement of all Britons. And Books and Braun—he with his encyclopedic brain and she with her remarkable devices—must get to the twisted roots of a most nefarious plot . . . or see England fall to the Phoenix!

The Atlas of the Dragonlance World HarperCollins

"The Old English Exodus is based on full notes for a series of lectures delivered to a special class in Oxford in the 1930s and 1940s; the notes were retouched in the following decade. It was never intended to be an edition, although the lecturer scrupulously drew up and edited text as basis of his commentary. It is an interpretation of the poem, designed to reconstruct the original (as far as that is possible), and to place it in the context of Old English poetry"--Publisher's description

A Middle-Earth Traveller Simon and Schuster

For J. R. R. Tolkien lovers everywhere, here's an innovative book celebrating The Hobbit and Lord of the Rings through poems, stories, songs, and dozens of illustrations. Included are critical essays by such esteemed writers as W. H. Auden and Edmund Wilson, who explore Tolkien's imaginative world. From paintings and drawings to crossword puzzles and recipes, this is an enchanting tribute to one of the most beloved storytellers of the 20th century. More J. R. R. Tolkien titles
