In **THE AUDACITY OF HYPE**, Armando Iannucci cuts straight to the heart of the insanity and sherbet-headed nonsense of modern life. **THE AUDACITY OF HYPE** brings together his views on diverse subjects, ranging from wickedly funny pen portraits of the sometimes loveable, usually despicable chumps who like to think of themselves as our political elite, and their bonkers schemes to save the world that are in fact likely to do us more harm than a pile of witches, to WMD, disaster movies, the pitfalls of 'I'm A Celebrity, Get Me Out Of Here' and the high and mighty rhetoric of Obama, this is an absurdly entertaining and utterly indispensable collection from one of Britain's most brilliant satirists. **Dwelling in Political Landscapes** Oxford University Press, USA

A lively, up-to-date overview of the newest research in biosocial criminology What is the relationship between criminality and biology? Nineteenth-century phrenologists insisted that criminality was innate, inherent in the offender's brain matter. While they were eventually repudiated as pseudo-scientists, today the pendulum has swung back. Both criminologists and biologists have begun to speak of a tantalizing but disturbing possibility: that criminality may be inherited as a set of genetic deficits that place one at risk to commit theft, violence, or acts of sexual deviance. But what do these new theories really assert? Are they as dangerous as their forerunners, which the Nazis and other eugenicists used to sterilize, incarcerate, and even execute thousands of supposed "born" criminals? How can we prepare for a future in which leaders may propose crime-control programs based on biology? In this second edition of **The Criminal Brain**, Nicole Rafter, Chad Posick, and Michael Rocque describe early biological theories of crime and provide a lively, up-to-date overview of the newest research in biosocial criminology. New chapters introduce the theories of the latter part of the 20th century; apply and critically assess current biosocial and evolutionary theories, the developments in neuro-imaging, and recent progressions in fields such as epigenetics; and finally,

provide a vision for the future of criminology and crime policy from a biosocial perspective. The book is a careful, critical examination of each research approach and conclusion. Both compiling and analyzing the body of scholarship devoted to understanding the criminal brain, this volume serves as a condensed, accessible, and contemporary exploration of biological theories of crime and their everyday relevance.

Over the last few years, often when David Mitchell has been on holiday, the comedian Stewart Lee has been attempting to understand modern Britain in a weekly newspaper column. Why are there so few right-wing stand-ups? Who was Grant Shapps? What does your Spotify playlist data say about you? Are Jeremy Corbyn and Stewart Lee really the new Christs? And so on. Introduced, annotated and, where necessary, explained by the author, Content Provider is funny, grumpy and provocative.

Alan Partridge is Britain's most remarkable broadcaster. He's scaled the giddy heights of a short-lived TV chat show, and the crashing lows of twenty-six weeks in a motel equidistant between Norwich and London. He's survived the death of a guest on air, his wife leaving him for a fitness instructor, an encounter with a mentalist fan, being crushed beneath a dead cow and incomplete sex with a woman he was supposed to be sacking. He's suffered a breakdown, Toblerone addiction, weight gain and his autobiography **Bouncing Back** being withdrawn and pulped. But Alan continues to bounce back - resilience and Gordon are his middle names. He's still playing his eclectic mix of music and hosting phone-ins on subjects as controversial as 'Should the police learn Kung-Fu?' and 'How long could you survive on just crisps?' Alan Partridge: Every Ruddy Word charts Alan's incredible journey - from his first, unforgettable radio chat show, to the recent construction of a house to his own specifications. Why don't you join him? Join him . . .

This book sheds new light on the role of the

military in Italian society and culture during war and peacetime by bringing together a whole host of contributors across the interdisciplinary spectrum of Italian Studies. Divided into five thematic units, this volume examines the continuous and multifaceted impact of the military on modern and contemporary Italy. The Italian context offers a particularly fertile ground for studying the cultural impact of the military because the institution was used not only for defensive/offensive purposes, but also to unify the country and to spread ideas of socio-cultural and technological development across its diverse population.

Bad food has a history. Swindled tells it.

Through a fascinating mixture of cultural and scientific history, food politics, and culinary detective work, Bee Wilson uncovers the many ways swindlers have cheapened, falsified, and even poisoned our food throughout history. In the hands of people and corporations who have prized profits above the health of consumers, food and drink have been tampered with in often horrifying ways--padded, diluted, contaminated, substituted, mislabeled, misnamed, or otherwise faked. Swindled gives a panoramic view of this history, from the leaded wine of the ancient Romans to today's food frauds--such as fake organics and the scandal of Chinese babies being fed bogus milk powder. Wilson pays special attention to nineteenth- and twentieth-century America and England and their roles in developing both industrial-scale food adulteration and the scientific ability to combat it. As Swindled reveals, modern science has both helped and hindered food fraudsters--increasing the sophistication of scams but also the means to detect them. The big breakthrough came in Victorian England when a scientist first put food under the microscope and found that much of what was sold as "genuine coffee" was anything but--and that you couldn't buy pure mustard in all of London. Arguing that industrialization, laissez-faire politics, and globalization have all hurt the quality of food, but also that food swindlers have always been helped by consumer ignorance, Swindled ultimately calls for both governments and individuals to be more vigilant. In fact, Wilson suggests, one of our best protections is simply to reeducate ourselves about the joys of food and cooking.

'It's the kind of f***-up that would normally have Malcolm Tucker, Number 10's Communications Director, the master of spin and the "Matrix" spitting blood ... No,

the guilty party in this instance is none other than Tucker himself. The man who likes to keep an iron grip on every news item in the media and every policy announcement that comes out of the government, has only gone and LEFT A CONFIDENTIAL FILE ON A TRAIN: The DoSAC Files.' Based around the idea that King of Spin Malcolm Tucker has lost a confidential and highly-damaging file on a train, this book is a collection of highly sensitive documents: personnel files, policy drafts, letters and emails, transcripts of phone calls, election campaign documents and top secret papers on the government's media strategy for wars and recessions. There are also more personal documents such as the early drafts of Tucker's diary, in no legal condition for publication. It's explosive stuff, which could end careers on both sides, including Tucker's own... From the team behind the award-winning and phenomenally successful The Thick Of It, and the Oscar-nominated In The Loop, comes the official tie-in book, The DoSAC Files. Written by the show's creator Armando Iannucci along with his co-writers Jesse Armstrong, Tony Roche, Simon Blackwell and swearing consultant Ian Martin, The DoSAC Files looks set to be the political satire event of the year.

Journalist, presenter, broadcaster, husband, father, vigorous all-rounder - Alan Partridge - a man with a fascinating past and an amazing future.

Gregarious and popular, yet Alan's never happier than when relaxing in his own five-bedroom, south-built house with three acres of land and access to a private stream. But who is this mysterious enigma? Alan Gordon Partridge is the best - and best-loved - radio presenter in the region. Born into a changing world of rationing, Teddy Boys, apes in space and the launch of ITV, Alan's broadcasting career began as chief DJ of Radio Smile at St. Luke's Hospital in Norwich. After replacing Peter Flint as the presenter of Scout About, he entered the top 8 of BBC sports presenters. But Alan's big break came with his primetime BBC chat show Knowing Me, Knowing You. Sadly, the show battled against poor scheduling, having been put up against News at Ten, then in its heyday. Due to declining ratings, a single catastrophic hitch (the killing of a guest on air) and the dumbing down of network TV, Alan's show was cancelled. Not to be dissuaded, he embraced this opportunity to wind up his production company, leave London and fulfil a lifelong ambition to return to his roots in local radio. Now single, Alan is an intensely private man but he opens up, for the second time, in this candid, entertaining, often deeply emotional - and of course compelling - memoir, written entirely in his own words. (Alan quickly dispelled the idea of using a ghost writer. With a grade B English Language O-Level, he knew he was up to the task.) He speaks touchingly about his tragic Toblerone addiction, and the painful moment when unsold copies of his first autobiography, Bouncing Back,

were pulped like 'word porridge'. He reveals all about his relationship with his ex-Ukrainian girlfriend, Sonja, with whom he had sex at least twice a day, and the truth about the thick people who make key decisions at the BBC. A literary tour de force, I, Partridge: We Need to Talk About Alan charts the incredible journey of one of our greatest broadcasters.

The Sun newspaper asked if Chris Morris's July 2001 Brass Eye Special on paedophilia was 'the sickest TV ever?' It was certainly the most controversial, though his uncompromising style of comedy meant he was rarely far from trouble. Morris first came to national prominence at the heart of a group of virtually unknown comedians brought together by Armando Iannucci. This book follows them from their 1991 news satire *On the Hour*, which transferred from radio to television where it was reinvented as the equally successful *The Day Today*. It became impossible to watch bulletins without thinking of Morris's Paxmanesque anchor character chastising a reporter -- 'Peter! You've lost the news!' -- or authoritatively delivering nonsense headlines: 'Sacked chimney worker pumps boss full of mayonnaise.' Meanwhile co-star Steve Coogan created a lasting anti-hero in Alan Partridge, imbued with a horrible life all of his own. But Morris himself was always the most compelling character of all. Drawing on exclusive new

interviews and original research, this book creates a compelling portrait of Morris from his earliest radio days and of the comedians and writers who frequently took on the industry they worked in, polarising opinion to such a degree that government ministers threatened to ban them entirely.
