Bump to Birthday, Pregnancy & First Year Journal Random House

"Check out that baby bump!" Online and print magazines, television shows, and personal blogs are awash with gossip and speculation about pregnant celebrities. What drives our cultural obsession with celebrity baby bumps? Pregnant with the Stars examines the American fascination with, and judgment of, celebrity pregnancy, and exposes how our seemingly innocent interest in "baby bumps" actually reinforces troubling standards about femininity, race, and class, while increasing the surveillance and regulation of all women in our society. This book charts how the American understanding of pregnancy has evolved by examining pop culture coverage of the pregnant celebrity body. Investigating and comparing the media coverage of pregnant celebrities, including Jennifer Garner, Angelina Jolie, Beyoncé Knowles, Kristen Bell, M.I.A., Jodie Foster, and Mila Kunis, Renée Cramer shows us how women are categorized and defined by their pregnancies. Their stories provide a paparazzi-sized lens through which we can interpret a complex set of social and legal regulations of pregnant women. Cramer exposes how cultural ideas like the "rockin' post-baby body" are not only unattainable; they are a means of social control. Combining cultural and legal analysis, Pregnant with the Stars uncovers a world where pregnant celebrities are governed and controlled alongside the recent, and troubling, proliferation of restrictive laws aimed at women in the realm of reproductive justice and freedom. Cramer asks each reader and cultural consumer to recognize that the seeing, judging, and discussion of the "baby bump" isn't merely frivolous celebrity gossip—it is an act of surveillance, commodification, and control.

"This is one of the best books I have read on the subject" The Sun "Fresh, witty and reassuringly down-to-earth" You Magazine Fed up with advice that did not take into account a less than perfect pregnancy, Dr Chiara Hunt and Marina Fogle set up their pregnancy course, The Bump Class, in London in 2013. They wanted to help prepare new mothers thoroughly for the birth of their babies and instil in them the joy and happiness of birth, no matter what the method, time or setting of the labour. This book is a pragmatic and honest look at pregnancy, giving pregnant women and new mothers sensible and practical advice on what is to be expected (as well as the often unexpected!) in a friendly and open manner. Chiara and Marina believe that there is no such thing as a "normal" pregnancy or birth — every woman is different and that should be celebrated, not ignored. The Bump Class is filled with charming illustrations, impartial advice, style tips and hilarious anecdotes from both of the authors, as well as personal stories from the women who have been welcomed onto their course. This book will provide every pregnant woman with the support and reassurance that is so essential at the most crucial time in any woman's life.

Belly Laughs, 10th anniversary edition HarperCollins

When Daphne Adler, a mother and mathematician, was pregnant, a colleague scolded her for sprinkling parmesan cheese on her pasta. After dutifully dumping her dinner in the trash, she decided to investigate to find out whether the admonishment and similar warnings were based on fact. What

she discovered surprised her-and will surprise you, too. After 3 years of research where she poured over thousands of studies, Adler has reframed the parameters of what should and shouldn't be allowable during pregnancy. Her refreshing and reassuring book finally provides us with a way to separate myth from reality. Fact or fallacy? Debunking the Bump sets the record straight with eye-opening revelations such as: \* 44% of obstetricians never mention the most important avoidable cause of birth defects.\* Less than half of all pregnant women are counseled about the most dangerous activity they could undertake while pregnant.\* In the long list of forbidden foods, one category is 10,000 times more risky than others...but its danger is not emphasized.\* Many pregnant women cut down their consumption of the single substance that's the most beneficial to their developing baby. Debunking the Bump is a pregnancy book for women with a thirst for facts. It covers not only all the hot pregnancy topics (Is it safe to eat sushi and drink coffee?) but also a variety of additional subjects Adler's exhaustive research uncovered that aren't even mentioned in most pregnancy books. Filled with practical, actionable recommendations and clear explanations of risks and trade-offs, this unique guide will help you make informed choices so you can enjoy a relaxed and happy pregnancy. 'A truly wonderful resource for new parents and prospective parents alike.' — Adam Kay, author of This is Going to Hurt. 'Refreshingly honest . . . an insightful read for all parents to be!' — Midwife Marley 'A brilliant collection of parenthood truths and reassurances.' — Stacie Swift A no-holds-

barred collection of more than 100 real-life accounts of pregnancy, birth, and life with a baby, brought together with simple advice from pregnancy and postnatal expert Becca Maberly and consultant obstetrician Roger Marwood. This broad range of honest pregnancy, birth and parenting stories, from the likes of Clemmie Telford, Molly Gunn, Megan Rose Lane, Anna Mathur and many more, is accompanied by professional and reassuring advice from experts that will help you navigate your own experience with positivity and confidence. Nobody Tells You will give you all the tools you need to be informed and prepared for one of life's great journeys. Without any scaremongering or sugar coating, truths are shared about topics including: \* Trying to conceive \* C-Sections \* Postnatal recovery \* Not loving breastfeeding \* Self-care \* And many, many more! Inspired by her own experience and frustration at the lack of honest information, Becca Maberly, pregnancy and postnatal expert and the founder of A Mother Place, and Roger Marwood, an obstetrician and gynaecologist, compiled this collection about the highs and lows of the unique and often nerve-wracking experience of pregnancy, childbirth and beyond. Together, with the help of a range of contributors, they share their reliable, evidence-based advice with positivity and a good dose of humour. Whether you're just thinking about having a baby, you are already pregnant, or you have become a parent recently, this book is an invaluable guide.

The Bump Book Canoe Hill Publishing

'The thing about having a second baby is it's likely to differ a lot from your first experience. Sarah Ockwell's Smith's guide looks at the challenges you might face along with some practical tips to consider. The book offers a friendly feel that reminds us issues and all, we'll be just fine' Mirror, Best Baby Books for Parents 2020 Having a second baby is a very different experience from having your first, yet there is little recognition of the wide range of issues that need to be considered when bringing a second child into the family. In this incredibly helpful book, Sarah Ockwell-Smith helps parents feel more positive and prepared for life with two children. The book begins with the obvious question: when is the right time to add another member to the family? It then goes on to examine the specific issues that can arise with a second pregnancy and birth; the common concerns about siblings, such as how to prepare your firstborn for what's to come; how to cope with the practicalities of life with two young children (aka actually managing to get anything done!); and the feelings parents are likely to experience, too. The Second Baby Book examines all the questions and issues Sarah herself faced second time around, as well as sharing the experiences of the many parents who have sought her advice. It also highlights what scientific studies reveal about such issues as the spacing of children and the differences between first and second births. Practical, insightful and honest, this book will help you understand the challenges ahead but, more importantly, it will equip you to meet them with knowledge, confidence and a sense of excitement for the future.
